

### Petition Finding

After reviewing the information contained in the petition, as well as information readily available in our files, and based on the above analysis, we conclude that the petition does not present substantial scientific or commercial information indicating that the petitioned action of identifying the winter-run Puget Sound chum salmon (*Oncorhynchus keta*) in the Nisqually River system and Chambers Creek as an ESU may be warranted. As such, we find that the petition does not present substantial scientific or commercial information indicating that the winter-run Puget Sound chum salmon in the Nisqually River system and Chambers Creek populations are "species" eligible for listing under the ESA.

#### SUPPLEMENTARY INFORMATION:

**Title:** Ownership and Control Reports, Forms 102/102S, 40/40S, and 71 (Trader and Account Identification Reports) (OMB Control No. 3038–0103). This is a request for extension of a currently approved information collection.

**Abstract:** The Ownership and Control Reports (OCR) rules<sup>1</sup> created new information collection requirements via §§ 17.01, 18.04, 18.05, and 20.5. Specifically, § 17.01 provides for the filing of Form 102A, Form 102B and Form 71, as follows:

- Pursuant to § 17.01(a), futures commission merchants ("FCMs"), clearing members, and foreign brokers shall identify new special accounts to the Commission on Form 102A;<sup>2</sup>
- pursuant to § 17.01(b), clearing members shall identify volume threshold accounts to the Commission on Form 102B; and
- pursuant to § 17.01(c), omnibus volume threshold account originators and omnibus reportable sub-account originators shall identify reportable sub-accounts to the Commission on Form 71 when requested via a special call by the Commission or its designee.

Additional reporting requirements arise from § 18.04, which results in the collection of information via Form 40 from and regarding traders who own, hold, or control reportable positions; volume threshold account controllers; persons who own volume threshold accounts; reportable sub-account controllers; and persons who own reportable sub-accounts.

Reporting requirements also arise from § 20.5(a), which requires 102S reporting entities to submit Form 102S for swap counterparty or customer consolidated accounts with reportable positions. In addition, § 20.5(b) requires every person subject to books or records under current § 20.6 to complete a 40S filing after a special call upon such person by the Commission.

In addition to the reporting requirements summarized above, § 18.05 imposes recordkeeping requirements upon: (1) Traders who own, hold, or control a reportable futures or options on futures position; (2) volume threshold account

<sup>1</sup> See Commission, Final Rule: Ownership and Control Reports, Forms 102/102S, 40/40S, and 71, 78 FR 69178 (November 18, 2013). Terms used herein and not otherwise defined herein shall have the meaning assigned to such terms in the OCR rules or in the Commission's regulations.

<sup>2</sup> Form 102A is an updated version of old Form 102, which was titled "Identification of Special Accounts." Form 102A collects information with respect to position-based special accounts in the futures market. Form 102A also requires clearing members to identify the individual trading accounts underlying these special accounts.
