Title: Evaluation of the Direct Certification with Medicaid for Free and Reduced-Priced (DCM–F/RP) Meals Demonstration.

OMB Control Number: 0584—New.

Summary of Collection: Section 104 of the Child Nutrition and WIC Reauthorization Act of 2004 (Pub. L. 108–265) amended section 9(b) of the Richard B. Russell National School Lunch Act (NSLA) (42 U.S.C. 1758(b)) to require all local educational agencies that participate in the National School Lunch Program and/or the School Breakfast Program to establish a system to directly certify as eligible for free school meals children who are members of households receiving assistance under the Supplemental Nutrition Assistance Program. Section 103 of Public Law 111–296, the Healthy, Hunger-Free Kids Act of 2010, amended the NSLA to authorize the USDA's Food and Nutrition Service (FNS) to conduct and evaluate multiyear demonstration projects beginning in July 2012 in selected States and school districts to test the effectiveness of direct certification using income data available in Medicaid administrative records to determine eligibility for free school meals. In response to these mandates, FNS authorized a demonstration in School Year (SY) 2012–2013 for selected States and districts to directly certify students for free meals using income data available through Medicaid. In SY 2016–2017, FNS initiated a new demonstration where selected States will use income data from Medicaid files to identify students in households eligible to receive reduced-price meals and directly certify them at that level, in addition to directly certifying students for free meals. Through the Evaluation of the Direct Certification with Medicaid for Free and Reduced-Priced (DCM–F/RP) Meals Demonstration, FNS will be able to gather the data needed to evaluate the demonstration.

Need and Use of the Information:

This study will gather data from State Child Nutrition Agency, State Medicaid Agency, and other State Agency staffs, from local school district staffs, and from vendors. FNS will use the data to understand how States are implementing the demonstration, identify challenges encountered during

the implementation, and examine the demonstration's effectiveness in improving certification and participation outcomes and the implications for Federal reimbursement totals and State administrative costs. The data will also help FNS to identify best practices that will shape future replication and improvement.

Title: Evaluation of the School Meal Data Collection Process.

OMB Control Number: 0584—NEW.

Summary of Collection: FNS is conducting a study, the *Evaluation of the School Meal Data Collection Process*, to provide a description and evaluation of the methodologies and processes used to collect and report program data for the school meal programs via the FNS–10, FNS–742, and FNS–834 forms. The key research objectives relate to assessing how schools/sites, SFAs, and State agencies handle the following three functions: Collect/aggregate data, process or validate data, and transmit data about the school meal programs. The ultimate objective is to understand the likely sources of error within each of these functions at each reporting level.

Need and Use of the Information: The primary purpose of data collection is to provide a description and evaluation of the methodologies and processes used to collect and report program data via the FNS–10, FNS–742, and FNS–834 forms. FNS objective is to understand the likely sources of error within each of these functions at each reporting level (*i.e.*, school/site to SFA; SFA to State agency; State agency to FNS). Evaluation of the processes and identification of potential sources of error will culminate in a set of recommended practices for improving the process to increase the accuracy of school meal program data.

FNS will collect information using forms FNS–252, Supplemental Nutrition Assistance Program Application for Store, FNS–252–E, On line Supplemental Nutrition Assistance Program Application for Store, FNS 252–2, Supplemental Nutrition Assistance Program for Meal Service Application, FNS–252–C, Corporate Supplemental Application, and FNS 252–R, Supplemental Nutrition Assistance Program for Stores Reauthorization and FNS–252FE, Supplemental Nutrition Assistance Program Farmer's Market Application.
