

5070, or via email at [mdietl@usbr.gov](mailto:mdietl@usbr.gov); or Mr. Rob Thomson, Sites Project Authority, at (530) 438-2309, or via email at [EIR-EIS-Comments@SitesProject.org](mailto:EIR-EIS-Comments@SitesProject.org).

**SUPPLEMENTARY INFORMATION:** This Draft EIR/EIS describes the Sites Reservoir Project, potential alternatives to the Sites Reservoir Project, environmental setting, potential direct, indirect, and cumulative impacts that could result from implementation of each of the alternatives, and mitigation measures for potentially significant impacts, as applicable. Four alternative methods of constructing and operating the Sites Reservoir Project are evaluated in the Draft FR to meet all or the majority of the purpose, and need, and goals, and objectives of the Sites Reservoir Project. Other alternatives evaluated over the past several decades (some of which were the subject of prior CEQA and National Environmental Policy Act (NEPA) analyses and decision making) are summarized and discussed in Chapter 2 Alternatives Analysis of the Draft EIR/EIS.

The proposed Sites Reservoir Project facilities would primarily be located in Glenn and Colusa counties, approximately 10 miles west of the town of Maxwell, California. Proposed minor modifications to an existing diversion facility would also need to occur at the existing Red Bluff Pumping Plant in Tehama County, California. The Sites Reservoir Project would consist of a new offstream surface storage reservoir (Sites Reservoir) with two main dams, up to nine saddle dams, and up to three recreation areas. The Sites Reservoir would be filled via two existing Sacramento River diversions/canals (included in all alternatives) and a proposed new inlet/outlet structure and pipeline (included in the majority of alternatives). The pipeline would allow for diversion of excess Sacramento River flows for most alternatives, and discharge of water under all alternatives. Water conveyance between the reservoir and the canals and pipeline would be facilitated by two new regulating reservoirs. Pumping/generating plants would also be included as part of most alternatives. A new overhead power line would connect the pumping/generating plants and their associated electrical switchyards to an existing overhead power line in the Sites Reservoir Project area. New roads and a bridge across the proposed Sites Reservoir would be constructed to provide access to the proposed Sites Reservoir Project facilities and over the proposed reservoir, and some existing roads

would be relocated or improved. The Sites Reservoir Project would require modifications to the T-C Canal and the Holthouse Reservoir. A more complete description of the Sites Reservoir Project can be found in Chapter 3 Description of the Sites Reservoir Project Alternatives in the Draft EIR/EIS.

The Sites Reservoir Project is the subject of a Notice of Preparation (NOP) issued on November 5, 2001, to prepare an EIR under CEQA, and a Notice of Intent (NOI) published on November 9, 2001 (66 FR 56708), to prepare an EIS under NEPA. The Sites Reservoir Project was formerly known as the North-of-Delta Offstream Storage project led by the California Department of Water Resources (DWR). The Sites Project Authority has assumed the role of the CEQA lead agency in lieu of DWR and will be responsible for constructing, operating, and maintaining the Sites Reservoir Project. Because of this change in lead agency, the Sites Project Authority issued a Supplemental NOP on February 2, 2017, for the Draft EIR for the Project.

Reclamation's involvement in the Sites Reservoir Project includes the following actions: (1) The development of a Federal feasibility report, and related EIS under NEPA, to support potential funding by the Federal Government, pursuant to the Calfed Bay-Delta Authorization Act (Pub. L. 108-361); (2) the potential approval of the use of the Tehama-Colusa Canal for water diversion and conveyance of water to Sites Reservoir; and (3) the coordinated operations of Central Valley Project (CVP) facilities and the Sites Reservoir Project. In addition, Reclamation's involvement in the Sites Reservoir Project also could include: (1) Potential Federal funding of the Project pursuant to the Water Infrastructure Improvements for the Nation Act (Pub. L. 114-322); (2) participation in the power lines to and from the Sites Reservoir; (3) involvement in and jurisdiction over the potential electrical power generation from the Sites Reservoir Project; and (4) potential new legislative authority to acquire shares of the water managed by the Sites Project Authority for federal conservation activities.

If special assistance is required at the public meetings, please contact Mr. Michael Dietl at (916) 978-5070; or via email at [mdietl@usbr.gov](mailto:mdietl@usbr.gov). Please notify Mr. Dietl as far in advance as possible to enable Reclamation to secure the needed services. If a request cannot be honored, the requestor will be notified. A telephone device for the hearing impaired (TTY) is available at (800) 877-8339.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: August 14, 2017.

## INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1380  
(Preliminary)]

### Tapered Roller Bearings From Korea; Determination

On the basis of the record<sup>1</sup> developed in the subject investigation, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of tapered roller bearings from Korea, provided for in subheadings 8482.20, 8482.91, and 8482.99 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value ("LTFV").<sup>2</sup>

### Commencement of Final Phase Investigation

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce ("Commerce") of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an affirmative final determination in that investigation under section 735(a) of the Act. Parties that filed entries of

<sup>1</sup> The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

<sup>2</sup> Commissioner Meredith M. Broadbent dissenting.

appearance in the preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

### Background

On June 28, 2017, The Timken Company, North Canton, Ohio, filed a petition with the Commission and Commerce, alleging that an industry in the United States is materially injured by reason of LTFV imports of tapered roller bearings from Korea. Accordingly, effective June 28, 2017, the Commission, pursuant to section 733(a) of the Act (19 U.S.C. 1673b(a)), instituted antidumping duty investigation No. 731-TA-1380 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 5, 2017 (82 FR 31067). The conference was held in Washington, DC, on July 19, 2017, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made this determination pursuant to section 733(a) of the Act (19 U.S.C. 1673b(a)). It completed and filed its determination in this investigation on August 14, 2017. The views of the Commission are contained in USITC Publication 4721 (August 2017), entitled *Tapered Roller Bearings from Korea: Investigation No. 731-TA-1380 (Preliminary)*.

By order of the Commission.

Issued: August 14, 2017.

## INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1005]

### Certain L-Tryptophan, L-Tryptophan Products, and Their Methods of Production: Notice of Request for Statements on the Public Interest

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the presiding administrative law judge has issued a Final Initial Determination and Recommended Determination on Remedy and Bonding in the above-captioned investigation. This notice is soliciting public interest comments from the public only. Parties are to file public interest submissions pursuant to Commission rules.

**FOR FURTHER INFORMATION CONTACT:** Houda Morad, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 708-4716. The public version of the complaint can be accessed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>, and will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2000.

General information concerning the Commission may also be obtained by accessing its Internet server (<https://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

**SUPPLEMENTARY INFORMATION:** The Commission is soliciting comments on public interest issues raised by the recommended relief, should the Commission find a violation, specifically: (1) A limited exclusion order ("LEO") against certain L-tryptophan, L-tryptophan products, and their methods of production, which are imported, sold for importation, and/or sold after importation by Respondents CJ CheilJedang Corp. of Seoul, Republic of Korea, CJ America, Inc. ("CJ America") of Downers Grove, Illinois, and PT CheilJedang Indonesia of Jakarta, Indonesia (collectively "CJ" or "Respondents"); and (2) a cease and desist order ("CDO") against Respondent CJ America.

Section 337 of the Tariff Act of 1930 provides that if the Commission finds a violation it shall exclude the articles concerned from the United States:

unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds that such articles should not be excluded from entry.

19 U.S.C. 1337(d)(1). A similar provision applies to cease and desist orders. 19 U.S.C. 1337(f)(1).

The Commission is interested in further development of the record on the public interest in these investigations. Accordingly, parties are to file public interest submissions pursuant to pursuant to 19 CFR 210.50(a)(4). In addition, members of the public are hereby invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the administrative law judge's Recommended Determination on Remedy and Bonding issued in this investigation on August 11, 2017. Comments should address whether issuance of the LEO and CDO in this investigation, should the Commission find a violation, would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

- (i) Explain how the articles potentially subject to the recommended orders are used in the United States;
- (ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended orders;
- (iii) identify like or directly competitive articles that complainants, their licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;
- (iv) indicate whether complainants, complainants' licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the recommended exclusion order and/or a cease and desist order within a commercially reasonable time; and
- (v) explain how the LEO and CDO would impact consumers in the United States.

Written submissions from the public must be filed no later than by close of business on Wednesday, September 20, 2017.
