### Certain Carbon and Alloy Steel Wire Rod From the Russian Federation and the United Arab Emirates: Affirmative Preliminary Determinations of Sales at Less Than Fair Value, and Affirmative Preliminary Determination of Critical Circumstances for Imports of Certain Carbon and Alloy Steel Wire Rod From the Russian Federation

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the Department) preliminarily determines that imports of carbon and alloy steel wire rod (wire rod) from the Russian Federation (Russia) and the United Arab Emirates (the UAE) are being, or are likely to be, sold in the United States at less than fair value (LTFV). The period of these investigations (POI) is January 1, 2016, through December 31, 2016. Abinsk Electric Steel Works Ltd. (Abinsk) and JSC NLMK-Ural (NLMK Ural) are the mandatory respondents in the Russia investigation. Emirates Steel Industries PJSC (Emirates Steel) is the mandatory respondent in the UAE investigation. The estimated weighted average dumping margins of sales at LTFV are shown in the “Preliminary Determinations” section of this notice. Interested parties are invited to comment on these preliminary determinations.

**DATES:** Applicable September 12, 2017.

**FOR FURTHER INFORMATION CONTACT:** Kaitlin Wojnar, 202-482-3857 (Russia), or Carrie Bethea at 202-482-1491 (UAE), AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230.

### SUPPLEMENTARY INFORMATION:

#### Background

The Department published the notice of initiation of these investigations on April 26, 2017.<sup>1</sup> For a complete description of the events that followed the initiation of these investigations, see the Preliminary Decision Memorandum

dated concurrently with these determinations and hereby adopted by this notice.<sup>2</sup> A list of topics included in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be found at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic versions of the Preliminary Decision Memorandum are identical in content.

#### Scope of the Investigations

The products covered by these investigations are certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, less than 19.00 mm in actual solid cross-sectional diameter (wire rod). Interested parties filed comments regarding the scope of the investigations. On August 7, 2017, we issued a Preliminary Scope Decision Memorandum, which addressed these comments and established a briefing schedule for scope-related issues.<sup>3</sup> As a result of the analysis contained therein, the scope language is unchanged from that in the *Initiation Notice*.<sup>4</sup> For a full description of the scope of these investigations, see the “Scope of the Investigations,” in Appendix I.

#### Methodology

The Department is conducting these investigations in accordance with section 731 of the Tariff Act of 1930, as amended (the Act). Pursuant to section 776(a) of the Act, the Department preliminarily relied upon facts otherwise available to assign an estimated weighted-average dumping margin to the mandatory respondents from Russia, Abinsk and NLMK Ural,

<sup>2</sup> See Memorandum, “Decision Memorandum for the Preliminary Determination in the Less Than Fair Value Investigation of Carbon and Alloy Steel Wire Rod from the Russian Federation and the United Arab Emirates,” dated concurrently with this notice (Preliminary Decision Memorandum).

<sup>3</sup> See Memorandum, “Carbon and Alloy Steel Wire Rod from Belarus, Italy, the Republic of Korea, the Russian Federation, South Africa, Spain, the Republic of Turkey, Ukraine, the United Arab Emirates, and the United Kingdom: Scope Comments Decision Memorandum for the Preliminary Determinations,” August 7, 2017 (Preliminary Scope Decision Memorandum).

and the mandatory respondent from the UAE, Emirates Steel, because these respondents did not timely respond to the Department's antidumping duty questionnaire. See Preliminary Decision Memorandum for a complete explanation of the methodology and analysis underlying our preliminary application of adverse facts available.

#### All-Others Rate

Sections 733(d)(1)(A)(ii) and 735(c)(5)(A) of the Act provide that in the preliminary determination the Department shall determine an estimated all-others rate for all exporters and producers not individually investigated, which shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act. We cannot apply the methodology described in section 735(c)(5)(A) of the Act to calculate the "all-others" rate, as the margins in these preliminary determinations were both calculated under section 776 of the Act. In cases where no weighted-average dumping margins other than zero, *de minimis*, or those determined entirely under section 776 of the Act have been established for individually examined entities, in accordance with section 735(c)(5)(B) of the Act, the Department averages the margins calculated by the petitioners in the petition and applies the result to "all-other" entities not individually examined.<sup>5</sup>

With respect to Russia, in the Petition,<sup>6</sup> the petitioners calculated six margins.<sup>7</sup> Consistent with our practice, we assigned as the "all-others" rate, the simple average of the six dumping margins provided in the Petition, which is 436.76 percent.<sup>8</sup> With respect to the UAE, in the Petition,<sup>9</sup> the petitioners calculated only one margin. Therefore,

we assigned as the "all-others" rate the only margin in the Petition, which is 84.10 percent.<sup>10</sup>

#### Affirmative Preliminary Determination of Critical Circumstances for Exporters and Producers of Wire Rod From Russia

On July 6, 2017, the petitioners filed a timely critical circumstances allegation, pursuant to section 733(e)(1) of the Act and 19 CFR 351.206, alleging that critical circumstances exist with respect to imports of wire rod from Russia.<sup>11</sup> The Department preliminarily determines that critical circumstances exist with respect to imports of wire rod from Russia for Abinsk, NLMK Ural, and all other exporters and producers. For a full description of the methodology and results of the Department's analysis, see the Preliminary Decision Memorandum.<sup>12</sup>

#### Preliminary Determination

The Department preliminarily determines that the following weighted-average dumping margins exist:

RUSSIA	
Exporter/producer	Weighted-average margin (percent)
Abinsk Electric Steel Works Ltd	756.93
JSC NLMK-Ural .....	756.93
All-Others .....	436.80
UAE	
Exporter/producer	Weighted-average margin (percent)
Emirates Steel Industries PJSC	84.10
All-Others .....	84.10

#### Suspension of Liquidation

In accordance with section 733(d)(2) of the Act, we will direct U.S. Customs and Border Protection (CBP) to suspend

liquidation of all entries of wire rod from Russia and the UAE, as described in the "scope of the investigations" section entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. At such time, we will also instruct CBP, pursuant to section 733(d)(1)(B) of the Act and 19 CFR 351.205(d), to require a cash deposit equal to the margins indicated in the chart above.<sup>13</sup>

In addition, section 773(e)(2) of the Act provides that, given an affirmative determination of critical circumstances, any suspension of liquidation shall apply to unliquidated entries of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the later of (a) the date which is 90 days before the date on which the suspension of liquidation was first ordered, or (b) the date on which notice of initiation of the investigation was published. The Department preliminarily finds that critical circumstances exist for imports of subject merchandise from Russia produced by Abinsk, NLMK Ural, and all other exporters and producers not individually examined. Therefore, in accordance with section 733(e)(2)(A) of the Act, the suspension of liquidation shall also apply to unliquidated entries of merchandise from the Russian exporters/producers identified in this paragraph that were entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the publication of this notice.

The suspension of liquidation will remain in effect until further notice.

#### Verification

Because the mandatory respondents in these investigations did not provide the information requested and the Department preliminarily determines these respondents to have been uncooperative, the Department will not conduct verifications.

#### Public Comment

### U.S. International Trade Commission Notification

In accordance with section 733(f) of the Act, we are notifying the U.S. International Trade Commission (ITC) of our affirmative preliminary determination of sales at LTFV. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this

preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).
