[Docket No. EL17-89-000]

American Electric Power Service Corporation v. Midcontinent Independent System Operator, Inc., Southwest Power Pool, Inc.; Notice of Complaint

Take notice that on September 15, 2017, pursuant to sections 206 and 309 of the Federal Power Act, 16 U.S.C. 824(e) and 825(h) (2012) and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 (2017), American Electric Power Service Corporation (AEP or Complainant), on behalf of its operating company affiliate, Southwestern Electric Power Company (SWEPCO) filed a formal complaint against Midcontinent Independent System Operator, Inc. (MISO) and Southwest Power Pool, Inc. (SPP) (jointly Respondents), alleging that MISO violated the Joint Operating Agreement between MISO and SPP with respect to the assessment of certain congestion charges associated with SWEPCO loads that are pseudo-tied out of MISO and into SPP, all as more fully explained in the complaint.

AEP certifies that copies of the complaint were served on the contacts for MISO and SPP as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as

appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the eLibrary link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). [Docket No. CP16-121-000]

National Grid LNG, LLC; Notice of Schedule for Environmental Review of the Fields Point Liquefaction Project

On April 1, 2016, National Grid LNG, LLC (National Grid) filed an application in Docket No. CP16-121-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Fields Point Liquefaction Project (Project), and would involve National Grid constructing a natural gas liquefaction facility at its existing Fields Point liquefied natural gas (LNG) storage facility in Providence, Rhode Island.

On April 15, 2016, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal

authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—March 30, 2018
90-Day Federal Authorization Decision
Deadline—June 28, 2018

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project would give National Grid's customers, Narragansett Electric Company (Narragansett) and Boston Gas Company, the ability to deliver gas in vapor form for storage in National Grid's existing storage tank using an existing 12-inch-diameter pipeline owned by Narragansett. The Project would consist of an electric powered booster compressor, pretreatment system, gas regeneration heater, and liquefaction train including heat exchangers cooled by a closed loop nitrogen refrigeration cycle. The Project would not change the capacity of the existing LNG storage tank or facility.

Background

On September 25, 2015, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Planned Fields Point Liquefaction Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting* (NOI). The NOI was issued during the pre-filing review of the Project in Docket No. PF15-28 and was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; local businesses; other interested parties; and local libraries and newspapers.

In response to the NOI, the Commission received comments from 4 Rhode Island State Senators and Representatives, the Rhode Island Natural Resources Conservation Service, Rhode Island Department of Health, Rhode Island Historical Preservation and Heritage Commission, the City of Providence, 4 non-governmental organizations, and 75 individuals. In addition, 18 businesses, individuals, and organizations filed for intervention, some of which also commented on

environmental issues. The primary issues raised by the commentors are safety, public health, environmental justice, and climate change.

Existing groundwater contamination has also been identified as a potential issue at National Grid's LNG storage facility site. National Grid has submitted the necessary information to the Rhode Island Department of Environmental Management (RIDEM), and RIDEM has initiated its review of National Grid's Short Term Response Action Plan for the proposed Project in accordance with its Remediation Regulations. As a result, we are prepared to move forward with the environmental review of the proposed Project.

The U.S. Department of Transportation, the Rhode Island Coastal Resources Management Council, and RIDEM are cooperating agencies in the preparation of the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP16-121), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.
