

above, we will consider whether a center's closure would result in a significant reduction in student diversity within the overall Job Corps system.

III. Temporary Closure of the Golconda Job Corps Center

On July 19, 2017, the Department of Labor temporarily closed Golconda. Section III(I)(1) of the Interagency Agreement between DOL and USDA governing the operation of the Forest Service-operated CCCs authorizes DOL, in consultation with USDA, to "temporarily close a Job Corps CCC managed by USDA, based upon a concern for the health, safety and well-being of students, staff, and/or nearby community(ies)."

Golconda has a long history of discipline and safety issues on campus, including an inability to comply with Job Corps' discipline policy; failure to adequately notify the Department of serious incidents; and an inability to ensure that students are provided a safe, healthy, and secure learning environment. Over the past several years, DOL has made numerous attempts to partner with the Forest Service and center leadership to address these issues. However, despite the introduction of multiple new procedures on center and the efforts of numerous different center directors, the operation of the center has not improved and there has been no improvement in the safety of the students at Golconda. After careful assessment, DOL, after consultation with USDA, determined that Golconda's problems were so intractable that the center was temporarily closed to ensure the health and safety of the students and staff currently on center.

IV. Proposal to Permanently Close the Golconda Job Corps Center

Based on the performance-based criteria, and after applying the additional considerations described above, the Department proposes to permanently close the Golconda Job Corps Center.

In applying the performance-based criteria, the Department first calculated the five-year OMS performance level, the five-year OBS, and the five-year FCI and then calculated the Overall Rating for Primary Selection Factors, as described above, using data from PY 2012–2016. Golconda received the lowest Overall Rating for Primary Selection Factors and, therefore, the lowest ranking.

After ranking the centers based on the primary criteria, the Department then applied the additional considerations.

The Department determined that these considerations did not preclude closure of Golconda. The Department is requesting public comments on the selection of Golconda for closure.

V. The Process for Closing Job Corps Centers, as Outlined in the Workforce Innovation and Opportunity Act

The Department's process for closing Job Corps centers will follow the requirements of section 159(j) of the WIOA, which include the following:

- The proposed decision to close a particular center is announced in advance to the general public through publication in the **Federal Register** or other appropriate means;
- A reasonable comment period, not to exceed 30 days, is established for interested individuals to submit written comments to the Secretary; and
- The Member of Congress who represents the district in which such center is located is notified within a reasonable period of time in advance of any final decision to close the center.

This Notice serves as the public announcement of the decision to close the Golconda CCC. The Department is providing a 30-day period—the maximum amount of time allowed for comment under WIOA sec. 159(j)—for interested individuals to submit written comments on the proposed decision to close these centers.

Deputy Assistant Secretary for Employment and Training.
