

(TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-2839-015.

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. This application is not ready for environmental analysis at this time.

l. The existing Great Falls Project consists of: (1) A 160-foot-long, 32-foot-high curved, concrete dam with 2-foot-high flashboards; (2) an approximately 12-acre impoundment having a storage capacity of 135-acre-feet at a normal full pond water surface elevation of 668.38 feet above mean sea level; (3) an 18.5-foot-wide headworks structure with two headgates; (4) a headworks gate house; (5) an intake structure and bypass pipe that are integral to the dam; (6) a 290-foot-long power canal; (7) two sluice gates; (8) an intake gate house with two trashracks; (9) a 200-foot-long metal penstock; (10) a 47-foot-long, 25-foot-wide powerhouse containing a 1,350-kilowatt (kW) turbine-generator unit and a 40-foot-long, 40-foot-wide powerhouse containing two 350-kW turbine-generator units, for a total capacity of 2,050-kW; (11) a 350-foot-long, 2.4-kilovolt (kV) above-ground generator lead that connects the turbine-generator units to a step-up transformer; (12) a 1.75-mile-long, 12.5-kV above-ground transmission line; and (13) appurtenant facilities.

The Village of Lyndonville Electric Department (Lyndonville) operates the project in a run-of-river mode with an annual average energy production of approximately 3,960 megawatt-hours. Lyndonville is not proposing any changes in project operation. Lyndonville proposes to continue to release a year-round minimum flow of 10 cfs (or inflow, whichever is less) to the bypassed reach to maintain habitat for fish and aquatic organisms and release a minimum flow of 75 cfs (or inflow, whichever is less) from the powerhouse during project shutdowns to protect fish and aquatic resources in the downstream reach. Lyndonville proposes to install an automatic pond level control system to improve control of impoundment water surface level fluctuations. Lyndonville also proposes

to develop a minimum flow monitoring plan to ensure adequate flow is provided to the bypassed reach and downstream of the powerhouse.

Lyndonville also proposes to construct and maintain a new carry-in boat access trail downstream of the tailrace, on the west bank of the Passumpsic River, designate a new bank fishing area, and install a designated parking area outside of the project gates along the access road to the project. To ensure the adequacy of project recreation facilities, Lyndonville proposes to conduct a Recreation Inventory, Use and Needs Assessment within one year of completion of recreational improvements. Finally, Lyndonville proposes to develop a Historic Properties Management Plan to protect historic resources.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. A copy is available for inspection and reproduction at the address in Item H above.

n. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

o. Scoping Process:

Commission staff intends to prepare a single Environmental Assessment (EA) for the Great Falls Hydroelectric Project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts, and reasonable alternatives to the proposed action.

Commission staff does not propose to conduct on-site scoping meetings at this time. Instead, we are soliciting comments, recommendations, and information on the Scoping Document 1 (SD1) issued on September 27, 2017.

Copies of SD 1 outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list and the applicant's distribution list. Copies of SD 1 may be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call 1-866-208-3676 or for TTY, call (202) 502-8659.

Dated: September 27, 2017.

Kimberly D. Bose,
Secretary.

EXPORT-IMPORT BANK OF THE UNITED STATES

[Public Notice 2017-6007]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the U.S.

ACTION: Submission for OMB review and comments request.

Form Title: EIB 11-03, Used Equipment Questionnaire.

SUMMARY: The Export-Import Bank of the United States (Ex-Im Bank), as a part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995.

This collection will provide information needed to determine compliance and creditworthiness for transaction requests involving previously-owned equipment submitted to Ex-Im Bank under its insurance, guarantee, and direct loan programs. Information presented in this form will be considered in the overall evaluation of the transaction, including Export-Import Bank's determination of the appropriate term for the transaction.

The form can be viewed at: <https://www.exim.gov/sites/default/files/forms/eib11-03.pdf>.

DATES: Comments should be received on or before December 4, 2017, to be assured of consideration.

ADDRESSES: Comments may be submitted electronically on <http://www.regulations.gov> or by mail to Mardel West, Export-Import Bank of the United States, 811 Vermont Avenue NW., Washington, DC 20571.

SUPPLEMENTARY INFORMATION:

Titles and Form Number: EIB 11-03, Used Equipment Questionnaire.

OMB Number: 3048-0039.

Type of Review: Regular.

Need and Use: The information collected will provide information needed to determine compliance and creditworthiness for transaction requests involving previously-owned equipment submitted to the Export Import Bank under its insurance, guarantee, and direct loan programs.

Affected Public

This form affects entities involved in the export of U.S. goods and services.

Annual Number of Respondents: 1,000.

Estimated Time per Respondent: 15 minutes.

Annual Burden Hours: 250 hours.

Frequency of Reporting or Use: As needed.

Government Expenses

Reviewing Time per Year: 250 hours.

Average Wages per Hour: \$42.50.

Average Cost per Year: \$10,625 (time * wages).

Benefits and Overhead: 20%.

Total Government Cost: \$12,750.

Bassam Doughman,
IT Specialist.
