ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[EPA–R09–RCRA–2017–0523; FRL–9968–85–Region 9]

Arizona: Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Arizona has applied to the EPA for final authorization of changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). These changes correspond to certain federal rules promulgated between May 26, 1998 and July 28, 2006 (also known as RCRA Cluster VIII (checklist 167D) and Clusters IX through XVII). EPA has reviewed Arizona's application with regards to federal requirements and is proposing to authorize the state's changes.

DATES: Comments on this proposed rule be received by November 6, 2017.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA–R09–RCRA–2017–0523 at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit

<http://www2.epa.gov/dockets/commenting-epa-dockets>. You may also view Arizona's application by contacting the Arizona Department of Environmental Quality Records Center at 602–771–4380, Monday through Friday: 8:30 a.m. to 4:30 p.m.

FOR FURTHER INFORMATION CONTACT:

Laurie Amaro, U.S. Environmental Protection Agency, Region 9, Land Division, 75 Hawthorne Street (LND–1–1), San Francisco, CA 94105, phone number: 415–972–3364, email: amaro.laurie@epa.gov.

SUPPLEMENTARY INFORMATION:

A. Why are revisions to state programs necessary?

States which have received final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the federal program. As the federal program changes, states must change their programs and ask EPA to authorize the changes. Changes to state programs may be necessary when federal or state statutory or regulatory authority is modified or when certain other changes occur. Most commonly, states must change their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 268, 270, 273, and 279.

B. What decisions has EPA made in this rule?

EPA concludes that Arizona's application to revise its authorized program meets all statutory and regulatory requirements established by RCRA, as set forth in RCRA section 3006(b), 42 U.S.C. 6926(b), and 40 CFR part 271. Therefore, EPA proposes to grant Arizona final authorization to operate as part of its hazardous waste program the changes listed below in Section F of this document, as further described in the authorization application.

Arizona has responsibility for permitting treatment, storage, and disposal facilities within its borders (except in Indian country) and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA).

C. What is the effect of today's authorization decision?

The effect of this decision is that the changes described in Arizona's authorization application will become part of the authorized state hazardous waste program, and therefore will be

federally enforceable. Arizona will continue to have primary enforcement authority and responsibility for its state hazardous waste program. EPA retains its authorities under RCRA sections 3007, 3008, 3013, and 7003, including its authority to:

- Conduct inspections, and require monitoring, tests, analyses or reports;
- Enforce RCRA requirements, including authorized state program requirements, and suspend or revoke permits; and
- Take enforcement actions regardless of whether the state has taken its own actions.

This action does not impose additional requirements on the regulated community because the regulations for which Arizona is being authorized by today's action are already effective, and are not changed by today's action.

D. What happens if EPA receives comments that oppose this proposed action?

EPA will consider all comments received during the comment period and address all such comments in a final rule. You may not have another opportunity to comment. If you want to comment on this authorization, you must do so at this time.

E. For what has Arizona previously been authorized?

Arizona initially received final authorization on November 20, 1985 to implement its base hazardous waste management program. Arizona received authorization for revisions to its program on August 6, 1991 (56 FR 37290 effective October 7, 1991), July 13, 1992 (57 FR 30905 effective September 11, 1992), November 23, 1992 (57 FR 54932 effective January 22, 1993), October 27, 1993 (58 FR 57745 effective December 27, 1993), July 18, 1995 (60 FR 36731 effective June 12, 1995), March 7, 1997 (62 FR 10464 effective May 6, 1997), October 28, 1998 (63 FR 57605–57608 effective December 28, 1998), and March 17, 2004 (69 FR 12544 effective March 17, 2004), originally published on October 27, 2000 (65 FR 64369).

F. What changes is EPA authorizing with today's action?

Arizona submitted a final complete program revision application to EPA dated July 14, 2017 seeking authorization of changes to its hazardous waste program that correspond to certain federal rules promulgated between May 26, 1998 and July 28, 2006 (also known as RCRA Cluster VIII (Checklist 167D only) and

Clusters IX (Checklists 169 and 173–180) and Clusters X through XVII). EPA proposes to determine, subject to receipt of written comments that oppose this action, that Arizona's hazardous waste program revisions are equivalent to, consistent with, and no less stringent than the federal program, and therefore satisfy all the requirements necessary to qualify for final authorization.

Accordingly, EPA proposes to grant Arizona final authorization for the following program changes:

Program Revision Changes for Federal Rules

Arizona adopts by reference the federal RCRA regulations in effect January 29, 2007, at Arizona Administrative Code (AAC) Title 18, Chapter 8, Article 2 (AAC R18–8–260

through 280 effective September 30, 2016). The federal requirements for which the State is being authorized are listed in the table below noting the Arizona Administrative Register (AAR) volume and page and the AAC implementing rule sections. An asterisks (*) after a checklist number indicates a rule which is optional for state adoption.

STATE ANALOGUES TO THE FEDERAL PROGRAM

| Description of Federal requirement and checklist No. (* indicates optional) | Federal Register volume, page and date | Analogous Arizona Register (volume/page) and administrative code |
|---|--|--|
| Mineral Processing Secondary Materials Exclusion Rule. (Checklist 167 D *). | 63 FR 28556, May 26, 1998 ... | 6 AAR 3093, AAC R18–8–261(A), R18–8–268, July 24, 2000. |
| Petroleum Refining Process Wastes Rule. (Checklist 169) | 63 FR 42110, August 6, 1998 | 6 AAR 3093, AAC R18–8–261, 266, 268, July 24, 2000. |

| Corrections to Errors in the Code of Federal Regulations (partial; no corrections incorporated from Parts 267 or 279). (Checklist 214). | 71 FR 40254, July 14, 2006 ... | 14 AAR 409, AAC R18–8–260, 261, 262, 264, 265, 266, 267, 268, 270, 271 and 273, March 3, 2008. |
| Cathode Ray Tubes Rule. (Checklist 215 *) | 71 FR 42928, July 28, 2006 ... | 14 AAR 409, AAC R18–8–260 and 261, March 3, 2008. |

G. Where are the revised state rules different from the federal rules?

Since 1984, Arizona hazardous waste rules have contained several procedural requirements that are more stringent than EPA’s. These more stringent procedural requirements are authorized by Arizona Revised Statutes (ARS) section 49–922, which in directing Arizona to adopt hazardous waste rules, prohibits only nonprocedural standards that are more stringent than EPA:

1. Hazardous Waste Manifests. Arizona requires hazardous waste generators; transporters; and treatment, storage, and disposal facilities (TSDFs) to provide a copy of all hazardous waste

manifests to Arizona monthly. [See AAC R18–8–262(I) and (J); R18–8–263(C), R18–8–264(J) and R18–8–265(J).] Federal regulations governing distribution of copies of the manifest do not require manifests to be provided to the state.

2. Annual Reports. Hazardous waste large quantity generators (LQGs) and TSDFs must submit reports to Arizona annually rather than every two years as the federal regulations require. [See AAC R18–8–260(E)(3); R18–8–262(H), R18–8–264(I) and R18–8–265(I).] Small quantity generators (SQGs) must also submit annual rather than biennial reports under R18–8–262(H).

3. Recyclers are required to submit annual reports to Arizona rather than no reports at all. [AAC R18–8–261(J)].

EPA cannot delegate the federal requirements in 40 CFR 261.39(a)(5) and 261.41 contained in the Cathode Ray Tubes Rule set forth in 71 FR 42928, July 28, 2006. While Arizona adopted these requirements by reference in 14 AAR 409, AAC R18–8–260 and 261, EPA will continue to implement these requirements.

EPA gave notice at 80 FR 18777 of the removal of the provisions at 40 CFR 261.4(a)(16) and 40 CFR 261.38 related to comparable fuels due to the D.C. Circuit’s vacatur of the “Hazardous

Waste Combustors Revised Standards'' Final Rule (63 FR 33782, June 19, 1998) in *Natural Res. Def. Council v. EPA*, 755 F.3d 1010 (D.C. Cir. 2014). This rule was previously adopted and approved as part of Arizona's authorized program, but in light of the vacatur, EPA no longer considers these provisions to be part of Arizona's federally authorized program.

Other than the differences discussed above, Arizona incorporates by reference the remaining federal rules listed in Section F; therefore, there are no significant differences between the remaining federal rules and the revised state rules being authorized today.

H. Who handles permits after the authorization takes effect?

Arizona will issue permits for all the provisions for which it is authorized and will administer the permits it issues. Section 3006(g)(1) of RCRA, 42 U.S.C. 6926(g)(1), gives EPA the authority to issue or deny permits or parts of permits for requirements for which the State is not authorized. Therefore, whenever EPA adopts standards under HSWA for activities or wastes not currently covered by the authorized program, EPA may process RCRA permits in Arizona for the new or revised HSWA standards until Arizona has received final authorization for such new or revised HSWA standards. EPA and Arizona have agreed to a joint permitting process for facilities covered by both the authorized program and standards under HSWA for which the State is not yet authorized, and for handling existing EPA permits after the State receives authorization.

I. How does today's action affect Indian country (18 U.S.C. 1151) in Arizona?

Arizona is not authorized to carry out its hazardous waste program in Indian country within the State, which includes the Cocopah Tribe of Arizona; Fort Mojave Indian Tribe of Arizona, California & Nevada; Gila River Indian Community of the Gila River Indian Reservation; Havasupai Tribe of the Havasupai Reservation; Hopi Tribe of Arizona; Hualapai Indian Tribe of the Hualapai Indian Reservation; Kaibab Band of Paiute Indians of the Kaibab Indian Reservation; Navajo Nation; Quechan Tribe of the Fort Yuma Indian Reservation; Salt River Pima-Maricopa Indian Community of the Salt River Reservation; San Carlos Apache Tribe of the San Carlos Reservation; San Juan Southern Paiute Tribe of Arizona; Tohono O'odham Nation; Yavapai-Apache Nation of the Camp Verde Indian Reservation; and the Yavapai-Prescott Indian Tribe. Therefore, this

action has no effect on Indian country. EPA retains jurisdiction over Indian country and will continue to implement and administer the RCRA program on these lands.

J. What is codification and is EPA codifying Arizona's hazardous waste program as authorized in this rule?

Codification is the process of placing the state's statutes and regulations that comprise the state's authorized hazardous waste program into the Code of Federal Regulations. EPA does this by referencing the authorized state rules in 40 CFR part 272. EPA is not codifying the authorization of Arizona's changes at this time. However, EPA reserves the amendment of 40 CFR part 272, subpart D for this authorization of Arizona's program changes until a later date.

K. Administrative Requirements

The Office of Management and Budget (OMB) has exempted this action (RCRA State authorization) from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011). This action authorizes State requirements for the purpose of RCRA 3006 and imposes no additional requirements beyond those imposed by State law. Therefore, this action is not subject to review by OMB. This action is not an Executive Order 13771 (82 FR 9339, February 3, 2017) regulatory action because actions such as today's proposed authorization of Arizona's revised hazardous waste program under RCRA are exempted under Executive Order 12866. This action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action authorizes pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). For the same reason, this action also does not significantly or uniquely affect the communities of Tribal governments, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes State requirements as part of

the State RCRA hazardous waste program without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355 May 22, 2001), because it is not a significant regulatory action under Executive Order 12866.

Under RCRA 3006(b), the EPA grants a State's application for authorization, as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for the EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, the EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. The EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the Executive Order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Executive Order 12898 (59 FR 7629, February 16, 1994) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States. Because this rule authorizes pre-existing State rules which are at least equivalent to, and no less stringent than existing

federal requirements, and impose no additional requirements beyond those imposed by State law, and there are no anticipated significant adverse human health or environmental effects, the rule is not subject to Executive Order 12898. The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This action nevertheless will be effective 60 days after the final approval is published in the **Federal Register**.

List of Subjects in 40 CFR Part 271

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous waste, Hazardous waste transportation, Indian lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements.

Authority: This action is issued under the authority of sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

Dated: September 26, 2017.

Alexis Strauss,

Acting Regional Administrator, Region 9.

Waste Prevention, Production Subject to Royalties, and Resource Conservation; Delay and Suspension of Certain Requirements

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed rule.

SUMMARY: On November 18, 2016, the Bureau of Land Management (BLM) published in the **Federal Register** a final rule entitled, “Waste Prevention, Production Subject to Royalties, and Resource Conservation” (2016 final rule). The BLM is now proposing to temporarily suspend or delay certain requirements contained in the 2016 final rule until January 17, 2019. The BLM is currently reviewing the 2016 final rule and wants to avoid imposing temporary or permanent compliance costs on operators for requirements that may be rescinded or significantly revised in the near future.

DATES: Send your comments on this proposed rule to the BLM on or before November 6, 2017. As explained later, the BLM is also requesting that the Office of Management and Budget (OMB) extend the control number (1004-0211) for the 24 information collection activities that would continue in this proposed rule. If you wish to comment on this request, please note that such comments should be sent directly to the OMB, and that the OMB is required to make a decision concerning the collection of information contained in this proposed rule between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment to the OMB on the proposed information collection revisions is best assured of being given full consideration if the OMB receives it by November 6, 2017.

ADDRESSES:

Mail: U.S. Department of the Interior, Director (630), Bureau of Land Management, Mail Stop 2134LM, 1849 C St. NW., Washington, DC 20240, Attention: 1004-AE52.

Personal or messenger delivery: U.S. Department of the Interior, Bureau of Land Management, 20 M Street SE., Room 2134 LM, Washington, DC 20003, Attention: Regulatory Affairs.

Federal eRulemaking Portal: <https://www.regulations.gov>. In the Searchbox, enter “RIN 1004-AE54” and click the “Search” button. Follow the instructions at this Web site. Comments on the information collection burdens: **Fax:** Office of Management and Budget (OMB), Office of Information and Regulatory Affairs, Desk Officer for the Department of the Interior, fax 202-395-5806.

Electronic mail: *OIRA Submission@omb.eop.gov*. Please indicate “Attention: OMB Control Number 1004-0211,” regardless of the method used to submit comments on the information collection burdens. If you submit comments on the information collection

burdens, you should provide the BLM with a copy, at one of the addresses shown earlier in this section, so that we can summarize all written comments and address them in the final rule preamble.

FOR FURTHER INFORMATION CONTACT:

Catherine Cook, Acting Division Chief, Fluid Minerals Division, 202-912-7145, or ccook@blm.gov, for information regarding the substance of this proposed rule or information about the BLM’s Fluid Minerals program. For questions relating to regulatory process issues, contact Faith Bremner, Regulatory Analyst, at 202-912-7441, or fbremner@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339, 24 hours a day, 7 days a week, to leave a message or question with the above individuals. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION:

- IV. Procedural Matters

I. Public Comment Procedures

If you wish to comment on this proposed rule, you may submit your comments by any of the methods described in the **ADDRESSES** section.

Please make your comments on the proposed rule as specific as possible, confine them to issues pertinent to the proposed rule, and explain the reason for any changes you recommend. Where possible, your comments should reference the specific section or paragraph of the proposal that you are addressing. The BLM is not obligated to consider or include in the Administrative Record for the final rule comments that we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

Comments, including names and street addresses of respondents, will be available for public review at the address listed under “**ADDRESSES: Personal or messenger delivery**” during regular hours (7:45 a.m. to 4:15 p.m.), Monday through Friday, except holidays. Before including your address, telephone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we
