The Federal Communications Commission ("Commission") received approval from the OMB to develop a new application titled, "Application for Authority to Construct or Make Changes in an International Broadcast Station (FCC Form 420-IB)" to request authority from the Commission to construct or make changes in an international broadcast station. This application has not been implemented and released to the public yet due to a lack of budget resources and technical staff. After the FCC Form 420-IB has been implemented and the Commission has obtained final approval from the OMB, it will be completed by international broadcasters in lieu of the "Application for Authority to Construct or Make Changes in an International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station," (FCC Form 309). In the interim, applicants will continue to file the FCC Form 309 with the Commission. (Note: The OMB approved the FCC Form 309 under OMB Control No. 3060-1035.

The information collected pursuant to the rules set forth in 47 CFR part 73, subpart F, is used by the Commission to assign frequencies for use by international broadcast stations, to grant authority to operate such stations and to

determine if interference or adverse propagation conditions exist that may impact the operation of such stations. If the Commission did not collect this information, it would not be in a position to effectively coordinate spectrum for international broadcasters or to act for entities in times of frequency interference or adverse propagation conditions. The orderly nature of the provision of international broadcast service would be in jeopardy without the Commission's involvement.

Federal Communications Commission.
