The Summer Transportation Internship Program for Diverse Groups (STIPDG) is an important part of U.S. DOT's intermodal effort to promote the entry of women, persons with disabilities, and members of diverse groups into transportation careers where traditionally these groups have been under-represented. Accordingly, The Federal Highway Administrations' Office of Innovative Program Delivery will support the STIPDG by working closely with FHWA's Office of Human Resources, specifically the Corporate Recruitment and Career Entry Group, which has

responsibility for administering the program, to include participation and placement of college students, DOT-wide, and for all occupational disciplines, to include summer intern placement DOT-wide and nationwide.

The STIPDG anticipates accepting approximately 500 applications each year and placing an estimated 60–120 undergraduate, graduate, and law students in transportation-related, non-administrative, technical, hands-on assignments with a Federal or State mentor providing on-the-job training. The STIPDG will provide college students with an opportunity to work on current transportation-related topics and issues identified in, or directly pertaining to, the current DOT Strategic Plan. DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2018-0004]

Petition for Waiver of Compliance

Under part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that on November 11, 2017, Brightline (BLF) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 229, *Railroad Locomotive Safety Standards*. FRA assigned the petition docket number FRA-2018-0004.

BLF has purchased ten Siemens SCB-40 locomotives to power Brightline trains between Miami and Orlando, Florida. BLF requests relief from the requirements of 49 CFR 229.61, *Draft system*, with respect to the daily inspection procedure for the front coupler. The locomotives are equipped

with a streamlined front coupler cover for improved aerodynamic and esthetic purposes. BLF will use the front coupler for rescue purposes only, and proposes to remove the coupler cover at 184-day inspection intervals as required by 49 CFR 229.23 (b)(1). During the daily inspection the front coupler will be visually inspected as best as possible from the bottom. The nose cone will not be removed unless the bottom visual inspection warrants further investigation based on the requirements of 49 CFR 229.61. If the front coupler is used in operations prior to the next daily inspection, the coupler will be completely inspected before the coupler cover is replaced.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590.
