SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for extension of a currently approved information collection.

When creating a Request to Archive oceanographic data or information at the United States (U.S.) National Centers for Environmental Information (NCEI), well-organized and complete metadata describing those data are needed for long term understanding and use of those data. The Send2NCEI web application provides a web-based form for easily collecting required and optional descriptive metadata to describe oceanographic data in a way that supports Executive Order 12906 and structures those metadata to conform to the internationally used ISO 19115 Geospatial Metadata suite of standards. Descriptive metadata informs the suitability of data for use by future data users and should provide critical context about how data were collected, what techniques and measurements were made, and data quality characterizations. Information about the data provider or other individuals is

only used by NCEI to contact the data provider with questions about submitted data, about the status of the data in the archival process, and to provide appropriate scientific recognition and attribution for submitted data. Send2NCEI will be used by earth, ocean, and atmospheric scientists and their data managers.
