Glycine From the People's Republic of China: Notice of Court Decision Not in Harmony With Final Results of the Antidumping Duty Administrative Review; 2010–2011

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Court of International Trade (CIT or Court) sustained the final remand results pertaining to the administrative review of the antidumping duty order on glycine from the People's Republic of China (China), covering the period of March 1, 2010, through February 28, 2011. The Department of Commerce (Commerce) is notifying the public that the final judgment in this case is not in harmony with Commerce's final results of the administrative review and that Commerce is amending the final results with respect to the dumping margin assigned to Baoding Mantong Fine Chemistry Co. Ltd. (Baoding Mantong).

DATES: Applicable January 26, 2018.

FOR FURTHER INFORMATION CONTACT: Madeline Heeren or Edythe Artman, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–9179 or (202) 482–3931, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 18, 2012, Commerce published the *Final Results*,¹ in which it determined Baoding Mantong to have a weight-averaged dumping margin of 453.79 percent for the period under review. On November 3, 2015, the Court remanded these results to Commerce for reconsideration of all aspects of its determination of the margin assigned to

Baoding Mantong in the *Final Results*.² In the final results of redetermination, Commerce relied on surrogate financial information that resulted in a dumping margin of 64.97 percent.³ On April 19, 2017, the Court remanded the revised results to Commerce for reconsideration of the selection of certain surrogate values in its determination of the margin assigned to Baoding Mantong.⁴ In its second final results of redetermination, Commerce revised the surrogate values for three inputs—liquid ammonia, formaldehyde and steam coal—which resulted in a dumping margin of 0.00 percent.⁵ On December 20, 2017, the Court sustained the Second Results of Redetermination.⁶

Timken Notice

In its decision in *Timken*,⁷ as clarified by *Diamond Sawblades*,⁸ the Court of Appeals for the Federal Circuit held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), Commerce must publish a notice of a court decision that is not “in harmony” with a Commerce determination and must suspend liquidation of entries pending a “conclusive” court decision. The CIT's December 20, 2017, final judgment sustaining the Second Results of Redetermination constitutes a final decision of the Court that is not in harmony with Commerce's *Final Results*. This notice is published in fulfillment of the *Timken* publication requirements. Accordingly, Commerce will continue the suspension of liquidation of the subject merchandise pending a final and conclusive court decision.

Amended Final Results of Review

Because there is now a final court decision, Commerce is amending the *Final Results* with respect to the dumping margin calculated for Baoding Mantong. Based on the Second Results of Redetermination, as sustained by the CIT, the revised dumping margin for Baoding Mantong, for the period March
