SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Alternative Reporting Methods for Apprenticeship and Training Plans and Top Hat Plans information collection. Section 2520.104-22 provides an exemption to the reporting and provision of Part 1 of Title I of ERISA for employee welfare benefit plans that provide exclusively apprenticeship and training benefits if the plan administrator meets the following requirements: (1) Files a notice with the Secretary that provides the name of the plan, the plan sponsor's Employer Identification Number, the plan administrator's name, and the name and location of an office or person from whom interested individuals can obtain certain info about courses offered by the plan; and (2) take steps reasonably designed to ensure that the information required to be contained in the notice is disclosed to employees of employers contribution to the plan who may be eligible to enroll in any course of study sponsored or establish by the plan; (3) and make the notice available to employees upon request. Under 2520.104-23, the Department provides an alternative method of compliance with the reporting and disclosure of Title I of ERISA for unfunded or insured plan established for a select group of management of highly compensated employees (*i.e.*, top hat plans). In order to satisfy the alternative method of compliance, the plan administrator must file a statement with the Secretary of Labor that includes the name and address of the employer, the employer EIN, a declaration that the employer maintains a plan or plans primarily for the purpose of providing deferred compensation for a select group of management or highly compensated employees, and a statement of the number of such plans and the employees covered by each. Employee Retirement Income Security Act of 1974 authorizes this information collection. See 29 U.S.C. 1023.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA

and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0153.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 22, 2017 (82 FR 23303).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. NASA's founding legislation, the Space Act of 1958, as amended, directs the agency to expand human knowledge of Earth and space phenomena and to preserve the role of the United States as a leader in aeronautics, space science, and technology. The NASA Office of Education administers the agency's national education activities in support of the Space Act, including the performance measurement and evaluation of educational projects and programs. This generic clearance will allow the NASA Office of Education to continue to test and pilot with subject matter experts, secondary students, higher education students, educators, and interested parties new and existing information collection forms and assessment instruments for the purposes of improvement and establishing validity and reliability characteristics of the forms and instruments. Existing information collections include Undergraduate Internship Impact Surveys (Baseline and Follow-up Instruments), Undergraduate Internship Impact Surveys (Retrospective and Traditional Developed Instruments), STEM Challenges Impact Surveys (Student Baseline and Follow-up Instruments), STEM Challenges Impact Surveys (Educator Retrospective Instruments), One Stop Shopping Initiative (OSSI) Student-level data application, and Office of Education
