SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before May 7, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email *PRA@fcc.gov* and to *Nicole.Ongele@fcc.gov*.

Needs and Uses: On April 28, 2017, the Commission released the *Business Data Services Order*, WC Docket No. 16–143 *et al.*, FCC 17–43, which establishes a new regulatory framework for business data services. Under this framework, price cap incumbent LECs are no longer subject to price cap regulation of their: (a) Packet-based business data services; (b) time-division multiplexing (TDM) transport business data services; (c) TDM business data services with bandwidth in excess of a DS3; and (d) DS1 and DS3 end user channel terminations, and other lower bandwidth TDM business data services, to the extent a price cap incumbent LEC provides them in counties deemed competitive under the Commission's competitive market test or in counties for which the price cap incumbent LEC had obtained Phase II pricing flexibility under the Commission's prior regulatory regime. The *Business Data Services Order* required that, within 36 months of its effective date (*i.e.*, by August 1, 2020), price cap incumbent LECs must remove all business data services that are no longer subject to price cap regulation from their interstate tariffs. The Order also required that, by that same deadline, competitive LECs must remove all business data services from their interstate tariffs.

The information collected through the carriers' tariffs is used by the Commission and state commissions to determine whether services offered are just and reasonable as the Act requires. The tariffs and any supporting documentation are examined in order to determine if the services are offered in a just and reasonable manner.

Federal Communications Commission.
