

provisions of the Code) generally require group health plans to offer qualified beneficiaries the opportunity to elect continuation coverage following certain events that would otherwise result in the loss of coverage. Continuation coverage is a temporary extension of the qualified beneficiary's previous group health coverage. The right to elect continuation coverage allows individuals to maintain group health coverage under adverse circumstances and to bridge gaps in health coverage that otherwise could limit their access to health care. The Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) provides the Secretary of Labor (the Secretary) with authority under section 608 of ERISA to carry out the continuation coverage provisions. The Conference Report that accompanied COBRA divided interpretive authority over the COBRA provisions between the Secretary and the Secretary of the Treasury (the Treasury) by providing that the Secretary has the authority to issue regulations implementing the notice and disclosure requirements of COBRA, while the Treasury is authorized to issue regulations defining the required continuation coverage. The ICR contained in these rules was approved by OMB under OMB Control No. 1210-0123. The current approval is scheduled to expire on December 31, 2019.

Agency: Employee Benefits Security Administration, Department of Labor.

Title: Model Employer Children's Health Insurance Program Notice.

Type of Review: Extension of a currently approved collection of information.

OMB Number: 1210-0137.

Affected Public: Businesses or other for-profits, Farms, Not-for-profit institutions.

Respondents: 5,897,699.

Responses: 175,973,641.

Estimated Total Burden Hours: 706,828.

Estimated Total Burden Cost (Operating and Maintenance): \$16,963,859.

Description: The Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA, Pub. L. 111-3) was signed into law on February 4, 2009. Under ERISA section 701(f)(3)(B)(i)(I), PHS Act section 2701(f)(3)(B)(i)(I), and section 9801(f)(3)(B)(i)(I) of the Code, as added by CHIPRA, an employer that maintains a group health plan in a State that provides medical assistance under a State Medicaid plan under title XIX of the Social Security Act (SSA), or child health assistance under a State child health plan under title XXI of the SSA,

in the form of premium assistance for the purchase of coverage under a group health plan, is required to make certain disclosures. Specifically, the employer is required to notify each employee of potential opportunities currently available in the State in which the employee resides for premium assistance under Medicaid and CHIP for health coverage of the employee or the employee's dependents. ERISA section 701(f)(3)(B)(i)(II) requires the Department of Labor to provide employers with model language for the Employer CHIP Notices to enable them to timely comply with this requirement. This ICR relates to the Model Employer CHIP Notice, which was approved by OMB under OMB Control No. 1210-0137. The current approval is scheduled to expire on December 31, 2019.

Focus of Comments

The Department is particularly interested in comments that:

- Evaluate whether the collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the collections of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., by permitting electronic submissions of responses.

Comments submitted in response to this notice will be summarized and/or included in the ICRs for OMB approval of the extension of the information collection; they will also become a matter of public record.

Joseph S. Piacentini,

*Director, Office of Policy and Research,
Employee Benefits Security Administration.*

BILLING CODE 4510-29-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (19-007)]

Notice of Intent To Grant Partially Exclusive License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of intent to grant partially exclusive patent license.

SUMMARY: NASA hereby gives notice of its intent to grant a partially exclusive patent license in the United States to practice the invention(s) described and claimed in U.S. Patent Application No. 15/014,608 entitled "Nuclear Thermionic Avalanche Cells with Thermoelectric (NTAC-TE) Generator in Tandem Mode," NASA Case Number LAR-17981-1; U.S. Patent Application No. 15/995,467 entitled "Portable Compact Thermionic Power Cell," NASA Case Number LAR-18860-1; U.S. Patent Application No. 15/479,679 entitled "Metallic Junction Thermoelectric Generator," NASA Case Number LAR-18866-1; U.S. Patent Application No. 62/621,930 titled "Selective and Direct Deposition Technique for Streamlined CMOS Processing," NASA Case Number LAR-18925-P2; U.S. Patent Application No. 62/643,292 entitled "Portable Miniaturized Thermionic Power Cell with Multiple Regenerative Layers," NASA Case No. LAR-18926-P; U.S. Patent Application No. 62/643,303 entitled "High Performance Electric Generators Boosted by Nuclear Electron Avalanche (NEA)," NASA Case No. LAR-19112-P; U.S. Patent Application No. 62/642,198 entitled "Co-60 Breeding Reactor Tandem with Thermionic Avalanche Cell," NASA Case No. LAR-18762-P; U.S. Patent Application No. 62/678,006 entitled "Multi-Layered Radio-Isotope for Enhanced Photoelectron Avalanche Process," NASA Case No. LAR-19420-P to BlackRock Energy Corporation, having its principal place of business in Williamsburg, VA. The fields of use may be limited to mobile and/or transportable, as opposed to stationary (where stationary means permanently fixed and not capable of being moved), power/energy sources for United States Department of Defense (specifically the Army, Navy, Air Force, Marine Corps, and Coast Guard, as well as any future created Space Corps) applications, including but not limited to powering mobile and/or transportable high energy weaponry, including the weaponry's mode of transport (including but not limited to tanks, surface vessels, trucks, aircraft, Unmanned Underwater Vehicles (UUVs), Autonomous Underwater Vehicles (AUVs), and drones), high energy weapon platforms, and portable power stations for use at Forward Operating Bases (where Forward Operating Bases means airfields used to support tactical operations without establishing full support facilities). The licensed

exclusive fields of use may exclude all other fields, including but not limited to any outer space applications intended for use beyond 400,000 feet above Earth's mean sea level. NASA has not yet made a determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

DATES: The prospective partially exclusive license may be granted unless NASA receives written objections, including evidence and argument no later than April 11, 2019 that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dohi Act and implementing regulations. Competing applications completed and received by NASA no later than April 11, 2019 will also be treated as objections to the grant of the contemplated partially exclusive license. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

ADDRESSES: Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, NASA Langley Research Center, MS 30, Hampton, Virginia 23681. Phone (757) 864-3221. Facsimile (757) 864-9190.

FOR FURTHER INFORMATION CONTACT: Jennifer L. Riley, Patent Attorney, Office of Chief Counsel, NASA Langley Research Center, MS 30, Hampton, Virginia 23681. Phone (757) 864-3221. Facsimile (757) 864-9190.

SUPPLEMENTARY INFORMATION: This notice of intent to grant a partially exclusive patent license is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i). The patent rights in these invention(s) have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective partially exclusive license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.

Mark Dvorscak,
Agency Counsel for Intellectual Property.

BILLING CODE 7510-13-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-277 and 50-278; NRC-2018-0266]

Exelon Generation Company, LLC; Peach Bottom Atomic Power Station; Units 2 and 3

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; withdrawal by applicant.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Exelon Generation Company, LLC to withdraw its application dated September 27, 2018, for proposed amendments to Renewed Facility Operating License Nos. DPR-44 and DPR-56. The proposed amendments would have modified Technical Specification (TS) 3.3.6.2, "Secondary Containment Isolation Instrumentation."

DATES: March 27, 2019.

ADDRESSES: Please refer to Docket ID NRC-2018-0266 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0266. Address questions about Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The "Peach Bottom, Units 2 and 3, License Amendment Request—Technical Specifications Section 3.3.6.2 Functions 3 and 4 Applicability Changes Pertaining to Reactor Building and Refueling Floor Ventilation," is available in ADAMS under Accession No. ML18271A009.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

Jennifer Tobin, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-2328; email: Jennifer.Tobin@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC has granted the request of Exelon Generation Company, LLC (the licensee) to withdraw its September 27, 2018, application (ADAMS Accession No. ML18271A009) for proposed amendments to Renewed Facility Operating License Nos. DPR-44 and DPR-56 for the Peach Bottom Atomic Power Station, Units 2 and 3, respectively, located in York County, Pennsylvania.

The proposed amendments would have authorized revisions to TS 3.3.6.2, "Secondary Containment Isolation Instrumentation," to modify the applicability of Functions 3 and 4. Specifically, Function 3 (reactor building ventilation exhaust radiation—high) would have been revised to only be required when Function 4 (refueling floor ventilation exhaust radiation—high) was not maintained. Function 4 would have been revised to only be required when Function 3 was not maintained. Further, this change would have clarified which standby gas treatment subsystems were required to be put into operation or declared inoperable as described in TS 3.3.6.2, Condition C, for Required Actions C.2.1 and C.2.2.

On November 20, 2018, a **Federal Register** notice was published (83 FR 58612) indicating a finding of no significant impact for the proposed license amendment. On March 11, 2019 (ADAMS Accession No. ML19071A062), the licensee sent a letter requesting withdrawal of the license amendment application.

Dated at Rockville, Maryland, this 21st day of March, 2019.

For the Nuclear Regulatory Commission.

Jennifer C. Tobin,
Project Manager, Plant Licensing Branch LPL-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.
