

to establish an Office of Minority and Women Inclusion (OMWI) to be responsible for all matters of the Agency relating to diversity in management, employment, and business activities. The Act also instructed each OMWI Director to develop standards for assessing the diversity policies and practices of entities regulated by the Agency. The Agencies worked together to develop joint standards (Joint Standards) and, on June 10, 2015, they jointly published in the **Federal Register** the “Final Interagency Policy Statement Establishing Joint Standards for Assessing the Diversity Policies and Practices of Entities Regulated by the Agencies” (Policy Statement). The Agencies will use the information provided to them to monitor progress and trends in the financial services industry with regard to diversity and inclusion in employment and contracting activities, as well as to identify and highlight those policies and practices that have been successful. The primary federal financial regulator will share information with other agencies, when appropriate, to support coordination of efforts and to avoid duplication. The Agencies may publish information disclosed to them, such as best practices, in any form that does not identify a particular entity or individual or disclose confidential business information. This is a routine request for OMB to renew its approval of the collections of information currently approved under this OMB control number.

Request for Comments: Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record.

SUPPLEMENTARY INFORMATION:

Title of Collection: Debt Collection Quantitative Disclosure Testing.

OMB Control Number: 3170-XXXX.

Type of Review: New Collection (Request for a New OMB Control Number).

Affected Public: Individuals.

Estimated Number of Respondents: 17,750 (includes screener and survey).

Estimated Total Annual Burden Hours: 3,555.

Abstract: The Dodd-Frank Wall Street Reform and Consumer Protection Act (Pub. L. 111-203) and other Federal consumer financial laws authorize the Bureau to engage in consumer protection rule writing. The Bureau relies on empirical evidence and rigorous research to improve its understanding of consumer financial markets for regulatory purposes. This PRA clearance seeks approval from OMB to conduct a web survey of 8,000 individuals as part of the Bureau’s research on debt collection disclosures.

The survey will explore consumer comprehension and decision making in response to debt collection disclosure forms. The survey will oversample respondents who have had experience with debt collection in the past.

Request for Comments: The Bureau issued a 60-day **Federal Register** notice on June 5, 2017, 82 FR 25779, Docket Number: CFPB-2017-0013. Further, the Bureau published a 30-day **Federal Register** notice on 11/14/2017, 82 FR 52712, Docket No. CFPB-2017-0038. This request was then withdrawn by the Bureau after submission to OMB, therefore we are now re-publishing a thirty day notice for this collection and re-submitting it to OMB. Comments were solicited and continue to be invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information

technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.

Dated: January 29, 2019.
