This notice is exempt from review by the Office of Management and Budget under Executive Order 12866.

Regulatory Flexibility Act

This action is not a rule as defined by the Regulatory Flexibility Act (5 U.S.C. 601-612) and thus is exempt from the provisions of this Act.

Paperwork Reduction Act of 1995

This notice does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3507).

Executive Order 12372

This program is listed in the Catalog of Federal Domestic Assistance Programs under No. 10.557, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials (7 CFR part 3015, subpart V, 48 FR 29100, June 24, 1983, and 49 FR 22675, May 31, 1984).

Description

Section 17(d)(2)(A) of the Child Nutrition Act of 1966, as amended (42 U.S.C. 1786(d)(2)(A)), requires the Secretary of Agriculture to establish income criteria to be used with nutritional risk criteria in determining a person's eligibility for participation in the WIC Program. The law provides that persons will be income-eligible for the WIC Program if they are members of families that satisfy the income standard prescribed for reduced-price school meals under section 9(b) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)). Under section 9(b), the income limit for reduced-price school meals is 185 percent of the Federal poverty guidelines, as adjusted. Section 9(b) also requires that these guidelines be revised annually to reflect changes in the Consumer Price Index. The annual revision for 2019 was published by the Department of Health and Human Services (HHS) at 84 FR 1167, February 1, 2019. The guidelines published by HHS are referred to as the "poverty guidelines."

Program Regulations at 7 CFR 246.7(d)(1) specify that State agencies

may prescribe income guidelines either equaling the income guidelines established under Section 9 of the Richard B. Russell National School Lunch Act for reduced-price school meals, or identical to State or local guidelines for free or reduced-price health care. However, in conforming WIC income guidelines to State or local health care guidelines, the State cannot establish WIC guidelines which exceed the guidelines for reduced-price school meals, or which are less than 100 percent of the Federal poverty guidelines. Consistent with the method used to compute income eligibility guidelines for reduced-price meals under the National School Lunch Program, the poverty guidelines were multiplied by 1.85 and the results rounded upward to the next whole dollar.

At this time, the Department is publishing the maximum and minimum WIC income eligibility guidelines by household size for the period of July 1, 2019 through June 30, 2020. Consistent with section 17(f)(17) of the Child Nutrition Act of 1966, as amended (42 U.S.C. 1786(f)(17)), a State agency may implement the revised WIC income eligibility guidelines concurrently with the implementation of income eligibility guidelines under the Medicaid Program established under Title XIX of the Social Security Act (42 U.S.C. 1396, *et seq.*). State agencies may coordinate implementation with the revised Medicaid guidelines, *i.e.*, earlier in the year, but in no case may implementation take place later than July 1, 2019. State agencies that do not coordinate implementation with the revised Medicaid guidelines must implement the WIC income eligibility guidelines on or before July 1, 2019.

The table in this Notice contains the income limits by household size for the 48 contiguous States, the District of Columbia, and all United States Territories, including Guam. Separate tables for Alaska and Hawaii have been included for the convenience of the State agencies because the poverty guidelines for Alaska and Hawaii are higher than for the 48 contiguous States.

Authority: 42 U.S.C. 1786.

Dated: March 28, 2019.

Brandon Lipps,

Administrator, Food and Nutrition Service.

SUPPLEMENTARY INFORMATION:

Title: Fire & Aviation Management Medical Qualifications Program.

OMB Number: 0596-0164.

Expiration Date of Approval: June 30, 2019.

Type of Request: Extension.

Abstract: The Protection Act of 1922 (16 U.S.C. 594) authorizes the Forest Service to fight fires on National Forest System lands. This information collection is an approved Forest Service collection. The collection covers the USDA Forest Service and the Department of the Interior, and contains the information collection activities and burden hours for both agencies.

Wildland firefighters perform long hours of arduous labor in adverse environmental conditions. It is imperative that these firefighters be in sufficient physical condition to avoid injury to themselves or their coworkers. Federal employees and private individuals seeking employment as a firefighter with the Forest Service or the Department of Interior complete the health capability forms. This information collection covers the forms and burden hours associated with the private individuals who apply for firefighter positions with the aforementioned agencies.

Form FS-5100-30, *Work Capacity Test—Informed Consent*. The form is signed by those deemed to be in sufficient health to undergo a Work Capacity Test. The Work Capacity Test determines the level of an individual's aerobic fitness, level of muscular strength, and muscle endurance. The consent form is necessary to ensure the individual taking the test is aware of the various testing levels (arduous, moderate, and light) and the risks involved. The individual indicates the following:

- They have read the information on the form, the brochure “Work Capacity Test” and understand the purpose, instructions, and risks of the test;

- They have read the information, understood, and truthfully answered the Health Screen Questionnaire; and

- Test to be taken—pack test (arduous), field test (moderate), or walk test (light).

Failure to collect this data could result in injuries or deaths during the “Work Capacity Test” and while working on wildland fires. The information provided by an applicant for Federal employment is stored in secured official files, maintained according to Agency regulations. The information gathered is not available from other sources.

Estimate of Annual Burden: 5.5 Minutes.

Type of Respondents: Individuals.

Estimated Annual Number of Respondents: 20,504.

Estimated Annual Number of Responses per Respondents: 1.

Estimated Total Annual Burden on Respondents: 1,845 hours.

Form FS-5100-31, *Health Screening Questionnaire*. Prospective fire personnel must complete this form when seeking employment as new fire personnel with the Forest Service or Department of the Interior. This form collects the following information:

- Name and Unit;
- Medical history;
- Current medical symptoms;
- Other health issues; and
- Cardiovascular risk factors.

The information collected pertains to an individual's health status and health history in an effort to determine if any physical conditions exist that might result in injury or death during fitness testing or when fighting a wildfire. If Federal Agency officials determine, based on the collected information, that an individual may not be physically able to train for or take a Work Capacity Test; the agency will require the individual to undergo a physical examination by a physician.

Failure to collect this data could result in injuries or deaths during the “Work Capacity Test” and while working on wildland fires. The
