Authority for This Rulemaking

The FAA's authority to issue rules
regarding aviation safety is found in
Title 49 of the United States Code.
Subtitle I, Section 106 describes the
authority of the FAA Administrator.
Subtitle VII, Aviation Programs,
describes in more detail the scope of the

Subpart I, Section 40103. Under that
section, the FAA is charged with
prescribing regulations to assign the use
of airspace necessary to ensure the
safety of aircraft and the efficient use of
airspace. This regulation is within the
scope of that authority as it would
remove Class E airspace extending
upward from 700 feet above the surface
at Sioux Center Municipal Airport,
Sioux Center, IA, that is no longer
required.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend
FAA Order 7400.11C, Airspace
Designations and Reporting Points,
dated August 13, 2018, and effective
September 15, 2018. FAA Order
7400.11C is publicly available as listed
in the **ADDRESSES** section of this
document. FAA Order 7400.11C lists
Class A, B, C, D, and E airspace areas,
air traffic service routes, and reporting
points.

The Proposal

The FAA is proposing an amendment
to Title 14 Code of Federal Regulations
(14 CFR) part 71 by removing Class E
airspace extending upward from 700
feet above the surface at Sioux Center
Municipal Airport, Sioux Center, IA.

The FAA is proposing this action due
to the closure of the Sioux Center

Municipal Airport and cancellation of the standard instrument approach procedures at the airport making the airspace no longer necessary.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11C, dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

II. Background, Purpose, and Legal Basis

Swim events, fireworks displays, and marine events are held on an annual recurring basis on the navigable waters within the Coast Guard Sector Northern New England Captain of the Port (COTP) Zone. The Coast Guard has established special local regulations and safety zones for some of these annual recurring events on a case by case basis to ensure the protection of the maritime public and event participants from potential hazards. In the past, the Coast Guard has not received public comments or concerns regarding the impact to waterway traffic from regulations associated with these annually recurring events. Events were either added or deleted to the table of annual events based on their likelihood to recur in subsequent years. In addition, minor changes to existing events, such as position, date, or title, were made to ensure the accuracy of event details.

The purpose of this rulemaking is to ensure accurate notification of relevant events and protect the maritime public during marine events in the Sector Northern New England COTP zone. The Coast Guard proposes this rulemaking under its authority in 33 U.S.C. 1231 and 33 U.S.C. 1233.

III. Discussion of Proposed Rule

The proposed rule would update the tables of annual recurring events in the existing regulations for the Coast Guard Sector Northern New England COTP Zone. The tables provide the event
