

Command's 2013 EA/FONSI for E-2/C-2 Field Carrier Landing Practice at WFF; the Navy's 2014 EA/FONSI for the Testing of Hypervelocity Projectiles and an Electromagnetic Railgun; the 2015 Supplemental EA/FONSI for Antares 200 Configuration Expendable Launch Vehicle at WFF; the 2016 EA/FONSI for Establishment of Restricted Area Airspace R-6604 C/D/E; the Navy's 2017 EA/FONSI for and the Installation and Operation of Air and Missile Defense Radar AN/SPY-6; the 2017 U.S. Air Force's EA/FONSI for the Instrumentation Tower on Wallops Island; and the Navy's 2018 EIS/Overseas EIS/ROD for Atlantic Fleet Training and Testing.

Need for Preparing a PEIS

Since the 2005 WFF Site-wide EA, NASA, NOAA, and the Navy have updated their Master Plans for Wallops Island; which propose new facilities and numerous infrastructure improvements to enable a growing mission base. Additionally, during reviews of the post-2005 Site-wide EA NEPA documents, resource agencies have expressed concerns regarding cumulative environmental effects and a desire for NASA to consider all reasonably foreseeable future projects at WFF in a consolidated NEPA document. NASA determined that preparing a single Site-wide PEIS not only would assist in its decision-making process for future mission growth at WFF but also address concerns regarding cumulative environmental effects. Therefore, the Site-wide PEIS considers all reasonably foreseeable future actions at WFF; those proposed by NASA along with those proposed by its tenants and partners.

Cooperating Agency Actions

The Site-wide PEIS will serve as a decision-making tool not only for NASA but also for its Cooperating Agencies. Given the potential for their undertaking actions related to NASA's actions, each of these agencies has been involved closely in NASA's NEPA process.

Alternatives

The PEIS evaluates the environmental consequences of a range of reasonable alternatives that meet NASA's need to ensure continued growth at WFF while also preserving the ability to safely conduct its historical baseline of services. The planning horizon for actions in the PEIS is 20 years.

The PEIS considers a Proposed Action and a No Action alternative. The Proposed Action, NASA's preferred alternative, would support a number of facility projects ranging from new construction, demolition, and

renovation; the replacement of the Wallops causeway bridge; maintenance dredging between the boat docks at the Main Base and Wallops Island; development of a deep-water port and operations area on North Wallops Island; construction and operation of an additional medium to heavy class launch site; the introduction of new NASA and DoD programs at WFF; the expansion of the launch vehicle services with liquid-fueled intermediate class and solid fueled heavy class launch vehicles; and the consideration of commercial human spaceflight missions and the return of launch vehicles to the launch site. Under the No Action Alternative, WFF and its partners would continue the existing operations and programs previously discussed in the 2005 Site-Wide EA and the subsequent NEPA documents identified under *Related Environmental Documents*.

Review of the Draft PEIS

NASA sought public comments on the analysis and findings presented in the Draft Site-wide PEIS during the 45-day public comment period which ran from May 4 through June 18, 2018. An NOA was placed in the **Federal Register** on May 4, 2018, and public notices were published in the *Eastern Shore News*, *Chincoteague Beacon*, *Eastern Shore Post*, and *The Daily Times*.

A public meeting was held at the NASA Wallops Flight Facility Visitor Center on May 23, 2018, from 6:00 to 8:00 p.m. A total of nine comment letters were received. Appendix I of the Final PEIS provides the public notices, meeting materials, and comment letters received during the public review period.

In accordance with 15 CFR 930.2, the Virginia Department of Environmental Quality (VDEQ) invited the public to participate in the review of the Federal Consistency Determination submitted for NASA's proposed action. A public notice was published in the VDEQ's Office of Environmental Impact Review Program Newsletter and on the VDEQ website from May 11 through June 21, 2018. No public comments were received in response to the notice. In accordance with 40 CFR 1506.9, EPA published an NOA of the Draft PEIS in the **Federal Register** on May 4, 2018. No public comments were received in response to the notice.

In summary, notice of the availability of the Final PEIS is hereby given.

Cheryl E. Parker,
Federal Liaison Officer.

Title of Collection: Antarctic emergency response plan and environmental protection information.

OMB Approval Number: 3145–0180.

Abstract: The NSF, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 *et seq.*) (“ACA”) regulates certain non-governmental activities in Antarctica. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act. On September 7, 2001, NSF published a final rule in the **Federal Register** (66 FR 46739) implementing certain of these statutory amendments. The rule requires non-governmental Antarctic expeditions using non-U.S. flagged vessels to ensure that the vessel owner has an emergency response plan. The rule also requires persons organizing a non-governmental expedition to provide expedition members with information on their environmental protection obligations under the Antarctic Conservation Act.

Expected Respondents: Respondents may include non-profit organizations and small and large businesses. The majority of respondents are anticipated to be U.S. tour operators, currently estimated to number fifteen.

Burden on the Public: The Foundation estimates that a one-time paperwork and recordkeeping burden of 40 hours or less, at a cost of \$500 to \$1,400 per respondent, will result from the emergency response plan requirement contained in the rule. Presently, all respondents have been providing expedition members with a copy of the Guidance for Visitors to the Antarctic (prepared and adopted at the Eighteenth Antarctic Treaty Consultative Meeting as Recommendation XVIII–1). Because this Antarctic Treaty System document satisfies the environmental protection information requirements of the rule, no additional burden shall result from the environmental information requirements in the proposed rule.

Dated: May 7, 2019.

Reports Clearance Officer, National Science Foundation.
