

OMB Control Number: 0579–0232.

Type of Request: Reinstatement of an information collection.

Abstract: The Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), authorizes the Secretary of Agriculture to, among other things, prohibit or restrict the importation and interstate movement of animals and animal products into the United States to prevent the introduction of animal diseases and pests.

The regulations in 9 CFR part 93 govern the importation into the United States of specified animals and animal products in order to help prevent the introduction of various animal diseases into the United States. The regulations in part 93 require, among other things, that certain animals, as a condition of entry, be quarantined upon arrival in the United States. The Animal and Plant Health Inspection Service operates animal quarantine facilities and also authorizes the use of quarantine facilities that are privately owned and operated for certain animal importations.

The regulations in subpart D of part 93 (9 CFR 93.400 through 93.436) pertain to the importation of ruminants. Ruminants include all animals that chew the cud, such as cattle, buffaloes, sheep, goats, deer, antelopes, camels, llamas, and giraffes. Ruminants imported into the United States must be quarantined upon arrival for at least 30 days, with certain exceptions. However, ruminants from Canada and Mexico are not subject to this quarantine.

The regulations for privately owned quarantine facilities for ruminants require the use of certain information collection activities, including an application for facility approval, a compliance agreement explaining the conditions under which the facility must be operated, creation and maintenance of a daily log of persons entering and leaving the facility while quarantine is in process, request for variance, a manual of standard operating procedures, and maintenance of certain records covering quarantine operations.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 1.07 hours per response.

Respondents: Owners/operators of privately owned quarantine facilities for ruminants.

Estimated annual number of respondents: 5.

Estimated annual number of responses per respondent: 12.

Estimated annual number of responses: 60.

Estimated total annual burden on respondents: 64 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 30th day of January 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Federal Plant Pest and Noxious Weeds Regulations.

OMB Control Number: 0579–0054.

Type of Request: Reinstatement of an information collection.

Abstract: The Plant Protection Act (the Act, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, exportation, or interstate movement of plants, plant products, biological control organisms, noxious weeds, articles, or means of conveyance, if the Secretary determines that the prohibition or restriction is necessary to prevent the introduction of plant pests or noxious weeds into the United States or their dissemination within the United States. The associated regulations that were issued by the Animal and Plant Health Inspection Service (APHIS) are located in 7 CFR parts 330 and 360.

These regulations contain information collection activities that include, but are not limited to, applications for permits

and cooperative agreements to import or handle regulated articles or to move regulated articles interstate, amendments and appeals, consultations, site assessments, inspections, certifications, labeling of containers and bags, and recordkeeping. These information collection activities allow APHIS to evaluate the risks associated with the importation or interstate movement of plant pests, noxious weeds, and soil, and also assist with developing risk mitigations, if necessary, for the importation or interstate movement of plant pests, noxious weeds, and soil.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.243 hours per response.

Respondents: Importers and shippers of plant pests, noxious weeds, and other regulated articles; owners/operators of regulated garbage-handling facilities; State plant health officials; Tribal groups; and individuals.

Estimated annual number of respondents: 4,844.

Estimated annual number of responses per respondent: 18.

Estimated annual number of responses: 85,889.

Estimated total annual burden on respondents: 20,879 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.
