RIN 0648-XH004

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 61 Assessment Webinar V for Gulf of Mexico red grouper.

SUMMARY: The SEDAR 61 stock assessment process for Gulf of Mexico red grouper will consist of an In-person Workshop, and a series of data and assessment webinars. See

SUPPLEMENTARY INFORMATION.

DATES: The SEDAR 61 Assessment Webinar V will be held May 30, 2019, from 11 a.m. to 1 p.m. Eastern Time.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a

report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Assessment Webinar are as follows:

1. Using datasets and initial assessment analysis recommended from the In-person Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 10, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XH030

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad Hoc Climate and Communities Core Team (CCCT) will hold a meeting, which is open to the public.

DATES: The meeting will be held on Thursday, May 30 and Friday, May 31, 2019, from 9 a.m. until the completion of business on each day.

ADDRESSES: The meeting will be held at the Sheraton Portland Airport, Cascade C Room, 8235 NE Airport Way, Portland, OR 97220; telephone: (503) 281-2500.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Dr. Kit Dahl, Pacific Council; telephone: (503) 820-2422.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is for the CCCT to gain a full understanding of climate change scenario planning methodologies and begin developing a plan for a Pacific Council-focused scenario planning exercise as part of the Fishery Ecosystem Plan Climate and Communities Initiative. In March 2019 the Pacific Council formed the CCCT and assigned it specific planning tasks to report back on at the September 2019 Council meeting. These tasks are to refine the scenario topic used in the exercise, develop a detailed timeline for the scenario planning process (to be conducted between the September 2019 and March 2020 Pacific Council meetings), and identify participants in the scenario planning exercise. As necessary, the CCCT also may plan future meetings or webinars to complete this assignment.

Although non-emergency issues not contained in the meeting agenda may be

discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, (503) 820-2411, at least ten business days prior to the meeting date.

Dated: May 10, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Notice of Availability of the Deepwater Horizon Oil Spill Open Ocean Trustee Implementation Group Draft Restoration Plan 2 and Environmental Assessment: Fish, Sea Turtles, Marine Mammals, and Mesophotic and Deep Benthic Communities

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: In accordance with the Oil Pollution Act of 1990 (OPA), the National Environmental Policy Act (NEPA), and a Consent Decree with BP Exploration & Production Inc. (BP),¹ the Deepwater Horizon Federal natural resource trustee agencies for the Open Ocean Trustee Implementation Group (Open Ocean TIG) have prepared a Draft Restoration Plan 2 and Environmental Assessment (Draft RP/EA). The Draft

RP/EA describes and proposes restoration project alternatives considered by the Open Ocean TIG to restore natural resources and ecological services injured or lost as a result of the Deepwater Horizon oil spill. The Open Ocean TIG evaluated these alternatives under criteria set forth in the OPA natural resource damage assessment regulations, and also evaluated the environmental consequences of the restoration alternatives in accordance with NEPA. The proposed projects are consistent with the restoration alternatives selected in the Deepwater Horizon Oil Spill: Final Programmatic Damage Assessment and Restoration Plan/Programmatic Environmental Impact Statement (PDARP/PEIS). The purpose of this notice is to inform the public of the availability of the Draft RP/EA and to seek public comments on the document.

DATES: The Open Ocean TIG will consider public comments received on or before July 1, 2019.

Public Meetings: The Open Ocean TIG will conduct one public meeting and two webinars to facilitate the public review and comment on the Draft RP/EA. Each of the public meeting and webinars will include a presentation of the Draft RP/EA. Both written and oral public comments will be taken at the public meeting. Only written comments will be taken through the public webinars. Comments will also be taken through submission online or through U.S. mail (see *Submitting Comments* below). Public meetings and webinars will be held on June 4 (public meeting), June 11 (webinar), and June 13 (webinar). The full meeting schedule is listed in **SUPPLEMENTARY INFORMATION** below.

ADDRESSES:

Obtaining Documents: You may download the Draft RP/EA at: <http://www.gulfspillrestoration.noaa.gov/restoration-areas/open-ocean>. Alternatively, you may request a CD of the Draft RP/EA (see **FOR FURTHER INFORMATION CONTACT** below). Also, you may view the document at any of the public facilities listed in Appendix G.

Submitting Comments: You may submit comments on the Draft RP/EA by one of the following methods:

- **Via the Web:** <http://www.gulfspillrestoration.noaa.gov/restoration-areas/open-ocean>;
- **Via U.S. Mail:** U.S. Fish and Wildlife Service, P.O. Box 29649, Atlanta, GA 30345. Please note that mailed comments must be postmarked on or before the comment deadline of 45 days following publication of this notice to be considered; or

- **In Person:** Written and oral comments may be submitted at the public meeting on June 4, 2019 and written comments may be submitted during public webinars on June 11 and June 13, 2019 (see Invitation to Comment below).

FOR FURTHER INFORMATION CONTACT: National Oceanic and Atmospheric Administration—Laurie Rounds, Laurie.Rounds@noaa.gov, (850) 934-9284.

SUPPLEMENTARY INFORMATION:

Introduction

On April 20, 2010, the mobile offshore drilling unit *Deepwater Horizon*, which was being used to drill a well for BP Exploration and Production, Inc. (BP), in the Macondo prospect (Mississippi Canyon 252-MC252), experienced a significant explosion, fire, and subsequent sinking in the Gulf of Mexico, resulting in an unprecedented volume of oil and other discharges from the rig and from the wellhead on the seabed. The *Deepwater Horizon* oil spill is the largest off shore oil spill in U.S. history, discharging millions of barrels of oil over a period of 87 days. In addition, well over one million gallons of dispersants were applied to the waters of the spill area in an attempt to disperse the spilled oil. An undetermined amount of natural gas was also released into the environment as a result of the spill.

The Deepwater Horizon Federal and State natural resource trustees (DWH Trustees) conducted the natural resource damage assessment (NRDA) for the *Deepwater Horizon* oil spill under OPA (OPA; 33 U.S.C. 2701 *et seq.*). Pursuant to OPA, Federal and State agencies act as trustees on behalf of the public to assess natural resource injuries and losses and to determine the actions required to compensate the public for those injuries and losses. OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the time of restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred) is complete.

The *Deepwater Horizon* Trustees are:

- U.S. Department of the Interior (DOI), as represented by the National Park Service, U.S. Fish and Wildlife Service, and Bureau of Land Management;

¹ Consent Decree among Defendant BP Exploration & Production Inc. ("BPXP"), the United States of America, and the States of Alabama, Florida, Louisiana, Mississippi, and Texas entered in *In re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico, on April 20, 2010*, MDL No. 2179 in the United States District Court for the Eastern District of Louisiana.
