Washington

Department of Agriculture

Specific exemption: EPA authorized the use of lambda-cyhalothrin on a maximum of 7,000 acres of asparagus to control the European asparagus aphid. Due to the long (120-day) pre-harvest interval required and no detectable residues expected, time-limited tolerances were not required; Effective July 20, 2018 to October 30, 2018. The request was granted because an emergency condition exists with significant economic losses expected. Since this request proposed a use for which an emergency exemption has been requested for 5 or more previous years (and supported by the IR-4 program) and a registration application or tolerance petition has not been submitted to EPA, in accordance with the requirements at 40 CFR 166.24, a notice of receipt published in the **Federal Register** on June 28, 2018 (83 FR 30443) (FRL-9979-46) with the public comment period closing on July 13, 2018.

Wisconsin

Department of Agriculture

Specific exemption: EPA authorized the use of pyridate on a maximum of 3,100 acres of mint for postemergence control of herbicide-resistant annual weeds such as redroot pigweed, *Armaranthus retroflexus* and other broadleaf weeds. Tolerances in connection with an earlier registration action are established in 40 CFR 180.462(a). Effective May 18, 2018 to August 31, 2018.

West Virginia

Department of Agriculture

Specific exemptions: EPA authorized the use of dinotefuran on a maximum of 5,986 acres of pome and stone fruit to control the brown marmorated stinkbug. Time-limited tolerances in connection with past actions were established in 40 CFR 180.603(b); Effective June 8, 2018 to October 15, 2018. Since this request proposed a use for which an emergency exemption has been requested for 5 or more previous years (and supported by the IR-4 program) and a registration application or tolerance petition has not been submitted to EPA, in accordance with the requirements at 40 CFR 166.24,

a notice of receipt published in the **Federal Register** on May 7, 2018 (83 FR 20070) (FRL-9979-46) with the public comment period closing on May 22, 2018.

EPA authorized the use of bifenthrin on a maximum of 5,986 acres of apple, peach, and nectarine to control the brown marmorated stinkbug. Time-limited tolerances in connection with past actions were established in 40 CFR 180.442(b); Effective June 26, 2018 to October 15, 2018.

Wyoming

Department of Agriculture

Specific exemption: EPA authorized the use of indaziflam on a maximum of 300,000 acres of rangeland, pastures, and areas subject to the conservation reserve program to control Medusahead and Ventenata. Time-limited tolerances in connection with this action have been established in 40 CFR 180.653(b); Effective September 14, 2019 to September 14, 2019.

B. Federal Departments and Agencies

Quarantine Exemptions: EPA authorized the use of acetic acid on nonporous surfaces to decontaminate from foot and mouth disease virus; Effective April 19, 2018 to April 19, 2021.

EPA authorized the use of sodium hypochlorite on porous and nonporous surfaces to decontaminate from viruses of foot and mouth disease, classical swine fever, and African swine fever; Effective September 17, 2018 to September 17, 2021.

EPA authorized the use of sodium hydroxide on nonporous surfaces to control prions; Effective September 25, 2018 to September 25, 2021.

EPA authorized the use of sodium hypochlorite on nonporous surfaces to control prions; Effective September 25, 2018 to September 25, 2021.

National Aeronautics and Space Administration

Specific exemption. EPA authorized use of ortho-phthalaldehyde, immobilized to a porous resin, to treat the International Space Station (ISS) internal active thermal control system (IATCS) coolant for control of aerobic and microaerophilic water bacteria and unidentified gram-negative rods. Effective May 31, 2018 to May 31, 2019. This request was granted because without this use, the ISS would have no means of controlling microorganisms in the IATCS because there are no

registered alternatives available which meet the required criteria. Since this request proposed a use of a new (unregistered) chemical, in accordance with the requirements at 40 CFR 166.24, a notice of receipt published in the **Federal Register** on June 14, 2018 (83 FR 27766) (FRL-9978-55), with the public comment period eliminated since the time available for a decision on the application required it.

Product Cancellation Order for Certain Pesticide Registrations and Amendments To Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations and amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 and Table 2 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows an October 17, 2018 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II to voluntarily cancel and amend to terminate uses of these product registrations. In the October 17, 2018 notice, EPA indicated that it would issue an order implementing the cancellations and amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations and amendments are effective February 14, 2019.

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the October 17, 2018 **Federal Register** notice announcing the Agency's receipt of the requests for voluntary cancellations and amendments to terminate uses of products listed in Tables 1 and 2 of Unit II.

IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)(1)), EPA hereby approves the requested cancellations and amendments to terminate uses of the registrations identified in Tables 1 and 2 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II are canceled and amended

to terminate the affected uses. The effective date of the cancellations that are subject of this notice is February 14, 2019. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 of Unit II in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI will be a violation of FIFRA.

V. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following

the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of October 17, 2018 (83 FR 52444) (FRL–9983–91). The comment period closed on November 16, 2018.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the products subject to this order is as follows.

For voluntary cancellations, the registrants may continue to sell and distribute existing stocks of products listed in Table 1 until February 14, 2020, which is 1 year after publication

of this cancellation order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal.

Now that EPA has approved product labels reflecting the requested amendments to terminate uses, registrants are permitted to sell or distribute products listed in Table 2 of Unit II under the previously approved labeling until August 14, 2020, a period of 18 months after publication of the cancellation order in this **Federal Register**, unless other restrictions have been imposed. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products and products whose labels include the terminated uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products and terminated uses.
