

Rules and Regulations

Federal Register

Vol. 84, No. 32

Friday, February 15, 2019

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 932

[Doc. No. AMS–SC–18–0061; SC18–932–1 FR]

Olives Grown in California; Establish Procedures To Meet Via Electronic Communications

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule implements a recommendation from the California Olive Committee (Committee) to establish procedures to conduct meetings and voting using electronic means of communication.

DATES: Effective March 18, 2019.

FOR FURTHER INFORMATION CONTACT: Kathie Notoro, Marketing Specialist, or Terry Vawter, Senior Marketing Specialist, California Marketing Field Office, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA; Telephone: (559) 487–5901, Fax: (559) 487–5906, or Email: Kathie.Notoro@usda.gov or Terry.Vawter@usda.gov.

Small businesses may request information on complying with this regulation by contacting Richard Lower, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237; Telephone: (202) 720–2491, Fax: (202) 720–8938, or Email: Richard.Lower@usda.gov.

SUPPLEMENTARY INFORMATION: This action, pursuant to 5 U.S.C. 553, amends regulations issued to carry out a marketing order as defined in 7 CFR 900.2(j). This rule is issued under Marketing Agreement and Order No. 932, as amended (7 CFR part 932), regulating the handling of olives grown in California. Part 932 (referred to as the

“Order”) is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the “Act.” The Committee locally administers the Order and is comprised of producers and handlers of olives operating within the area of production.

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Orders 13563 and 13175. This action falls within a category of regulatory actions that the Office of Management and Budget (OMB) exempted from Executive Order 12866 review. Additionally, because this rule does not meet the definition of a significant regulatory action, it does not trigger the requirements contained in Executive Order 13771. See OMB’s Memorandum titled “Interim Guidance Implementing Section 2 of the Executive Order of January 30, 2017, titled ‘Reducing Regulation and Controlling Regulatory Costs’” (February 2, 2017).

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA’s ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

On May 17, 2018 (83 FR 22831), the Agricultural Marketing Service published a final rule amending 7 CFR part 900, the general regulations for federal fruit, vegetable, and specialty crop marketing agreements and orders, to authorize the use of electronic means of communication for meetings and voting.

During a meeting on June 13, 2018, the Committee unanimously recommended adoption of modern communication methods to conduct Committee meetings, as outlined in the **Federal Register** final rule referenced above (83 FR 22831). On August 17, 2018, the Committee unanimously approved the recommended procedures for the use of communication technology. This rule establishes those procedures in a new § 932.136, Use of communication technology under Subpart B—Administrative Requirements.

The Order currently states that the Committee may only meet in assembled, in-person, meetings and that voting may only be conducted at meetings or via mail or telegraph. Such limitations present logistical problems for many Committee members since membership is widely distributed across California. Some members travel over 400 miles to attend a Committee meeting, thus resulting in lost work hours and increased costs for the Committee. Allowing the Committee to conduct meetings via electronic means of communication will likely result in increased member participation and productivity at a reduced cost, as well as greater potential for meeting quorum and voting requirements.

The Committee recommended that audio or audiovisual technology (AVT) that facilitates open communication and effectively assembles Committee members be used to conduct meetings by AVT or partial in-person meetings (meaning some members not present participate in an in-person meeting via technology). These meetings are subject to the same quorum and voting requirements currently in effect for in-person meetings under § 932.36. These requirements define a quorum as a majority of the 16-member Committee, of which at least half are producer members and half are handler members. Voting requirements state that a passing recommendation must receive a majority vote, with at least half of the voting members representing producers and half representing handlers. For recommendations regarding grade and size, a minimum of ten votes representing five producer and five handler members are necessary for approval. The requirements further state that issues to be voted on shall be explained accurately and fully, and that

all votes cast will be confirmed through a roll call.

Regarding casting votes electronically, those votes are subject to the same requirements currently in effect for mail voting in § 932.36. These requirements state that advanced notice, as well as an accurate, full and identical description of the issues to be voted on, be given to all members. For a recommendation to pass, at least 14 affirmative votes representing seven producer and seven handler members are required.

The Committee recommended these changes to provide an opportunity to conduct meetings more efficiently and cost-effectively; use of audio and/or audiovisual communication technology will result in time and cost savings to the Committee and its members by allowing for meetings to be conducted with all or a portion of its membership attending by audio and/or AVT.

Final Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 1,100 producers of olives in the production area and two handlers subject to regulation under the Order. Small agricultural producers are defined by the Small Business Administration (SBA) as those having annual receipts less than \$750,000, and small agricultural service firms are defined as those whose annual receipts are less than \$7,500,000 (13 CFR 121.201).

Based on National Agricultural Statistics Service (NASS) information, the average price to producers for the 2017 crop year was \$974.00 per ton, and total assessable volume for the 2017 crop year was 83,799 tons. Based on production, price paid to producers, and the total number of California olive producers, the average annual producer revenue is less than \$750,000 (\$974.00 times 83,799 tons equals \$81,620,226, divided by 1,100 producers equals an average annual producer revenue of \$74,200). Based on Committee data,

both handlers may be classified as large entities under the SBA's definitions because their annual receipts are greater than \$7,500,000.

This rule does not impose additional costs on handlers or producers of any size. Committee members are expected to see a reduction in their travel expenses and time lost from work to attend Committee meetings in person. Thus, this rule reduces the cost burden on both handlers and producers.

The Committee considered the alternative of making no changes to the regulations. However, it was determined that by taking no action, the Committee is unnecessarily limiting the participation of some members due to time constraints and travel considerations. Therefore, the Committee determined that recommending this change was in the best interest of the Committee, its members, and the industry.

Like all Committee meetings, the June 13, 2018, meeting was public and widely publicized throughout the production area. All entities, both large and small, were able to express their views on this issue and participate in Committee deliberations. Following the meeting, ballots along with the proposed procedures were sent to all Committee members on July 31, 2018, and the mail vote concluded on August 17, 2018. The proposal received unanimous support.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Order's information collection requirements have been previously approved by OMB and assigned OMB No. 0581–0178 Vegetable Crops. No changes in those requirements are necessary because of this action. Should any changes become necessary, they would be submitted to OMB for approval.

This rule imposes no additional reporting or recordkeeping requirements on either small or large California olive handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this final rule.

A small business guide on complying with fruit, vegetable, and specialty crop

marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/rules-regulations/moa/small-businesses>. Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A proposed rule concerning this action was published in the **Federal Register** on November 16, 2018 (83 FR 57691). Copies of the proposed rule were provided to all olive producers and handlers. The proposal was also made available through the internet by USDA and the Office of Federal Register. A 30-day comment period ending December 17, 2018, was provided for interested persons to respond to the proposal.

One comment was received stating that all information communicated should be placed on the labels of jars of olives. After further review of the comment, it was determined to be outside the scope of this action. Accordingly, no changes will be made to the rule as proposed, based on the comment received.

After consideration of all relevant material presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule will tend to effectuate the declared policy of the Act.

List of Subjects in 7 CFR Part 932

Marketing agreements, Olives, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 932 is amended as follows:

PART 932—OLIVES GROWN IN CALIFORNIA

- 1. The authority citation for 7 CFR part 932 continues to read as follows:

Authority: 7 U.S.C. 601–674.

- 2. Add § 932.136 to subpart B to read as follows:

§ 932.136 Use of communication technology.

The Committee may conduct meetings by any means of audio and/or audiovisual communication technology available that effectively assembles members and alternates, and facilitates open communication; *Provided*, That, quorum and voting requirements specified in § 932.36 for physically assembled meetings shall apply. The Committee may also vote electronically; *Provided*, That, such voting shall be subject to the same requirements specified for mail voting in § 932.36.

Dated: February 12, 2019.

Bruce Summers,

Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

[NRC-2018-0265]

RIN 3150-AK20

List of Approved Spent Fuel Storage Casks: TN Americas LLC Standardized Advanced NUHOMS® System, Certificate of Compliance No. 1029, Amendment No. 4

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is confirming the effective date of March 12, 2019, for the direct final rule that was published in the **Federal Register** on December 27, 2018. This direct final rule amended the NRC's spent fuel storage regulations by revising the "List of approved spent fuel storage casks" to include Amendment No. 4 to Certificate of Compliance No. 1029 for the TN Americas LLC Standardized Advanced NUHOMS® Horizontal Modular Storage System.

DATES: *Effective Date:* The effective date of March 12, 2019, for the direct final rule published December 27, 2018 (83 FR 66585), is confirmed.

ADDRESSES: Please refer to Docket ID NRC-2018-0265 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0265. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For

problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The proposed amendment to the certificate of compliance, the proposed changes to the technical specifications, and the preliminary safety evaluation report are available in ADAMS under Accession No. ML18263A044. The final amendment to the certificate of compliance, final changes to the technical specifications, and final safety evaluation report can also be viewed in ADAMS under Accession No. ML19036A557.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

William Allen, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-6877; email: William.Allen@nrc.gov or Edward M. Lohr, Office of Nuclear Material Safety and Safeguards; telephone: 301-415-0253; email: Edward.Lohr@nrc.gov. Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:

On December 27, 2018 (83 FR 66585), the NRC published a direct final rule amending its regulations in part 72 of title 10 of the *Code of Federal Regulations* by revising the "List of approved spent fuel storage casks" to include Amendment No. 4 to Certificate of Compliance No. 1029 for the TN Americas LLC Standardized Advanced NUHOMS® Horizontal Modular Storage System. Amendment No. 4 revised the technical specifications of the certificate of compliance to: Clarify the applicability of unloading procedures and training modules relative to spent fuel pool availability; credit the use of the installed temperature monitoring system specified in lieu of performing daily visual vent inspections; establish dose rates on the front inlet bird screen and the door of the concrete storage module for the Advanced Horizontal Storage Module; modify the criteria for performing Advanced Horizontal Storage Module air vent visual inspections; identify the blocked vent time limitations for each of the 24PT1 and 24PT4 dry shielded canisters; and provide a new temperature rise value for the Advanced Horizontal Storage Module with a loaded 24PT4 dry shielded canister.

In the direct final rule, the NRC stated that if no significant adverse comments were received, the direct final rule

would become effective on March 12, 2019. As described more fully in the direct final rule, a significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. Because no significant adverse comments were received, the direct final rule will become effective as scheduled.

Dated at Rockville, Maryland, this 12th day of February 2019.

For the Nuclear Regulatory Commission.

Cindy K. Bladey,

Chief, Regulatory Analysis and Rulemaking Support Branch, Division of Rulemaking, Office of Nuclear Material Safety and Safeguards.

FEDERAL RESERVE SYSTEM

12 CFR Parts 211 and 238

[Docket No. R-1569]

RIN 7100-AE82

Large Financial Institution Rating System; Regulations K and LL; Correction

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule; correcting amendments.

SUMMARY: On November 21, 2018, the Board of Governors of the Federal Reserve System (Board) published a final rule in the **Federal Register** regarding the Large Financial Institution Rating System. That document included two typographical errors in "Appendix A—Text of Large Financial Institution Rating System" relating to the description of the conditionally meets expectation rating. This document corrects those typographical errors.

DATES: Effective February 15, 2019.
