

(4) Weakening U.S. capability to accomplish critical national internal security functions;

(5) Inhibiting the provision of essential Federal Government functions necessary to meet a preattack situation.

(c) *Priority 3.* Priority 3 shall be the third highest level of restoration priority and shall be afforded to government, quasi-government, and Industrial/Commercial private line services: *Provided, however,* That Priority 3 will be afforded circuits serving Industrial/Commercial, State, county, municipal, and quasi-state and local government agencies only where, during an emergency, at least one station in the circuit (or in connected circuits if switched service is involved) will be manned continually, or where such circuits are automated and will be under constant surveillance from a remote location. Circuit requirements in this level shall be limited to those necessary for U.S. military defense and diplomacy, for law and order, and for national health and safety in a national emergency involving heightened possibility of hostilities. These are circuit requirements needed to:

(1) Insure performance of critical logistic functions, public utility services, and administrative-military support functions;

(2) Inform key diplomatic posts of the situation and of U.S. intentions;

(3) Secure and disseminate urgent intelligence;

(4) Distribute essential food and other supplies critical to health;

(5) Provide for critical damage control functions;

(6) Provide for hospitalization;

(7) Continue critical Government functions;

(8) Provide transportation for the foregoing activities.

(d) *Priority 4.* Priority shall be the fourth highest restoration priority and shall be afforded to government, quasi-government, and Industrial/Commercial private line services: *Provided, however,* That Priority 4 will be afforded circuits serving Industrial/Commercial, State, county, municipal, and quasi-state and local government agencies only where, during an emergency, at least one station in the circuit (or in connected circuits if switched service

is involved) will be manned continually, or where such circuits are automated and will be under constant surveillance from a remote location. Circuit requirements in this level shall be limited to those necessary for the maintenance of the public welfare and the national economy in a situation short of nuclear attack, or during reconstitution after attack. These include circuit requirements needed to continue the more important financial, economic, health, and safety activities of the Nation.

§211.6 Submission and processing of restoration priority requests.

(a) Except as otherwise provided below, all requests for restoration priority assignments will be submitted to the Executive Agent in the format prescribed by him for processing and certification.

(b) Priority 3 and 4 applications from county and municipal governments, quasi-state and local government agencies and private entities shall be forwarded to the Federal Communications Commission for its approval and for certification to the carriers. These submissions will be in the form prescribed by the Commission.

(c) Industrial/Commercial entities designated for prearranged voluntary participation with the Federal Government in a national emergency should submit separate applications to the Commission when requesting the assignment of priorities in category 1 or 2. Such assignments will require the approval of the National Security Council in order to continue to be effective during a war emergency. In all cases the justification for restoration priorities will contain a validation statement from the Government agency with whom participation is prearranged.

(d) Requests for restoration priority assignments made by Foreign Government agencies, except for NATO, NATO national military authority, and such other requests as the Executive Agent may be designated, will be submitted to the Department of State for initial evaluation and review. The Department will forward to the Executive Agent for processing and approval such of these requests as it finds acceptable.

(e) Requests for restoration priority assignments made by NATO, NATO national military authority, and such other requests as the Executive Agent may designate, will be forwarded through established Allied Long Lines Agency (ALLA) channels to the Secretary of Defense. The Secretary will forward to the Executive Agent for processing and approval such of these requests as he finds acceptable pursuant to approved NATO/U.S. procedures.

(f) Requests for temporary upgrading of restoration priority assignments occasioned by special critical conditions, including natural disasters, heightened diplomatic and political tenseness, and tracking and control of manned space operations, may be submitted to the Executive Agent together with such information as he may require for expedited processing decision.

(g) All assignments, denials and changes of restoration priorities and subpriorities are subject to review and modification by the National Security Council.

(h) When requesting service from the carriers the user must include the certified restoration priority on the service authorization.

§211.7 Obligation of carriers.

(a) During the continuance of a war in which the United States is engaged, and when the provisions of this part are invoked, all carriers shall accord restoration priority assignments certified pursuant to this part priority over all other circuits.

(b) To promote the national interest and defense preparedness, carriers shall:

(1) Maintain such records of restoration priority assignments certified pursuant to this part as may be necessary to enable prompt implementation;

(2) Enter into agreements, to the extent possible, with their foreign correspondents to effect restoration of the foreign portion of leased international services in accordance with this part;

(3) Notify the Executive Agent of foreign correspondent procedures affecting Federal Government services that are not reasonably consistent with the priority requirements of this part.

PART 212—PROCEDURES FOR OBTAINING INTERNATIONAL TELECOMMUNICATION SERVICE FOR USE DURING A WARTIME EMERGENCY

Sec.

212.0 Authority.

212.1 Purpose.

212.2 Scope.

212.3 Responsibilities.

212.4 Other requirements.

AUTHORITY: E.O. 12046, 43 FR 13349, Mar. 29, 1978 (3 CFR, 1978 Comp., p. 158); E.O. 12472, April 3, 1984, (49 FR 13471; 3 CFR, 1984 Comp., p. 193).

SOURCE: 55 FR 51061, Dec. 11, 1990, unless otherwise noted.

§212.0 Authority.

(a) Authority to establish arrangements to ensure that the NS/EP telecommunications needs of all Federal government entities are met in a manner consistent, to the maximum extent practicable, with other telecommunications policies is contained in Executive Order 12472 and Executive Order 12046.

(b) These procedures are applicable to the communications common carriers and non-Federal Government users under the President's authority contained in subsection 706(a)–(d) of the Communications Act of 1934 (47 U.S.C. 606(a)–(d)), as amended. The authority under subsection 706(a) has been delegated by Executive Order 12472 to the Director of the Office of Science and Technology Policy, contingent upon issuance by the President of implementing instructions in accordance with the National Emergencies Act (50 U.S.C. 1601). This authority may be exercised only during wartime emergencies.

§212.1 Purpose.

The purpose of this part is to provide specific guidance to Government and private entities who may have requirements for international telecommunication service during wartime emergencies.
