A rate-of-return carrier may submit the information in paragraph (a) of this section in accordance with the schedule in §36.612 of this chapter, even if it is not required to do so. If a rate-of-return carrier makes a filing under this paragraph, it shall separately indicate any lines that it has acquired from another carrier that it has not previously reported pursuant to paragraph (a) of this section, identified by customer class and the carrier from which the lines were acquired.

(3) Each rate-of-return carrier shall submit to the Administrator annually on March 31st projected data necessary to calculate the carrier's prospective Interstate Common Line Support, including common line cost and revenue data, for each of its study areas in the upcoming funding year. The funding year shall be July 1st of the current year through June 30th of the next year. Each rate-of-return carrier will be permitted to submit a correction to the projected data filed on March 31st until June 30th for the upcoming funding year. On June 30th each rate-of-return carrier will be permitted to submit to the Administrator an update to the projected data for the funding year ending on that date.

(4) Each rate-of-return carrier shall submit to the Administrator on December 31st of each year the data necessary to calculate a carrier's Interstate Common Line Support, including common line cost and revenue data, for the prior calendar year. Such data shall be used by the Administrator to make adjustments to monthly per-line Interstate Common Line Support amounts in the final two quarters of the following calendar year to the extent of any differences between the carrier's ICLS received based on projected common line cost and revenue data and the ICLS for which the carrier is ultimately eligible based on its actual common line cost and revenue data during the relevant period.

(b) Upon receiving the information required to be filed in paragraph (a) of this section, the Administrator shall:

(1) Perform the calculations described in §54.901;

(2) Publish the results of these calculations showing Interstate Common Line Support Per Line available in each rate-of-return carrier study area, by Disaggregation Zone and customer class;

(3) Perform periodic reconciliation of the Interstate Common Line Support provided to each carrier based on projected data filed pursuant to paragraph (a)(3) of this section and the Interstate Common Line Support for which each carrier is eligible based on actual data filed pursuant to paragraph (a)(4) of this section.

(4) Collect the funds necessary to provide support pursuant to this subpart in accordance with subpart H of this part;

(5) Distribute support calculated pursuant to the rules contained in this subpart; and

(6) Report quarterly to the Commission on the collection and distribution of funds under this subpart as described in §54.702(i). Fund distribution reporting will be by state and by eligible telecommunications carrier within the state.

(a) *Certification.* Carriers that desire to receive support pursuant to this subpart shall file a certification with the Administrator and the Federal Communications Commission stating that all Interstate Common Line Support provided to such carrier will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.
