

(ii) Establishes that the VRS and/or IP Relay provider makes available adequate procedures and remedies for ensuring compliance with the requirements of this section and the mandatory minimum standards contained in § 64.604, including that it makes available for TRS users informational materials on complaint procedures sufficient for users to know the proper procedures for filing complaints; and

(iii) Where the TRS service differs from the mandatory minimum standards contained in § 64.604, the VRS and/or IP Relay provider establishes that its service does not violate applicable mandatory minimum standards.

(c)(1) *State certification period.* State certification shall remain in effect for five years. One year prior to expiration of certification, a state may apply for renewal of its certification by filing documentation as prescribed by paragraphs (a) and (b) of this section.

(2) *VRS and IP Relay Provider FCC certification period.* Certification granted under this section shall remain in effect for five years. A VRS or IP Relay provider may apply for renewal of its certification by filing documentation with the Commission, at least 90 days prior to expiration of certification, containing the information described in paragraph (a)(2) of this section.

(d) *Method of funding.* Except as provided in § 64.604, the Commission shall not refuse to certify a state program based solely on the method such state will implement for funding intrastate TRS, but funding mechanisms, if labeled, shall be labeled in a manner that promote national understanding of TRS and do not offend the public.

(e)(1) *Suspension or revocation of state certification.* The Commission may suspend or revoke such certification if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. In a state whose program has been suspended or revoked, the Commission shall take such steps as may be necessary, consistent with this subpart, to ensure continuity of TRS. The Commission may, on its own motion, require a certified state program to submit documentation demonstrating ongoing compliance with the Commission's minimum standards if, for exam-

ple, the Commission receives evidence that a state program may not be in compliance with the minimum standards.

(2) *Suspension or revocation of VRS and IP Relay Provider FCC certification.* The Commission may suspend or revoke the certification of a VRS or IP Relay provider if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. The Commission may, on its own motion, require a certified VRS or IP Relay provider to submit documentation demonstrating ongoing compliance with the Commission's minimum standards if, for example, the Commission receives evidence that a certified VRS or IP Relay provider may not be in compliance with the minimum standards.

(f) *Notification of substantive change.* (1) States must notify the Commission of substantive changes in their TRS programs within 60 days of when they occur, and must certify that the state TRS program continues to meet federal minimum standards after implementing the substantive change.

(2) VRS and IP Relay providers certified under this section must notify the Commission of substantive changes in their TRS programs, services, and features within 60 days of when such changes occur, and must certify that the interstate TRS provider continues to meet federal minimum standards after implementing the substantive change.

(g) VRS and IP Relay providers certified under this section shall file with the Commission, on an annual basis, a report providing evidence that they are in compliance with § 64.604.

**§ 64.607 Furnishing related customer premises equipment.**

(a) Any communications common carrier may provide, under tariff, customer premises equipment (other than hearing aid compatible telephones as defined in part 68 of this chapter, needed by persons with hearing, speech, vision or mobility disabilities. Such equipment may be provided to persons with those disabilities or to associations or institutions who require such

equipment regularly to communicate with persons with disabilities. Examples of such equipment include, but are not limited to, artificial larynxes, bone conductor receivers and TTs.

(b) Any carrier which provides telecommunications devices for persons with hearing and/or speech disabilities, whether or not pursuant to tariff, shall respond to any inquiry concerning:

(1) The availability (including general price levels) of TTs using ASCII, Baudot, or both formats; and

(2) The compatibility of any TT with other such devices and computers.

[56 FR 36731, Aug. 1, 1991, as amended at 72 FR 43560, Aug. 6, 2007; 73 FR 21252, Apr. 21, 2008. Redesignated at 73 FR 21259, Apr. 21, 2008]

**§ 64.608 Provision of hearing aid compatible telephones by exchange carriers.**

In the absence of alternative suppliers in an exchange area, an exchange carrier must provide a hearing aid compatible telephone, as defined in § 68.316 of this chapter, and provide related installation and maintenance services for such telephones on a detariffed basis to any customer with a hearing disability who requests such equipment or services.

**§ 64.609 Enforcement of related customer premises equipment rules.**

Enforcement of §§ 64.607 and 64.608 is delegated to those state public utility or public service commissions which adopt those sections and provide for their enforcement. Subpart G—Furnishing of Enhanced Services and Customer-Premises Equipment by Communications Common Carriers

[56 FR 36731, Aug. 1, 1991. Redesignated and amended at 73 FR 21259, Apr. 21, 2008]

**§ 64.611 Internet-based TRS registration.**

(a) *Default provider registration.* Every provider of VRS or IP Relay must, no later than December 31, 2008, provide users with the capability to register with that VRS or IP Relay provider as a “default provider.” Upon a user’s registration, the VRS or IP Relay provider shall:

(1) Either:

(i) Facilitate the user’s valid number portability request as set forth in 47 CFR 52.34; or, if the user does not wish to port a number,

(ii) Assign that user a geographically appropriate North American Numbering Plan telephone number; and

(2) Route and deliver all of that user’s inbound and outbound calls unless the user chooses to place a call with, or receives a call from, an alternate provider.

(b) *Mandatory registration of new users.* As of December 31, 2008, VRS and IP Relay providers must, prior to the initiation of service for an individual that has not previously utilized VRS or IP Relay, register that new user as described in paragraph (a) of this section.

(c) *Obligations of default providers and former default providers.* (1) Default providers must:

(i) Obtain current routing information, including IP addresses or domain names and user names, from their Registered Internet-based TRS Users;

(ii) Provision such information to the TRS Numbering Directory; and

(iii) Maintain such information in their internal databases and in the TRS Numbering Directory.

(2) Internet-based TRS providers (and, to the extent necessary, their Numbering Partners) must:

(i) Take such steps as are necessary to cease acquiring routing information from any VRS or IP Relay user that ports his or her number to another VRS or IP Relay provider or otherwise selects a new default provider;

(ii) Communicate among themselves as necessary to ensure that:

(A) Only the default provider provisions routing information to the central database; and

(B) VRS and IP Relay providers other than the default provider are aware that they must query the TRS Numbering Directory in order to obtain accurate routing information for a particular user of VRS or IP Relay.

(d) *Proxy numbers.* After December 31, 2008, a VRS or IP Relay provider:

(1) May not assign or issue a proxy or alias for a NANP telephone number to any user; and
