

cable operator written notice, including a draft FCC Form 329, of the local franchise authority's intent to file the complaint. The local franchise authority must give an operator a minimum of 30 days to file with the local franchise authority the relevant FCC forms that must be filed to justify a rate increase or, where appropriate, certification that the operator is not subject to rate regulation. The operator must file a complete response with the local franchise authority within the time period specified by the local franchise authority. The local franchise authority shall file with the Commission the complaint and the operator's response to the Complaint. If the operator's response to the complaint asserts that the operator is exempt from rate regulation, the operator's response can be filed with the local franchise authority without filing specific FCC Forms.

§ 76.1404 Use of cable facilities by local exchange carriers.

(a) For purposes of § 76.505(d)(2), the Commission will determine whether use of a cable operator's facilities by a local exchange carrier is reasonably limited in scope and duration according to the procedures in paragraph (b) of this section.

(b) Based on the record created by § 76.1617 of the rules, the Commission shall determine whether the local exchange carrier's use of that part of the transmission facilities of a cable system extending from the last multi-use terminal to the premises of the end user is reasonably limited in scope and duration. In making this determination, the Commission will evaluate whether the proposed joint use of cable facilities promotes competition in both services and facilities, and encourages long-term investment in telecommunications infrastructure.

§ 76.1501 Qualifications to be an open video system operator.

Any person may obtain a certification to operate an open video system pursuant to Section 653(a)(1) of the Communications Act, 47 U.S.C. 573(a)(1), except that an operator of a cable system may not obtain such certification within its cable service area unless it is subject to “effective competition” as defined in Section 623(l)(1) of the Communications Act, 47 U.S.C. 543(l)(1). The effective competition requirement of the preceding sentence does not apply to a local exchange carrier that is also a cable operator that seeks open video system certification within its cable service area. A cable operator that is not subject to effective competition within its cable service area may file a petition with the Commission, seeking a finding that particular circumstances exist that make it consistent with the public interest, convenience, and necessity to allow the operator to convert its cable system to an open video system. Nothing herein shall be construed to affect the terms of any franchising agreement or other contractual agreement.
