§ 0.406 The rules and regulations.

Persons having business with the Commission should familiarize themselves with those portions of its rules and regulations pertinent to such business. All of the rules have been published and are readily available. See §§0.411(b), 0.412, and 0.415. For the benefit of those who are not familiar with the rules, there is set forth in this section a brief description of their format and contents.

(a) *Format.* The rules are set forth in the Code of Federal Regulations as

chapter I of title 47. Chapter I is divided into parts numbered from 0-99. Each part, in turn, is divided into numbered sections. To allow for the addition of new parts and sections in logical sequence, without extensive renumbering, parts and sections are not always numbered consecutively. Thus, for example, part 2 is followed by part 5, and §1.8 is followed by §1.10; in this case, parts 3 and 4 and §1.9 have been reserved for future use. In numbering sections, the number before the period is the part number; and the number after the period locates the section within that part. Thus, for example, §1.1 is the first section of part 1 and §5.1 is the first section in part 5. Except in the case of accounting regulations (parts 31-35), the period should not be read as a decimal point; thus, §1.511 is not located between §§1.51 and 1.52 but at a much later point in the rules. In citing the Code of Federal Regulations, the citation, 47 CFR 5.1, for example, is to §5.1 (in part 5) of chapter I of title 47 of the Code, and permits the exact location of that rule. No citation to other rule units (e.g., subpart or chapter) is needed.

(b) *Contents.* Parts 0-19 of the rules have been reserved for provisions of a general nature. Parts 20-69 of this chapter have been reserved for provisions pertaining to common carriers. Parts 20-29 and 80-109 of this chapter have been reserved for provisions pertaining to the wireless telecommunications services. In the rules pertaining to common carriers, parts 20-25 and 80-99 of this chapter pertain to the use of radio; in the rules pertaining to common carriers, parts 21, 23, and 25 of this chapter pertain to the use of radio; parts 31-66 of this chapter pertain primarily to telephone and telegraph companies. Persons having business with the Commission will find it useful to consult one or more of the following parts containing provisions of a general nature in addition to the rules of the radio or wire communication service in which they are interested:

(1) *Part 0, Commission organization.* Part 0 describes the structure and functions of the Commission, lists delegations of authority to the staff, and sets forth information designed to assist those desiring to obtain information

from, or to do business with, the Commission. This part is designed, among other things, to meet certain of the requirements of the Administrative Procedure Act, as amended.

(2) *Part 1 of this chapter, practice and procedure.* Part 1, subpart A, of this chapter contains the general rules of practice and procedure. Except as expressly provided to the contrary, these rules are applicable in all Commission proceedings and should be of interest to all persons having business with the Commission. Part 1, subpart A of this chapter also contains certain other miscellaneous provisions. Part 1, subpart B, of this chapter contains the procedures applicable in formal hearing proceedings (see §1.201 of this chapter). Part 1, subpart C, of this chapter contains the procedures followed in making or revising the rule or regulations. Part 1, subpart D, of this chapter contains rules applicable to applications for licenses in the Broadcast Radio Services, including the forms to be used, the filing requirements, the procedures for processing and acting upon such applications, and certain other matters. Part 1, subpart E, of this chapter contains general rules and procedures applicable to common carriers. Part 1, subpart F, of this chapter contain rules applicable to applications for licenses in the Wireless Telecommunications Bureau services, including the forms to be used, the filing requirements, the procedures for processing and acting on such applications, and certain other matters. Part 1, subpart F, of this chapter contains rules applicable to applications for licenses in the Private Radio Services, including the forms to be used, the filing requirements, the procedures for processing and acting on such applications, and certain other matters. Part 1, subpart G, of this chapter contains rules pertaining to the application processing fees established by the Consolidated Omnibus Budget Reconciliation Act of 1985 (Pub. L. 99-272, 100 Stat. 82 (1986)) and also contains rules pertaining to the regulatory fees established by the Omnibus Budget Reconciliation Act of 1993 (Pub. L. 103-66, 107 Stat. 397 (1993)). Part 1, subpart H, of this chapter, concerning *ex parte*

presentations, sets forth standards governing communications with commission personnel in hearing proceedings and contested application proceedings. Part 1, subparts G and H, of this chapter will be of interest to all regulatees, and part 1, subpart H, of this chapter will, in addition, be of interest to all persons involved in hearing proceedings.

(3) *Part 2, frequency allocations and radio treaty matters; general rules and regulations.* Part 2 will be of interest to all persons interested in the use of radio. It contains definitions of technical terms used in the rules and regulations; provisions governing the allocation of radio frequencies among the numerous uses made of radio (e.g., broadcasting, land mobile) and radio services (e.g., television, public safety), including the Table of Frequency Allocations (§2.106); technical provisions dealing with emissions; provisions dealing with call signs and emergency communications; provisions governing authorization of radio equipment; and a list of treaties and other international agreements pertaining to the use of radio.

(4) *Part 5, experimental radio services (other than broadcast).* Part 5 deals with the temporary use of radio frequencies for research in the radio art, for communication involving other research projects, and for the development of equipment, data, or techniques.

(5) *Part 13, commercial radio operators.* Part 13 describes the procedures to be followed in applying for a commercial operator license, including the forms to be used and the examinations given, and sets forth rules governing licensed operators. It will be of interest to applicants for such licenses, licensed operators, and the licensees of radio stations which may be operated only by persons holding a commercial radio operator license.

(6) *Part 15, radio frequency devices.* Part 15 contains regulations designed to prevent harmful interference to radio communication from radio receivers and other devices which radiate radio frequency energy, and provides for the certification of radio receivers. It also provides for the certification of low power transmitters and for the op-

eration of certificated transmitters without a license.

(7) *Part 17, construction, marking, and lighting of antenna structures.* Part 17 contains criteria for determining whether applications for radio towers require notification of proposed construction to the Federal Aviation Administration, and specifications for obstruction marking and lighting of antenna structures.

(8) *Part 18, industrial, scientific and medical equipment.* Part 18 contains regulations designed to prevent harmful interference to radio communication from ultrasonic equipment, industrial heating equipment, medical diathermy equipment, radio frequency stabilized arc welders, and other equipment which uses radio energy for purposes other than communication.

(9) *Part 19, employee responsibilities and conduct.* Part 19 prescribes standards of conduct for the members and staff of the Commission.
