§ 1.934 Defective applications and dismissal.

(a) *Dismissal of applications.* The Commission may dismiss any application in the Wireless Radio Services at the request of the applicant; if the application is mutually exclusive with another application that is selected or granted in accordance with the rules in this part; for failure to prosecute or if the application is found to be defective; if the requested spectrum is not available; or if the application is untimely filed. Such dismissal may be “without prejudice,” meaning that the Commission may accept from the applicant another application for the same purpose at a later time, provided that the application is otherwise timely.
