substantive issues raised in the petition(s).

(2) *Immediate approval procedures.* Applications that meet the requirements of paragraph (j)(2)(i) of this section qualify for the immediate approval procedures.

(i) To qualify for the immediate approval procedures, the application must be sufficiently complete, contain all necessary information and certifications (including those relating to eligibility, basic qualifications, and foreign ownership), and include payment of the requisite application fee(s), as required for an application processed under the general approval procedures set forth in paragraph (j)(1) of this section, and also must establish, through certifications, that the following additional qualifications are met:

(A) The license does not involve spectrum licensed in a Wireless Radio Service that may be used to provide interconnected mobile voice and/or data services under the applicable service rules and that would, if assigned or transferred, create a geographic overlap with spectrum in any licensed Wireless Radio Service (including the same service) in which the proposed assignee or transferee already holds a direct or indirect interest of 10% or more (see § 1.2112), either as a licensee or a spectrum lessee, and that could be used by the assignee or transferee to provide interconnected mobile voice and/or data services;

(B) The licensee is not a designated entity or entrepreneur subject to unjust enrichment requirements and/or transfer restrictions under applicable Commission rules (see §§ 1.2110 and 1.2111, and §§ 24.709, 24.714, and 24.839 of this chapter); and,

(C) The assignment or transfer of control does not require a waiver of, or declaratory ruling pertaining to, any applicable Commission rules, and there is no pending issue as to whether the license is subject to revocation, cancellation, or termination by the Commission.

(ii) Provided that the application establishes that it meets all of the requisite elements to qualify for these immediate approval procedures, consent to the assignment or transfer of control will be reflected in ULS. If the ap-

plication is filed electronically, consent will be reflected in ULS on the next business day after the filing of the application; if filed manually, consent will be reflected in ULS on the next business day after the necessary data in the manually filed application is entered into ULS. Consent to the application is not deemed granted until the Bureau affirmatively acts upon the application.

(iii) Grant of consent to the application under these immediate approval procedures will be reflected in a public notice (see § 1.933(a)) promptly issued after the grant, and is subject to reconsideration (see §§ 1.106(f), 1.108, 1.113).
