

## Federal Communications Commission

## § 64.5001

effective until approval has been given by the Office of Management and Budget.

2. At 70 FR 54301, Sept. 14, 2005, in § 64.4003, the introductory text, (a) introductory text, (a)(2), (a)(3), (b) introductory text, (b)(2) and (b)(3) were corrected. This text contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

### § 64.4004 Timeliness of required notifications.

Carriers subject to the requirements of this section shall provide the required notifications promptly and without unreasonable delay.

### § 64.4005 Unreasonable terms or conditions on the provision of customer account information.

To the extent that a carrier incurs costs associated with providing the notifications required by this section, the carrier may recover such costs, consistent with federal and state laws, through the filing of tariffs, via negotiated agreements, or by other appropriate mechanisms. Any cost recovery method must be reasonable and must recover only costs that are associated with providing the particular information. The imposition of unreasonable terms or conditions on the provision of information required by this section may be considered an unreasonable carrier practice under section 201(b) of the Communications Act of 1934, as amended, and may subject the carrier to appropriate enforcement action.

### § 64.4006 Limitations on use of customer account information.

A carrier that receives customer account information under this section shall use such information to ensure timely and accurate billing of a customer's account and to ensure timely and accurate execution of a customer's preferred interexchange carrier instructions. Such information shall not be used for marketing purposes without the express consent of the customer.

## Subpart DD—Prepaid Calling Card Providers

SOURCE: 71 FR 43673, Aug. 2, 2006, unless otherwise noted.

### § 64.5000 Definitions.

(a) *Prepaid calling card*. The term “prepaid calling card” means a card or similar device that allows users to pay in advance for a specified amount of calling, without regard to additional features, functions, or capabilities available in conjunction with the calling service.

(b) *Prepaid calling card provider*. The term “prepaid calling card provider” means any entity that provides telecommunications service to consumers through the use of a prepaid calling card.

### § 64.5001 Reporting and certification requirements.

(a) All prepaid calling card providers must report prepaid calling card percentage of interstate use (PIU) factors, and call volumes from which these factors were calculated, based on not less than a one-day representative sample, to those carriers from which they purchase transport services. Such reports must be provided no later than the 45th day of each calendar quarter for the previous quarter.

(b) If a prepaid calling card provider fails to provide the appropriate PIU information to a transport provider in the time allowed, the transport provider may apply a 50 percent default PIU factor to the prepaid calling card provider's traffic.

(c) On a quarterly basis, every prepaid calling card provider must submit to the Commission a certification, signed by an officer of the company under penalty of perjury, providing the following information with respect to the prior quarter:

(1) The percentage of intrastate, interstate, and international calling card minutes for that reporting period;

(2) The percentage of total prepaid calling card service revenue (excluding revenue from prepaid calling cards sold by, to, or pursuant to contract with the Department of Defense (DoD) or a DoD entity) attributable to interstate and international calls for that reporting period;

(3) A statement that it is making the required Universal Service Fund contribution based on the reported information; and

(4) A statement that it has complied with the reporting requirements described in paragraph (a) of this section.

EFFECTIVE DATE NOTE: At 71 FR 43673, Aug. 2, 2006, part 64 was amended by adding subpart DD, effective Oct. 31, 2006. Section 64.5001(a), (b) and (c) contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

#### APPENDIX A TO PART 64—TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM FOR NATIONAL SECURITY EMERGENCY PREPAREDNESS (NSEP)

##### 1. Purpose and Authority

a. This appendix establishes policies and procedures and assigns responsibilities for the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System. The NSEP TSP System authorizes priority treatment to certain domestic telecommunications services (including portions of U.S. international telecommunication services provided by U.S. service vendors) for which provisioning or restoration priority (RP) levels are requested, assigned, and approved in accordance with this appendix.

b. This appendix is issued pursuant to sections 1, 4(i), 201 through 205 and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 201 through 205 and 303(r). These sections grant to the Federal Communications Commission (FCC) the authority over the assignment and approval of priorities for provisioning and restoration of common carrier-provided telecommunications services. Under section 706 of the Communications Act, this authority may be superseded, and expanded to include non-common carrier telecommunication services, by the war emergency powers of the President of the United States. This appendix provides the Commission's Order to telecommunication service vendors and users to comply with policies and procedures establishing the NSEP TSP System, until such policies and procedures are superseded by the President's war emergency powers. This appendix is intended to be read in conjunction with regulations and procedures that the Executive Office of the President issues (1) to implement responsibilities assigned in section 6(b) of this appendix, or (2) for use in the event this appendix is superseded by the President's war emergency powers.

c. Together, this appendix and the regulations and procedures issued by the Executive Office of the President establish one uniform system of priorities for provisioning and restoration of NSEP telecommunication services both before and after invocation of the

President's war emergency powers. In order that government and industry resources may be used effectively under all conditions, a single set of rules, regulations, and procedures is necessary, and they must be applied on a day-to-day basis to all NSEP services so that the priorities they establish can be implemented at once when the need arises.

\*In sections 2(a)(2) and 2(b)(2) of Executive Order No. 12472, "Assignment of National Security and Emergency Preparedness Telecommunications Functions" April 3, 1984 (49 FR 13471 (1984)), the President assigned to the Director, Office of Science and Technology Policy, certain NSEP telecommunication resource management responsibilities. The term "Executive Office of the President" as used in this appendix refers to the official or organization designated by the President to act on his behalf.

##### 2. Applicability and Revocation

a. This appendix applies to NSEP telecommunications services:

(1) For which initial or revised priority level assignments are requested pursuant to section 8 of this appendix.

(2) Which were assigned restoration priorities under the provision of FCC Order 80–581; 81 FCC 2d 441 (1980); 47 CFR part 64, appendix A, "Priority System for the Restoration of Common Carrier Provided Intercity Private Line Services"; and are being resubmitted for priority level assignments pursuant to section 10 of this appendix. (Such services will retain assigned restoration priorities until a resubmission for a TSP assignment is completed or until the existing RP rules are terminated.)

b. FCC Order 80–581 will continue to apply to all other intercity, private line circuits assigned restoration priorities thereunder until the fully operating capability date of this appendix, 30 months after the initial operating capability date referred to in subsection d of this section.

c. In addition, FCC Order, "Precedence System for Public Correspondence Services Provided by the Communications Common Carriers" (34 FR 17292 (1969)); (47 CFR part 64, appendix B), is revoked as of the effective date of this appendix.

d. The initial operating capability (IOC) date for NSEP TSP will be nine months after release in the FEDERAL REGISTER of the FCC's order following review of procedures submitted by the Executive Office of the President. On this IOC date requests for priority assignments generally will be accepted only by the Executive Office of the President.

##### 3. Definitions

As used in this part:
