

(b) *Circuit* means a carrier's specific designation of the overall facilities provided between, and including, terminals for furnishing service. When service involves network switching, *circuit* includes those circuits between subscriber premises and switching centers (access lines) and those between switching centers (trunks).

(c) *Station* means transmitting or receiving equipment or combination transmitting and receiving equipment, at any location, or any premise, connected for private line service.

(d) *Private line service* means leased intercity private line service provided by carriers for intercity domestic and international communications over integrated communications pathways, and includes interchange facilities, local channels, and station equipment which may be integral components of such communications service.

(e) *Restoration* means the recommencement of service by patching, rerouting, substitution of component parts, and other means, as determined necessary by a carrier.

(f) *Government* means Federal, foreign, State, county, municipal, and other local government agencies. Specific qualifications will be supplied whenever reference to a particular level of government is intended, e.g., *Federal Government*, *State government*. *Foreign Government* includes coalitions of governments secured by treaty, including NATO, SEATO, OAS, UN, and associations of governments or government agencies, including the Pan American Union, International Postal Union, and International Monetary Fund. *Quasi-government* includes eleemosynary relief organizations, such as the Red Cross organizations.

(g) *National Communications System (NCS)* means that system established by the President's Memorandum of August 21, 1963, "Establishment of a National Communications System" (28 FR 9413, 3 CFR, 1959-1963 Comp., p. 858).

(h) *Executive Agent* means the Executive Agent of the National Communications System.

(i) *Commission* means the Federal Communications Commission.

§211.3 Scope and coverage.

(a) The priority system and procedures established by this part are applicable to:

(1) U.S. domestic leased intercity private line services, including private line switched network services;

(2) U.S. international leased private line services to the point of foreign entry;

(3) Foreign extensions of U.S. international leased private line services to the extent possible through agreement between U.S. carriers and foreign correspondents;

(4) International leased private line services terminating in or transiting the United States;

(5) Federal Government-owned and leased circuits.

(b) The priority system and procedures established by this part are not applicable to operational circuits or order wires of the carriers needed for circuit reactivation and maintenance purposes, which shall have priority of restoration over all other circuits and shall be exempt from interruption for the purpose of restoring priority services.

§211.4 Policy.

During the continuance of a war in which the United States is engaged and when the provisions of this part are invoked, all communications common carriers shall comply with the following principles insofar as possible:

(a) Whenever necessary to maintain or restore a service having a designated priority, services having lower priority, lower subpriority, or no priority, will be interrupted in the reverse order of priority starting with nonpriority services.

(b) When services are interrupted to restore priority services, carriers will endeavor if feasible to notify users of the reason for the preemption.

(c) When public correspondence circuits are needed to satisfy requirements for priority services, idle circuits will be selected first. A minimum number of public correspondence circuits shall at all times be kept available so as to provide for the transmission of precedence-type messages and calls.
