§ 63.17 Special provisions for U.S. international common carriers.

(a) Unless otherwise prohibited by the terms of its Section 214 certificate, a U.S. common carrier authorized under this part to provide international private line service, whether as a reseller or facilities-based carrier, may interconnect its authorized private lines to the public switched network on behalf of an end user customer for the end user customer's own use.

(b) Except as provided in paragraph (b)(4) of this section, a U.S. common carrier, whether a reseller or facilities-based carrier, may engage in "switched hubbing" to countries that do not appear on the list of U.S. international routes exempted from the international settlements policy, set forth in § 64.1002 of this chapter provided the carrier complies with the following conditions:

(1) U.S.-outbound switched traffic shall be routed over the carrier's authorized U.S. international circuits extending between the United States and a country that is exempt from the international settlements policy (*i.e.*, the "hub" country), and then forwarded to the third country only by taking at published rates and reselling the international message telephone service (IMTS) of a carrier in the hub country;

(2) U.S.-inbound switched traffic shall be carried to a country that is exempt from the international settlements policy (*i.e.*, the "hub" country) as part of the IMTS traffic flow from a third country and then terminated in the United States over the carrier's authorized U.S. international circuits extending between the United States and the hub country.

NOTE TO PARAGRAPH (b): The Commission's list of international routes exempted from the international settlements policy is available on the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

47 CFR Ch. I (10–1–10 Edition)

(3) Authorized carriers filing tariffs pursuant to §§ 61.19 or 61.28 of this chapter that route U.S.-billed traffic via switched hubbing shall tariff their service on a "through" basis between the United States and the ultimate point of origination or termination;

(4) No U.S. common carrier may engage in switched hubbing to or from a third country where it has an affiliation with a foreign carrier unless and until it has received authority to serve that country under § 63.18(e)(1), (e)(2), or (e)(3).

§ 63.18 Contents of applications for international common carriers.

Except as otherwise provided in this part, any party seeking authority pursuant to Section 214 of the Communications Act of 1934, as amended, to construct a new line, or acquire or operate any line, or engage in transmission over or by means of such additional line for the provision of common carrier communications services between the United States, its territories or possessions, and a foreign point shall request such authority by formal application. The application shall include information demonstrating how the grant of the application will serve the public interest, convenience, and necessity. Such demonstration shall consist of the following information, as applicable:

(a) The name, address, and telephone number of each applicant;

(b) The Government, State, or Territory under the laws of which each corporate or partnership applicant is organized;

(c) The name, title, post office address, and telephone number of the officer and any other contact point, such as legal counsel, to whom correspondence concerning the application is to be addressed;

(d) A statement as to whether the applicant has previously received authority under Section 214 of the Act and, if so, a general description of the categories of facilities and services authorized (*i.e.*, authorized to provide

international switched services on a facilities basis);

(e) One or more of the following statements, as pertinent:

(1) *Global facilities-based authority.* If applying for authority to become a facilities-based international common carrier subject to § 63.22 of this part, the applicant shall:

(i) State that it is requesting Section 214 authority to operate as a facilities-based carrier pursuant to § 63.18(e)(1) of this part of the Commission's rules;

(ii) List any countries for which the applicant does not request authorization under this paragraph (see § 63.22(a) of this part); and

(iii) Certify that it will comply with the terms and conditions contained in §§ 63.21 and 63.22 of this part.

(2) *Global Resale Authority.* If applying for authority to resell the international services of authorized common carriers subject to § 63.23, the applicant shall:

(i) State that it is requesting Section 214 authority to operate as a resale carrier pursuant to § 63.18(e)(2) of this section of the Commission's rules;

(ii) List any countries for which the applicant does not request authorization under this paragraph (see § 63.23(a) of this part); and

(iii) Certify that it will comply with the terms and conditions contained in §§ 63.21 and 63.23 of this part.

(3) *Other authorizations.* If applying for authority to acquire facilities or to provide services not covered by paragraphs (e)(1) and (e)(2) of this section, the applicant shall provide a description of the facilities and services for which it seeks authorization. The applicant shall certify that it will comply with the terms and conditions contained in § 63.21 and § 63.22 and/or § 63.23, as appropriate. Such description also shall include any additional information the Commission shall have specified previously in an order, public notice or other official action as necessary for authorization.

(f) Applicants may apply for any or all of the authority provided for in paragraph (e) of this section in the same application. The applicant may want to file separate applications for those services not subject to streamlined processing under § 63.12.

(g) Where the applicant is seeking facilities-based authority under paragraph (e)(3) of this section, a statement whether an authorization of the facilities is categorically excluded as defined by § 1.1306 of this chapter. If answered affirmatively, an environmental assessment as described in § 1.1311 of this chapter need not be filed with the application.

(h) The name, address, citizenship and principal businesses of any person or entity that directly or indirectly owns at least ten percent of the equity of the applicant, and the percentage of equity owned by each of those entities (to the nearest one percent). The applicant shall also identify any interlocking directorates with a foreign carrier.

NOTE TO PARAGRAPH (h): Ownership and other interests in U.S. and foreign carriers will be attributed to their holders and deemed cognizable pursuant to the following criteria: Attribution of ownership interests in a carrier that are held indirectly by any party through one or more intervening corporations will be determined by successive multiplication of the ownership percentages for each link in the vertical ownership chain and application of the relevant attribution benchmark to the resulting product, except that wherever the ownership percentage for any link in the chain that is equal to or exceeds 50 percent or represents actual control, it shall be treated as if it were a 100 percent interest. For example, if A owns 30 percent of company X, which owns 60 percent of company Y, which owns 26 percent of "carrier," then X's interest in "carrier" would be 26 percent (the same as Y's interest because X's interest in Y exceeds 50 percent), and A's interest in "carrier" would be 7.8 percent (0.30×0.26 because A's interest in X is less than 50 percent). Under the 25 percent attribution benchmark, X's interest in "carrier" would be cognizable, while A's interest would not be cognizable.

(i) A certification as to whether or not the applicant is, or is affiliated with, a foreign carrier. The certification shall state with specificity each foreign country in which the applicant is, or is affiliated with, a foreign carrier.

(j) A certification as to whether or not the applicant seeks to provide international telecommunications services to any destination country for which any of the following is true. The

certification shall state with specificity the foreign carriers and destination countries:

(1) The applicant is a foreign carrier in that country; or

(2) The applicant controls a foreign carrier in that country; or

(3) Any entity that owns more than 25 percent of the applicant, or that controls the applicant, controls a foreign carrier in that country.

(4) Two or more foreign carriers (or parties that control foreign carriers) own, in the aggregate, more than 25 percent of the applicant and are parties to, or the beneficiaries of, a contractual relation (e.g., a joint venture or market alliance) affecting the provision or marketing of international basic telecommunications services in the United States.

(k) For any destination country listed by the applicant in response to paragraph (j) of this section, the applicant shall make one of the following showings:

(1) The named foreign country (i.e., the destination foreign country) is a Member of the World Trade Organization; or

(2) The applicant's affiliated foreign carrier lacks market power in the named foreign country; or

(3) The named foreign country provides effective competitive opportunities to U.S. carriers to compete in that country's market for the service that the applicant seeks to provide (facilities-based, resold switched, or resold non-interconnected private line services). An effective competitive opportunities demonstration should address the following factors:

(i) If the applicant seeks to provide facilities-based international services, the legal ability of U.S. carriers to enter the foreign market and provide facilities-based international services, in particular international message telephone service (IMTS);

(ii) If the applicant seeks to provide resold services, the legal ability of U.S. carriers to enter the foreign market and provide resold international switched services (for switched resale applications) or non-interconnected private line services (for non-interconnected private line resale applications);

(iii) Whether there exist reasonable and nondiscriminatory charges, terms and conditions for interconnection to a foreign carrier's domestic facilities for termination and origination of international services or the provision of the relevant resale service;

(iv) Whether competitive safeguards exist in the foreign country to protect against anticompetitive practices, including safeguards such as:

(A) Existence of cost-allocation rules in the foreign country to prevent cross-subsidization;

(B) Timely and nondiscriminatory disclosure of technical information needed to use, or interconnect with, carriers' facilities; and

(C) Protection of carrier and customer proprietary information;

(v) Whether there is an effective regulatory framework in the foreign country to develop, implement and enforce legal requirements, interconnection arrangements and other safeguards; and

(vi) Any other factors the applicant deems relevant to its demonstration.

(l) Any applicant that proposes to resell the international switched services of an unaffiliated U.S. carrier for the purpose of providing international telecommunications services to a country where it is a foreign carrier or is affiliated with a foreign carrier shall either provide a showing that would satisfy § 63.10(a)(3) of this part or state that it will file the quarterly traffic reports required by § 43.61(c) of this chapter.

(m) With respect to regulatory classification under § 63.10 of this part, any applicant that is or is affiliated with a foreign carrier in a country listed in response to paragraph (i) of this section and that desires to be regulated as non-dominant for the provision of particular international telecommunications services to that country should provide information in its application to demonstrate that it qualifies for non-dominant classification pursuant to § 63.10 of this part.

(n) A certification that the applicant has not agreed to accept special concessions directly or indirectly from any foreign carrier with respect to any U.S. international route where the foreign carrier possesses market power on the foreign end of the route and will not

enter into such agreements in the future.

(o) A certification pursuant to §§1.2001 through 1.2003 of this chapter that no party to the application is subject to a denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988. *See* 21 U.S.C. 853a.

(p) If the applicant desires streamlined processing pursuant to §63.12, a statement of how the application qualifies for streamlined processing.

(q) Subject to the availability of electronic forms, all applications described in this section must be filed electronically through the International Bureau Filing System (IBFS). A list of forms that are available for electronic filing can be found on the IBFS homepage. § 63.19 Special procedures for discontinuances of international services.

(a) With the exception of those international carriers described in paragraphs (b) and (c) of this section, any international carrier that seeks to discontinue, reduce or impair service, including the retiring of international facilities, dismantling or removing of international trunk lines, shall be subject to the following procedures in lieu of those specified in §§63.61 through 63.601:

(1) The carrier shall notify all affected customers of the planned discontinuance, reduction or impairment at least 30 days prior to its planned action. Notice shall be in writing to each affected customer unless the Commission authorizes in advance, for good cause shown, another form of notice.

(2) The carrier shall file with this Commission a copy of the notification on the date on which notice has been given to all affected customers. The filing may be made by letter (sending an original and five copies to the Office of

the Secretary, and a copy to the Chief, International Bureau) and shall identify the geographic areas of the planned discontinuance, reduction or impairment and the authorization(s) pursuant to which the carrier provides service.

(b) The following procedures shall apply to any international carrier that the Commission has classified as dominant in the provision of a particular international service because the carrier possesses market power in the provision of that service on the U.S. end of the route. Any such carrier that seeks to retire international facilities, dismantle or remove international trunk lines, but does not discontinue, reduce or impair the dominant services being provided through these facilities, shall only be subject to the notification requirements of paragraph (a) of this section. If such carrier discontinues, reduces or impairs the dominant service, or retires facilities that impair or reduce the service, the carrier shall file an application pursuant to §§63.62 and 63.500.

(c) Commercial Mobile Radio Service (CMRS) carriers, as defined in §20.9 of this chapter, are not subject to the provisions of this section.

(d) Subject to the availability of electronic forms, all filings described in this section must be filed electronically through the International Bureau Filing System (IBFS). A list of forms that are available for electronic filing can be found on the IBFS homepage. For information on electronic filing requirements, see part 1, §§1.1000 through 1.10018 of this chapter and the IBFS homepage at <http://www.fcc.gov/ibfs>. See also §§63.20 and 63.53.
