

has not been officially designated as a Public Safety Answering Point (PSAP), but has the capability of receiving 911 calls and either dispatching emergency services personnel or, if necessary, relaying the call to another emergency service provider. An appropriate local emergency authority may include, but is not limited to, an existing local law enforcement authority, such as the police, county sheriff, local emergency medical services provider, or fire department.

(c) *Public Safety Answering Point (PSAP).* A facility that has been designated to receive 911 calls and route them to emergency services personnel.

(d) *Statewide default answering point.* An emergency answering point designated by the State to receive 911 calls for either the entire State or those portions of the State not otherwise served by a local PSAP.

§ 64.3001 Obligation to transmit 911 calls.

All telecommunications carriers shall transmit all 911 calls to a PSAP, to a designated statewide default answering point, or to an appropriate local emergency authority as set forth in § 64.3002.

§ 64.3002 Transition to 911 as the universal emergency telephone number.

As of December 11, 2001, except where 911 is already established as the exclusive emergency number to reach a PSAP within a given jurisdiction, telecommunications carriers shall comply with the following transition periods:

(a) Where a PSAP has been designated, telecommunications carriers shall complete all translation and routing necessary to deliver 911 calls to a PSAP no later than September 11, 2002.

(b) Where no PSAP has been designated, telecommunications carriers shall complete all translation and routing necessary to deliver 911 calls to the statewide default answering point no later than September 11, 2002.

(c) Where neither a PSAP nor a statewide default answering point has been designated, telecommunications carriers shall complete the translation and routing necessary to deliver 911 calls to an appropriate local emergency

authority, within nine months of a request by the State or locality.

(d) Where no PSAP nor statewide default answering point has been designated, and no appropriate local emergency authority has been selected by an authorized state or local entity, telecommunications carriers shall identify an appropriate local emergency authority, based on the exercise of reasonable judgment, and complete all translation and routing necessary to deliver 911 calls to such appropriate local emergency authority no later than September 11, 2002.

(e) Once a PSAP is designated for an area where none had existed as of December 11, 2001, telecommunications carriers shall complete the translation and routing necessary to deliver 911 calls to that PSAP within nine months of that designation.

§ 64.3003 Obligation for providing a permissive dialing period.

Upon completion of translation and routing of 911 calls to a PSAP, a statewide default answering point, to an appropriate local emergency authority, or, where no PSAP nor statewide default answering point has been designated and no appropriate local emergency authority has been selected by an authorized state or local entity, to an appropriate local emergency authority, identified by a telecommunications carrier based on the exercise of reasonable judgment, the telecommunications carrier shall provide permissive dialing between 911 and any other seven- or ten-digit emergency number or an abbreviated dialing code other than 911 that the public has previously used to reach emergency service providers until the appropriate State or local jurisdiction determines to phase out the use of such seven- or ten-digit number entirely and use 911 exclusively.

§ 64.3004 Obligation for providing an intercept message.

Upon termination of permissive dialing, as provided under § 64.3003, telecommunications carriers shall provide a standard intercept message announcement that interrupts calls placed to the emergency service provider using either a seven- or ten-digit

Federal Communications Commission

§ 64.3100

emergency number or an abbreviated dialing code other than 911 and informs the caller of the dialing code change.

Subpart BB—Restrictions on Unwanted Mobile Service Commercial Messages

AUTHORITY: 15 U.S.C. 7701–7713, Public Law 108–187, 117 Stat. 2699.

§ 64.3100 Restrictions on mobile service commercial messages.

(a) No person or entity may initiate any mobile service commercial message, as those terms are defined in paragraph (c)(7) of this section, unless:

(1) That person or entity has the express prior authorization of the addressee;

(2) That person or entity is forwarding that message to its own address;

(3) That person or entity is forwarding to an address provided that

(i) The original sender has not provided any payment, consideration or other inducement to that person or entity; and

(ii) That message does not advertise or promote a product, service, or Internet website of the person or entity forwarding the message; or

(4) The address to which that message is sent or directed does not include a reference to a domain name that has been posted on the FCC's wireless domain names list for a period of at least 30 days before that message was initiated, provided that the person or entity does not knowingly initiate a mobile service commercial message.

(b) Any person or entity initiating any mobile service commercial message must:

(1) Cease sending further messages within ten (10) days after receiving such a request by a subscriber;

(2) Include a functioning return electronic mail address or other Internet-based mechanism that is clearly and conspicuously displayed for the purpose of receiving requests to cease the initiating of mobile service commercial messages and/or commercial electronic mail messages, and that does not require the subscriber to view or hear further commercial content other than institutional identification;

(3) Provide to a recipient who electronically grants express prior authorization to send commercial electronic mail messages with a functioning option and clear and conspicuous instructions to reject further messages by the same electronic means that was used to obtain authorization;

(4) Ensure that the use of at least one option provided in paragraphs (b)(2) and (b)(3) of this section does not result in additional charges to the subscriber;

(5) Identify themselves in the message in a form that will allow a subscriber to reasonably determine that the sender is the authorized entity; and

(6) For no less than 30 days after the transmission of any mobile service commercial message, remain capable of receiving messages or communications made to the electronic mail address, other Internet-based mechanism or, if applicable, other electronic means provided by the sender as described in paragraph (b)(2) and (b)(3) of this section.

(c) *Definitions.* For the purpose of this subpart:

(1) *Commercial Mobile Radio Service Provider* means any provider that offers the services defined in 47 CFR Section 20.9.

(2) *Commercial electronic mail message* means the term as defined in the CAN-SPAM Act, 15 U.S.C 7702 and as further defined under 16 CFR 316.3. The term is defined as “an electronic message for which the primary purpose is commercial advertisement or promotion of a commercial product or service (including content on an Internet Web site operated for a commercial purpose).” The term “commercial electronic mail message” does not include a transactional or relationship message.

(3) *Domain name* means any alphanumeric designation which is registered with or assigned by any domain name registrar, domain name registry, or other domain name registration authority as part of an electronic address on the Internet.

(4) *Electronic mail address* means a destination, commonly expressed as a string of characters, consisting of a unique user name or mailbox and a reference to an Internet domain, whether
