

§ 68.6

public interest, and that (a) compliance with the requirements of § 68.4(a)(1) is technologically infeasible, or (b) compliance with such requirements would increase the costs of the telephones, or of the technology or service, to such an extent that such telephones, technology, or service could not be successfully marketed. In any proceeding under this section to grant a waiver from the requirements of § 68.4(a)(1), the Commission shall consider the effect on hearing-impaired individuals of granting the waiver. The Commission shall periodically review and determine the continuing need for any waiver granted pursuant to this section.

[54 FR 21430, May 18, 1989]

§ 68.6 Telephones with volume control.

As of January 1, 2000, all telephones, including cordless telephones, as defined in § 15.3(j) of this chapter, manufactured in the United States (other than for export) or imported for use in the United States, must have volume control in accordance with § 68.317. Secure telephones, as defined by § 68.3 are exempt from this section, as are telephones used with public mobile services or private radio services.

§ 68.7 Technical criteria for terminal equipment.

(a) Terminal equipment shall not cause harm, as defined in § 68.3, to the public switched telephone network.

(b) Technical criteria published by the Administrative Council for Terminal Attachments are the presumptively valid technical criteria for the protection of the public switched telephone network from harms caused by the connection of terminal equipment, subject to the appeal procedures in § 68.614 of this part.

[66 FR 7581, Jan. 24, 2001]

Subpart B—Conditions on Use of Terminal Equipment

§ 68.100 General.

In accordance with the rules and regulations in this part, terminal equipment may be directly connected to the

47 CFR Ch. I (10–1–10 Edition)

public switched telephone network, including private line services provided over wireline facilities that are owned by providers of wireline telecommunications.

[66 FR 7581, Jan. 24, 2001]

§ 68.102 Terminal equipment approval requirement.

Terminal equipment must be approved in accordance with the rules and regulations in subpart C of this part, or connected through protective circuitry that is approved in accordance with the rules and regulations in subpart C.

§ 68.105 Minimum point of entry (MPOE) and demarcation point.

(a) *Facilities at the demarcation point.* Carrier-installed facilities at, or constituting, the demarcation point shall consist of wire or a jack conforming to the technical criteria published by the Administrative Council for Terminal Attachments.

(b) *Minimum point of entry.* The “minimum point of entry” (MPOE) as used herein shall be either the closest practicable point to where the wiring crosses a property line or the closest practicable point to where the wiring enters a multiunit building or buildings. The reasonable and nondiscriminatory standard operating practices of the provider of wireline telecommunications services shall determine which shall apply. The provider of wireline telecommunications services is not precluded from establishing reasonable classifications of multiunit premises for purposes of determining which shall apply. Multiunit premises include, but are not limited to, residential, commercial, shopping center and campus situations.

(c) *Single unit installations.* For single unit installations existing as of August 13, 1990, and installations installed after that date the demarcation point shall be a point within 30 cm (12 in) of the protector or, where there is no protector, within 30 cm (12 in) of where the telephone wire enters the customer’s premises, or as close thereto as practicable.
