

Federal Communications Commission

§ 64.904

during which the investment usage forecast is filed.

(c) A telecommunications carrier may not use services that are not competitive to subsidize services subject to competition. Services included in the definition of universal service shall bear no more than a reasonable share of the joint and common costs of facilities used to provide those services.

§ 64.902 Transactions with affiliates.

Except for carriers which employ average schedules in lieu of determining their costs, all carriers subject to § 64.901 are also subject to the provisions of § 32.27 of this chapter concerning transactions with affiliates.

[55 FR 30461, July 26, 1990]

§ 64.903 Cost allocation manuals.

(a) Each incumbent local exchange carrier having annual revenues from regulated telecommunications operations that are equal to or above the indexed revenue threshold (as defined in § 32.9000 of this chapter) except mid-sized incumbent local exchange carriers is required to file a cost allocation manual describing how it separates regulated from nonregulated costs. The manual shall contain the following information regarding the carrier's allocation of costs between regulated and nonregulated activities:

(1) A description of each of the carrier's nonregulated activities;

(2) A list of all the activities to which the carrier now accords incidental accounting treatment and the justification therefor;

(3) A chart showing all of the carrier's corporate affiliates;

(4) A statement identifying each affiliate that engages in or will engage in transactions with the carrier and describing the nature, terms and frequency of each transaction;

(5) A cost apportionment table showing, for each account containing costs incurred in providing regulated services, the cost pools with that account, the procedures used to place costs into each cost pool, and the method used to

apportion the costs within each cost pool between regulated and nonregulated activities; and

(6) A description of the time reporting procedures that the carrier uses, including the methods or studies designed to measure and allocate non-productive time.

(b) Each carrier shall ensure that the information contained in its cost allocation manual is accurate. Carriers must update their cost allocation manuals at least annually, except that changes to the cost apportionment table and to the description of time reporting procedures must be filed at the time of implementation. Annual cost allocation manual updates shall be filed on or before the last working day of each calendar year. Proposed changes in the description of time reporting procedures, the statement concerning affiliate transactions, and the cost apportionment table must be accompanied by a statement quantifying the impact of each change on regulated operations. Changes in the description of time reporting procedures and the statement concerning affiliate transactions must be quantified in \$100,000 increments at the account level. Changes in cost apportionment tables must be quantified in \$100,000 increments at the cost pool level. The Chief, Wireline Competition Bureau may suspend any such changes for a period not to exceed 180 days, and may thereafter allow the change to become effective or prescribe a different procedure.

(c) The Commission may by order require any other communications common carrier to file and maintain a cost allocation manual as provided in this section.
