

§ 76.1907

the facts, and exhibits shall be verified by the person who prepares them.

(B) The covered entity may file a response to the complaint and comments within twenty (20) days after the date that comments are due. Such response shall be served on all persons who have filed complaints or comments and shall also contain a detailed full showing, supported by affidavit or declaration, of any additional facts or considerations relied on. Replies shall be due ten (10) days from the date for filing a response.

(v) *Basis for Commission determination as to encoding terms for an undefined business model.* In a permit-but-disclose proceeding, unless otherwise specified by the Commission, to determine whether encoding terms as noticed may be applied to an undefined business model, the covered entity shall have the burden of proof to establish that application of the encoding terms in the undefined business model is in the public interest. In making any such determination, the Commission shall take into account the following factors:

(A) Whether the benefit to consumers of the new service, including but not limited to earlier release windows, more favorable terms, innovation or original programming, outweighs the limitation on the consumers' control over the new service;

(B) Ways in which the new service differs from services offered by any covered entity prior to December 31, 2002;

(vi) *Determination procedures.* The Commission may specify other procedures, such as oral argument, evidentiary hearing, or further written submissions directed to particular aspects, as it deems appropriate.

(b) *Complaint regarding a service not subject to notice.* In an instance in which an interested party has a substantial basis to believe and believes in good faith that a service pursuant to an undefined business model has been launched without requisite notice, such party may file a complaint pursuant to § 76.7.

§ 76.1907 Temporary bona fide trials.

The obligations and procedures as to encoding rules set forth in §§ 76.1904(b)

47 CFR Ch. I (10–1–11 Edition)

and (c) and 76.1905(a) and (b) do not apply in the case of a temporary bona fide trial of a service.

§ 76.1908 Certain practices not prohibited.

Nothing in this subpart shall be construed as prohibiting a covered entity from:

(a) Encoding, storing or managing commercial audiovisual content within its distribution system or within a covered product under the control of a covered entity's commercially adopted access control method, provided that the outcome for the consumer from the application of the encoding rules set out in § 76.1904(a) and (b) is unchanged thereby when such commercial audiovisual content is released to consumer control and provided that all other laws, regulations, or licenses applicable to such encoding, storage, or management shall be unaffected by this section, or

(b) Causing, with respect to a specific covered product, the output of content from such product in a format as necessary to match the display format of another device connected to such product, including but not limited to providing for content conversion between widely-used formats for the transport, processing and display of audiovisual signals or data, such as between analog and digital formats and between PAL and NTSC or RGB and Y,Pb,Pr.

[68 FR 66735, Nov. 28, 2003, as amended at 76 FR 40280, July 8, 2011]

§ 76.1909 Redistribution control of unencrypted digital terrestrial broadcast content.

(a) For the purposes of this section, the terms unencrypted digital terrestrial broadcast content, EIT, PMT, broadcast flag, covered demodulator product, and marked content shall have the same meaning as set forth in § 73.9000 of this chapter.

(b) *Encrypted retransmission.* Where a multichannel video programming distributor retransmits unencrypted digital terrestrial broadcast content in encrypted form, such distributor shall, upon demodulation of the 8-VSB, 16-VSB, 64-QAM or 256-QAM signal, inspect either the EIT or PMT for the

broadcast flag, and if the broadcast flag is present:

(1) Securely and robustly convey that information to the consumer product used to decrypt the distributor's signal information, and

(2) Require that such consumer product, following such decryption, protect the content of such signal as if it were a covered demodulator product receiving marked content.

(c) *Unencrypted retransmission.* Where a multichannel video programming distributor retransmits unencrypted digital terrestrial broadcast content in unencrypted form, such distributor shall, upon demodulation:

(1) Preserve the broadcast flag, if present, in both the EIT and PMT; and

(2) Use 8-VSB, 16-VSB, 64-QAM, or 256-QAM signal modulation for the retransmission.

(d) *Unmarked content.* Where a multichannel video programming distributor retransmits unencrypted digital terrestrial broadcast content that is not marked with the broadcast flag, the multichannel video programming distributor shall not encode such content to restrict its redistribution.

[68 FR 67607, Dec. 3, 2003]

Subpart X—Access to MDUs

§ 76.2000 Exclusive access to multiple dwelling units generally.

(a) *Prohibition.* No cable operator or other provider of MVPD service subject to 47 U.S.C. 548 shall enforce or execute any provision in a contract that grants to it the exclusive right to provide any video programming service (alone or in combination with other services) to a MDU. All such exclusivity clauses are null and void.

(b) *Definition.* For purposes of this rule, MDU shall include a multiple dwelling unit building (such as an apartment building, condominium building or cooperative) and any other centrally managed residential real estate development (such as a gated community, mobile home park, or garden apartment); provided however, that MDU shall not include time share units, academic campuses and dormitories, military bases, hotels, rooming houses, prisons, jails, halfway

houses, hospitals, nursing homes or other assisted living facilities.
