§ 1.1418

utilities presumptive average number of attachers is based.

- (2) Each utility is required to exercise good faith in establishing and updating its presumptive average number of attachers.
- (3) The presumptive average number of attachers may be challenged by an attaching entity by submitting information demonstrating why the utility's presumptive average is incorrect. The attaching entity should also submit what it believes should be the presumptive average and the methodology used. Where a complete inspection is impractical, a statistically sound survey may be submitted.
- (4) Upon successful challenge of the existing presumptive average number of attachers, the resulting data determined shall be used by the utility as the presumptive number of attachers within the rate formula.

[63 FR 12026, Mar. 12, 1998, as amended at 66 FR 34581, June 29, 2001]

EFFECTIVE DATE NOTE: At 63 FR 12026, Mar. 12, 1998, §1.1417 was added. The section contains information collection and record-keeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 1.1418 Use of presumptions in calculating the space factor.

With respect to the formulas referenced in §1.1409(e)(1) and §1.1409(e)(2), the space occupied by an attachment is presumed to be one (1) foot. The amount of usable space is presumed to be 13.5 feet. The amount of unusable space is presumed to be 24 feet. The pole height is presumed to be 37.5 feet. These presumptions may be rebutted by either party.

[66 FR 34581, June 29, 2001]

§ 1.1420 Timeline for access to utility poles.

- (a) The term "attachment" means any attachment by a cable television system or provider of telecommunications service to a pole owned or controlled by a utility.
- (b) All time limits in this subsection are to be calculated according to §1.4.
- (c) Survey. A utility shall respond as described in §1.1403(b) to a cable operator or telecommunications carrier within 45 days of receipt of a complete

- application to attach facilities to its utility poles (or within 60 days, in the case of larger orders as described in paragraph (g) of this section). This response may be a notification that the utility has completed a survey of poles for which access has been requested. A complete application is an application that provides the utility with the information necessary under its procedures to begin to survey the poles.
- (d) Estimate. Where a request for access is not denied, a utility shall present to a cable operator or telecommunications carrier an estimate of charges to perform all necessary makeready work within 14 days of providing the response required by §1.1420(c), or in the case where a prospective attacher's contractor has performed a survey, within 14 days of receipt by the utility of such survey.
- (1) A utility may withdraw an outstanding estimate of charges to perform make-ready work beginning 14 days after the estimate is presented.
- (2) A cable operator or telecommunications carrier may accept a valid estimate and make payment anytime after receipt of an estimate but before the estimate is withdrawn.
- (e) Make-ready. Upon receipt of payment specified in paragraph (d)(2) of this section, a utility shall notify immediately and in writing all known entities with existing attachments that may be affected by the make-ready.
- (1) For attachments in the communications space, the notice shall:
- (i) Specify where and what makeready will be performed.
- (ii) Set a date for completion of make-ready that is no later than 60 days after notification is sent (or 105 days in the case of larger orders, as described in paragraph (g) of this section).
- (iii) State that any entity with an existing attachment may modify the attachment consistent with the specified make-ready before the date set for completion.
- (iv) State that the utility may assert its right to 15 additional days to complete make-ready.
- (v) State that if make-ready is not completed by the completion date set by the utility (or, if the utility has asserted its 15-day right of control, 15
