

§ 51.809

the Commission pursuant to that section;

(2) Establish rates for interconnection, services, or access to unbundled network elements according to section 252(d) of the Act, including the rules prescribed by the Commission pursuant to that section; and

(3) Provide a schedule for implementation of the terms and conditions by the parties to the agreement. If a final offer submitted by one or more parties fails to comply with the requirements of this section or if the arbitrator determines in unique circumstances that another result would better implement the Communications Act, the arbitrator has discretion to take steps designed to result in an arbitrated agreement that satisfies the requirements of section 252(c) of the Act, including requiring parties to submit new final offers within a time frame specified by the arbitrator, or adopting a result not submitted by any party that is consistent with the requirements of section 252(c) of the Act, and the rules prescribed by the Commission pursuant to that section.

(g) Participation in the arbitration proceeding will be limited to the requesting telecommunications carrier and the incumbent LEC, except that the Commission will consider requests by third parties to file written pleadings.

(h) Absent mutual consent of the parties to change any terms and conditions adopted by the arbitrator, the decision of the arbitrator shall be binding on the parties.

[61 FR 45619, Aug. 29, 1996, as amended at 66 FR 8520, Feb. 1, 2001]

§ 51.809 Availability of agreements to other telecommunications carriers under section 252(i) of the Act.

(a) An incumbent LEC shall make available without unreasonable delay to any requesting telecommunications carrier any agreement in its entirety to which the incumbent LEC is a party that is approved by a state commission pursuant to section 252 of the Act, upon the same rates, terms, and conditions as those provided in the agreement. An incumbent LEC may not limit the availability of any agreement only to those requesting carriers serving a

47 CFR Ch. I (10–1–12 Edition)

comparable class of subscribers or providing the same service (*i.e.*, local, access, or interexchange) as the original party to the agreement.

(b) The obligations of paragraph (a) of this section shall not apply where the incumbent LEC proves to the state commission that:

(1) The costs of providing a particular agreement to the requesting telecommunications carrier are greater than the costs of providing it to the telecommunications carrier that originally negotiated the agreement, or

(2) The provision of a particular agreement to the requesting carrier is not technically feasible.

(c) Individual agreements shall remain available for use by telecommunications carriers pursuant to this section for a reasonable period of time after the approved agreement is available for public inspection under section 252(h) of the Act.

Subpart J—Transitional Access Service Pricing

SOURCE: 76 FR 73856, Nov. 29, 2011, unless otherwise noted.

§ 51.901 Purpose and scope of transitional access service pricing rules.

(a) The purpose of this section is to establish rules governing the transition of intercarrier compensation from a calling-party's-network pays system to a default bill-and-keep methodology. Following the transition, the exchange of traffic between and among service providers will, by default, be governed by bill-and-keep arrangements.

(b) Effective December 29, 2011, the provisions of this subpart apply to reciprocal compensation for telecommunications traffic exchanged between telecommunications providers that is interstate or intrastate exchange access, information access, or exchange services for such access, other than special access.

NOTE TO § 51.901: See FCC 11-161, figure 9 (chart identifying steps in the transition).

§ 51.903 Definitions.

For the purposes of this subpart:

(a) *Competitive Local Exchange Carrier*. A *Competitive Local Exchange Carrier* is any local exchange carrier, as defined in § 51.5, that is not an incumbent local exchange carrier.

(b) *Composite Terminating End Office Access Rate* means terminating End Office Access Service revenue, calculated using demand for a given time period, divided by end office switching minutes for the same time period.

(c) *Dedicated Transport Access Service* means originating and terminating transport on circuits dedicated to the use of a single carrier or other customer provided by an incumbent local exchange carrier or any functional equivalent of the incumbent local exchange carrier access service provided by a non-incumbent local exchange carrier. *Dedicated Transport Access Service* rate elements for an incumbent local exchange carrier include the entrance facility rate elements specified in § 69.110 of this chapter, the dedicated transport rate elements specified in § 69.111 of this chapter, the direct-trunked transport rate elements specified in § 69.112 of this chapter, and the intrastate rate elements for functionally equivalent access services. *Dedicated Transport Access Service* rate elements for a non-incumbent local exchange carrier include any functionally equivalent access services.

(d) *End Office Access Service* means:

(1) The switching of access traffic at the carrier's end office switch and the delivery to or from of such traffic to the called party's premises;

(2) The routing of interexchange telecommunications traffic to or from the called party's premises, either directly or via contractual or other arrangements with an affiliated or unaffiliated entity, regardless of the specific functions provided or facilities used; or

(3) Any functional equivalent of the incumbent local exchange carrier access service provided by a non-incumbent local exchange carrier. End Office Access Service rate elements for an incumbent local exchange carrier include the local switching rate elements specified in § 69.106 of this chapter, the carrier common line rate elements specified in § 69.154 of this chapter, and the intrastate rate elements for functionally equivalent access services. End Of-

fice Access Service rate elements for an incumbent local exchange carrier also include any rate elements assessed on local switching access minutes, including the information surcharge and residual rate elements. End office Access Service rate elements for a non-incumbent local exchange carrier include any functionally equivalent access service.

NOTE TO PARAGRAPH (d): For incumbent local exchange carriers, residual rate elements may include, for example, state Transport Interconnection Charges, Residual Interconnection Charges, and PICCs. For non-incumbent local exchange carriers, residual rate elements may include any functionally equivalent access service.

(e) *Fiscal Year 2011* means October 1, 2010 through September 30, 2011.

(f) *Price Cap Carrier* has the same meaning as that term is defined in § 61.3(aa) of this chapter.

(g) *Rate-of-Return Carrier* is any incumbent local exchange carrier not subject to price cap regulation as that term is defined in § 61.3(aa) of this chapter, but only with respect to the territory in which it operates as an incumbent local exchange carrier.

(h) *Access Reciprocal Compensation* means telecommunications traffic exchanged between telecommunications service providers that is interstate or intrastate exchange access, information access, or exchange services for such access, other than special access.

(i) *Tandem-Switched Transport Access Service* means:

(1) Tandem switching and common transport between the tandem switch and end office; or

(2) Any functional equivalent of the incumbent local exchange carrier access service provided by a non-incumbent local exchange carrier via other facilities. *Tandem-Switched Transport* rate elements for an incumbent local exchange carrier include the rate elements specified in § 69.111 of this chapter, except for the dedicated transport rate elements specified in that section, and intrastate rate elements for functionally equivalent service. *Tandem Switched Transport Access Service* rate elements for a non-incumbent local exchange carrier include any functionally equivalent access service.

§ 51.905

47 CFR Ch. I (10–1–12 Edition)

(j) *Transitional Intrastate Access Service* means terminating End Office Access Service that was subject to intrastate access rates as of December 31, 2011; terminating Tandem-Switched Transport Access Service that was subject to intrastate access rates as of December 31, 2011; and originating and terminating Dedicated Transport Access Service that was subject to intrastate access rates as of December 31, 2011.

§ 51.905 Implementation.

(a) The rates set forth in this section are default rates. Notwithstanding any other provision of the Commission's rules, telecommunications carriers may agree to rates different from the default rates.

(b) LECs who are otherwise required to file tariffs are required to tariff rates no higher than the default transitional rates specified by this subpart.

(1) With respect to interstate switched access services governed by this subpart, LECs shall tariff rates for those services in their federal tariffs. Except as expressly superseded below, LECs shall follow the procedures specified in part 61 of this chapter when filing such tariffs.

(2) With respect to Transitional Intrastate Access Services governed by this subpart, LECs shall follow the procedures specified by relevant state law when filing such tariffs, price lists or other instrument (referred to collectively as "tariffs").

(c) Nothing in this section shall be construed to require a carrier to file or maintain a tariff or to amend an existing tariff if it is not otherwise required to do so under applicable law.

§ 51.907 Transition of price cap carrier access charges.

(a) Notwithstanding any other provision of the Commission's rules, on December 29, 2011, a Price Cap Carrier shall cap the rates for all interstate and intrastate rate elements for services contained in the definitions of Interstate End Office Access Services, Tandem Switched Transport Access Services, and Dedicated Transport Access Services. In addition, a Price Cap Carrier shall also cap the rates for any interstate and intrastate rate elements

in the traffic sensitive basket" and the "trunking basket" as described in 47 CFR 61.42(d)(2) and (3) to the extent that such rate elements are not contained in the definitions of Interstate End Office Access Services, Tandem Switched Transport Access Services, and Dedicated Transport Access Services. Carriers will remove these services from price cap regulation in their July 1, 2012 annual tariff filing.

(b) *Step 1*. Beginning July 1, 2012, notwithstanding any other provision of the Commission's rules:

(1) Each Price Cap Carrier shall file tariffs, in accordance with § 51.905(b)(2), with the appropriate state regulatory authority, that set forth the rates applicable to Transitional Intrastate Access Service in each state in which it provides Transitional Intrastate Access Service.

(2) Each Price Cap Carrier shall establish the rates for Transitional Intrastate Access Service using the following methodology:

(i) Calculate total revenue from Transitional Intrastate Access Service at the carrier's interstate access rates in effect on December 29, 2011, using Fiscal Year 2011 intrastate switched access demand for each rate element.

(ii) Calculate total revenue from Transitional Intrastate Access Service at the carrier's intrastate access rates in effect on December 29, 2011, using Fiscal Year 2011 intrastate switched access demand for each rate element.

(iii) Calculate the Step 1 Access Revenue Reduction. The Step 1 Access Revenue Reduction is equal to one-half of the difference between the amount calculated in paragraph (b)(2)(i) of this section and the amount calculated in paragraph (b)(2)(ii) of this section.

(iv) A Price Cap Carrier may elect to establish rates for Transitional Intrastate Access Service using its intrastate access rate structure. Carriers using this option shall establish rates for Transitional Intrastate Access Service such that Transitional Intrastate Access Service revenue at the proposed rates is no greater than Transitional Intrastate Access Service revenue at the intrastate rates in effect as of December 29, 2011 less the Step 1 Access Revenue Reduction, using Fiscal Year 2011 demand. Carriers electing to
