

Federal Communications Commission

§ 51.913

Transitional Intrastate Access Service using its intrastate access rate structure. Carriers using this option shall establish rates for Transitional Intrastate Access Service such that Transitional Intrastate Access Service revenue at the proposed rates is no greater than Transitional Intrastate Access Service revenue at the intrastate rates in effect as of December 29, 2011 less the Step 1 Access Revenue Reduction, using Fiscal year 2011 intrastate switched access demand.

(5) In the alternative, a Competitive Local Exchange Carrier may elect to apply its interstate access rate structure and interstate rates to Transitional Intrastate Access Service. In addition to applicable interstate access rates, the carrier may assess a transitional per-minute charge on Transitional Intrastate Access Service end office switching minutes (previously billed as intrastate access). The transitional charge shall be no greater than the Step 1 Access Revenue Reduction divided by Fiscal year 2011 intrastate switched access demand.

(6) Except as provided in paragraph (b)(7) of this section, nothing in this section obligates or allows a Competitive LEC that has intrastate rates lower than its functionally equivalent interstate rates to make any intrastate tariff filing or intrastate tariff revisions raising such rates.

(7) If a Competitive LEC must make an intrastate switched access rate reduction pursuant to paragraph (b) of this section, and that Competitive LEC has an intrastate rate for a rate element that is below the comparable interstate rate for that element, the Competitive LEC may increase the rate for any intrastate rate element that is below the comparable interstate rate for that element to the interstate rate no later than July 1, 2013;

(c) Beginning July 1, 2013, notwithstanding any other provision of the Commission's rules, all Competitive Local Exchange Carrier Access Reciprocal Compensation rates for switched exchange access services subject to this subpart shall be no higher than the Access Reciprocal Compensation rates charged by the competing incumbent local exchange carrier, in accordance

with the same procedures specified in § 61.26 of this chapter.

[76 FR 73856, Nov. 29, 2011, as amended at 77 FR 48453, Aug. 14, 2012]

§ 51.913 Transition for VoIP-PSTN traffic.

(a)(1) Terminating Access Reciprocal Compensation subject to this subpart exchanged between a local exchange carrier and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format shall be subject to a rate equal to the relevant interstate terminating access charges specified by this subpart. Interstate originating Access Reciprocal Compensation subject to this subpart exchanged between a local exchange carrier and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format shall be subject to a rate equal to the relevant interstate originating access charges specified by this subpart.

(2) Until June 30, 2014, intrastate originating Access Reciprocal Compensation subject to this subpart exchanged between a local exchange carrier and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format shall be subject to a rate equal to the relevant intrastate originating access charges specified by this subpart. Effective July 1, 2014, originating Access Reciprocal Compensation subject to this subpart exchanged between a local exchange carrier and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format shall be subject to a rate equal to the relevant interstate originating access charges specified by this subpart.

(3) Telecommunications traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

(b) Notwithstanding any other provision of the Commission's rules, a local exchange carrier shall be entitled to

assess and collect the full Access Reciprocal Compensation charges prescribed by this subpart that are set forth in a local exchange carrier's interstate or intrastate tariff for the access services defined in §51.903 regardless of whether the local exchange carrier itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected VoIP service, as defined in 47 U.S.C. 153(25), or a non-interconnected VoIP service, as defined in 47 U.S.C. 153(36), that does not itself seek to collect Access Reciprocal Compensation charges prescribed by this subpart for that traffic. This rule does not permit a local exchange carrier to charge for functions not performed by the local exchange carrier itself or the affiliated or unaffiliated provider of interconnected VoIP service or non-interconnected VoIP service. For purposes of this provision, functions provided by a LEC as part of transmitting telecommunications between designated points using, in whole or in part, technology other than TDM transmission in a manner that is comparable to a service offered by a local exchange carrier constitutes the functional equivalent of the incumbent local exchange carrier access service.

[76 FR 73856, Nov. 29, 2011, as amended at 77 FR 31536, May 29, 2012]

(a) Access Reciprocal Compensation subject to this subpart exchanged between a local exchange carrier and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format shall be subject to a rate equal to the relevant interstate access charges specified by this subpart. Telecommunications traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

(b) Notwithstanding any other provision of the Commission's rules, a local exchange carrier shall be entitled to assess and collect the full Access Reciprocal Compensation charges prescribed by this subpart that are set forth in a local exchange carrier's

interstate or intrastate tariff for the access services defined in §51.903 regardless of whether the local exchange carrier itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected VoIP service, as defined in 47 U.S.C. 153(25), or a non-interconnected VoIP service, as defined in 47 U.S.C. 153(36), that does not itself seek to collect Access Reciprocal Compensation charges prescribed by this subpart for that traffic. This rule does not permit a local exchange carrier to charge for functions not performed by the local exchange carrier itself or the affiliated or unaffiliated provider of interconnected VoIP service or non-interconnected VoIP service. For purposes of this provision, functions provided by a LEC as part of transmitting telecommunications between designated points using, in whole or in part, technology other than TDM transmission in a manner that is comparable to a service offered by a local exchange carrier constitutes the functional equivalent of the incumbent local exchange carrier access service.

§51.915 Recovery mechanism for price cap carriers.

(a) *Scope.* This section sets forth the extent to which Price Cap Carriers may recover certain revenues, through the recovery mechanism outlined below, to implement reforms adopted in FCC 11–161 and as required by §20.11(b) of this chapter, and §§51.705 and 51.907.

(b) *Definitions.* As used in this section and §51.917, the following terms mean:

(1) *CALLS Study Area.* A *CALLS Study Area* means a Price Cap Carrier study area that participated in the CALLS plan at its inception. *See Access Charge Reform, Price Cap Performance Review for Local Exchange Carriers, Low-Volume Long-Distance Users, Federal-State Joint Board on Universal Service*, Sixth Report and Order in CC Docket Nos. 96–262 and 94–1, Report and Order in CC Docket No. 99–249, Eleventh Report and Order in CC Docket No. 96–45, 15 FCC Rcd 12962 (2000).

(2) *CALLS Study Area Base Factor.* The *CALLS Study Area Base Factor* is equal to ninety (90) percent.
