

(e) *State regulated fees.* (1) Beginning on July 1, 2012, for purposes of calculating limitations on high-cost support under this section, state regulated fees shall be limited to state subscriber line charges, state universal service fees and mandatory extended area service charges, which shall be determined as part of a local rate survey, the results of which shall be published annually.

(2) Federal subscriber line charges shall not be included in calculating limitations on high-cost support under this section.

(f) *Schedule.* High-cost support will be limited where the rate for residential local service plus state regulated fees are below the local urban rate floor representing the national average of local urban rates plus state regulated fees under the schedule specified in this paragraph. To the extent end user rates plus state regulated fees are below local urban rate floors plus state regulated fees, appropriate reductions in high-cost support will be made by the Universal Service Administrative Company.

(g) Any reductions in high-cost support under this section will not be redistributed to other carriers that receive support pursuant to § 36.631 of this chapter.

(h) If, due to changes in local service rates, a local exchange carrier makes an updated rate filing pursuant to section 54.313(h)(2), the Universal Service Administrative Company will update the support reduction applied pursuant to paragraphs (b) and (f) of this section.

(i) For the purposes of this section and the reporting of rates pursuant to paragraph 313(h), rates for residential local service provided pursuant to measured or message rate plans or as part of a bundle of services should be calculated as follows:

(1) Rates for measured or message service shall be calculated by adding the basic rate for local service plus the additional charges incurred for measured service, using the mean number of minutes or message units for all customers subscribing to that rate plan multiplied by the applicable rate per minute or message unit. The local service rate includes additional charges for measured service only to the extent that the average number of units used

by subscribers to that rate plan exceeds the number of units that are included in the plan. Where measured service plans have multiple rates for additional units, such as peak and off-peak rates, the calculation should reflect the average number of units that subscribers to the rate plan pay at each rate.

(2) For bundled service, the residential local service rate is the local service rate as tariffed, if applicable, or as itemized on end-user bills. If a carrier neither tariffs nor itemizes the local voice service rate on bills for bundled services, the local service rate is the rate of a similar stand-alone local voice service that it offers to consumers in that study area.

[76 FR 73876, Nov. 29, 2011, as amended at 77 FR 14302, Mar. 9, 2012; 77 FR 30914, May 24, 2012]

**§ 54.320 Compliance and record-keeping for the high-cost program.**

(a) Eligible telecommunications carriers authorized to receive universal service high-cost support are subject to random compliance audits and other investigations to ensure compliance with program rules and orders.

(b) All eligible telecommunications carriers shall retain all records required to demonstrate to auditors that the support received was consistent with the universal service high-cost program rules. This documentation must be maintained for at least ten years from the receipt of funding. All such documents shall be made available upon request to the Commission and any of its Bureaus or Offices, the Administrator, and their respective auditors.

(c) Eligible telecommunications carriers authorized to receive high-cost support that fail to comply with public interest obligations or any other terms and conditions may be subject to further action, including the Commission's existing enforcement procedures and penalties, reductions in support amounts, potential revocation of ETC designation, and suspension or debarment pursuant to § 54.8.
