§ 90.373 Eligibility in the DSRCS.

The following entities are eligible to hold an authorization to operate Roadside units in the DSRCS:

- (a) Any territory, possession, state, city, county, town or similar governmental entity.
- (b) Any entity meeting the eligibility requirements of §§ 90.33 or 90.35.

[69 FR 46443, Aug. 3, 2004]

§ 90.375 RSU license areas, communication zones and registrations

- (a) DSRCS Roadside Units (RSUs) in the 5850–5925 MHz band are licensed on the basis of non-exclusive geographic areas. Governmental applicants will be issued a geographic area license based on the geo-political area encompassing the legal jurisdiction of the entity. All other applicants will be issued a geographic area license for their proposed area of operation based on county(s), state(s) or nationwide.
- (b) Applicants who are approved in accordance with FCC Form 601 will be granted non-exclusive licenses for all non-reserved DSRCS frequencies (see §90.377). Such licenses serve as a prerequisite of registering individual RSUs located within the licensed geographic area described in paragraph (a) of this section. Licensees must register each RSU in the Universal Licensing System (ULS) before operating such RSU. RSU registrations are subject, inter alia, to the requirements of §1.923 of this chapter as applicable (antenna structure registration, environmental concerns, international coordination, and quiet zones). Additionally, RSUs at locations subject to NTIA coordination (see §90.371(b) may not begin operation until NTIA -approval is received. Registrations are not effective until the Commission posts them on the ULS.
- (c) Licensees must operate each RSU in accordance with the Commission's Rules and the registration data posted on the ULS for such RSU. Licensees

must register each RSU for the smallest communication zone needed (for the DSRC-based intelligent transportation systems application) using one of the following four communication zones:

| RSU class | Max. output power (dBm) ¹ | Communica- tions zone (meters) | |
|-----------|--------------------------------------------|-----------------------------------------|--|
| Α | 0 | 15 | |
| В | 10 | 100 | |
| C | 20 | 400 | |
| D | 28.8 | 1000 | |

[69 FR 46444, Aug. 3, 2004]

§ 90.377 Frequencies available; maximum EIRP and antenna height, and priority communications.

- (a) Licensees shall transmit only the power (EIRP) needed to communicate with an On-Board Unit (OBU) within the communications zone and must take steps to limit the Roadside Unit (RSU) signal within the zone to the maximum extent practicable.
- (b) Frequencies available for assignment to eligible applicants within the 5850–5925 MHz band for RSUs and the maximum EIRP permitted for an RSU with an antenna height not exceeding 8 meters above the roadway bed surface are specified in the table below. Where two EIRP limits are given, the higher limit is permitted only for state or local governmental entities.

| Channel No. | Frequency range (MHz) | Max. EIRP¹ (dBm) | Channel use |
|-------------|--------------------------|---------------------|-------------------------------|
| 170 | 5850-5855 | | Reserved. |
| 172 | 5855-5865 | 33 | Service Channel. ² |
| 174 | 5865-5875 | 33 | Service Channel. |
| 175 | 5865-5885 | 23 | Service Channel. ³ |
| 176 | 5875-5885 | 33 | Service Channel. |
| 178 | 5885-5895 | 33/44.8 | Control Channel. |
| 180 | 5895–5905 | 23 | Service Channel. |
