action should be taken soon, within the next hour).

- (2) Severity. The CAP Severity element must be either Extreme (i.e., an extraordinary threat to life or property) or Severe (i.e., a significant threat to life or property).
- (3) Certainty. The CAP Certainty element must be either Observed (i.e., determined to have occurred or to be ongoing) or Likely (i.e., has a probability of greater than 50 percent).
- (c) Child Abduction Emergency/AMBER Alert. (1) An AMBER Alert is an alert initiated by a local government official based on the U.S. Department of Justice's five criteria that should be met before an alert is activated:
- (i) Law enforcement confirms a child has been abducted:
- (ii) The child is 17 years or younger;
- (iii) Law enforcement believes the child is in imminent danger of serious bodily harm or death;
- (iv) There is enough descriptive information about the victim and the abduction to believe an immediate broadcast alert will help; and
- (v) The child's name and other data have been entered into the National Crime Information Center.
- (2) There are four types of AMBER Alerts: Family Abduction; Non-family Abduction; Lost, Injured or Otherwise Missing; and Endangered Runaway.
- (i) Family Abduction. A Family Abduction (FA) alert involves an abductor who is a family member of the abducted child such as a parent, aunt, grandfather, or stepfather.
- (ii) Nonfamily Abduction. A Nonfamily Abduction (NFA) alert involves an abductor unrelated to the abducted child, either someone unknown to the child and/or the child's family or an acquaintance/friend of the child and/or the child's family.
- (iii) Lost, Injured, or Otherwise Missing. A Lost, Injured, or Otherwise Missing (LIM) alert involves a case where the circumstances of the child's disappearance are unknown.
- (iv) Endangered Runaway. An Endangered Runaway (ERU) alert involves a missing child who is believed to have run away and in imminent danger.

## §10.410 Prioritization.

A Participating CMS Provider is required to transmit Presidential Alerts upon receipt. Presidential Alerts preempt all other Alert Messages. A Participating CMS Provider is required to transmit Imminent Threat Alerts and AMBER Alerts on a first in-first out (FIFO) basis.

## §10.420 Message elements.

A WEA Alert Message processed by a Participating CMS Provider shall include five mandatory CAP elements—Event Type; Area Affected; Recommended Action; Expiration Time (with time zone); and Sending Agency. This requirement does not apply to Presidential Alerts.

[78 FR 16808, Mar. 19, 2013]

#### §10.430 Character limit.

A WEA Alert Message processed by a Participating CMS Provider must not exceed 90 characters of alphanumeric text.

[78 FR 16808, Mar. 19, 2013]

# § 10.440 Embedded reference prohibition.

A WEA Alert Message processed by a Participating CMS Provider must not include an embedded Uniform Resource Locator (URL), which is a reference (an address) to a resource on the Internet, or an embedded telephone number. This prohibition does not apply to Presidential Alerts.

[78 FR 16808, Mar. 19, 2013]

### §10.450 Geographic targeting.

This section establishes minimum requirements for the geographic targeting of Alert Messages. A Participating CMS Provider will determine which of its network facilities, elements, and locations will be used to geographically target Alert Messages. A Participating CMS Provider must transmit any Alert Message that is specified by a geocode, circle, or polygon to an area not larger than the provider's approximation of coverage for the Counties or County Equivalents
