

Federal Communications Commission

§ 51.701

to offer on a resale basis to the same limited group of customers that have purchased such a service in the past.

§ 51.617 Assessment of end user common line charge on resellers.

(a) Notwithstanding the provision in § 69.104(a) of this chapter that the end user common line charge be assessed upon end users, an incumbent LEC shall assess this charge, and the charge for changing the designated primary interexchange carrier, upon requesting carriers that purchase telephone exchange service for resale. The specific end user common line charge to be assessed will depend upon the identity of the end user served by the requesting carrier.

(b) When an incumbent LEC provides telephone exchange service to a requesting carrier at wholesale rates for resale, the incumbent LEC shall continue to assess the interstate access charges provided in part 69 of this chapter, other than the end user common line charge, upon interexchange carriers that use the incumbent LEC's facilities to provide interstate or international telecommunications services to the interexchange carriers' subscribers.

Subpart H—Reciprocal Compensation for Transport and Termination of Telecommunications Traffic

EDITORIAL NOTE: Nomenclature changes to subpart H of part 51 appear at 66 FR 26806, May 15, 2001.

§ 51.700 Purpose of this subpart.

The purpose of this subpart, as revised in 2011 by FCC 11-161 is to establish rules governing the transition of intercarrier compensation from a calling-party's-network pays system to a default bill-and-keep methodology. Following the transition, the exchange of telecommunications traffic between and among service providers will, by default, be governed by bill-and-keep arrangements.

NOTE TO § 51.700: See FCC 11-161, figure 9 (chart identifying steps in the transition).

[76 FR 73854, Nov. 29, 2011]

§ 51.701 Scope of transport and termination pricing rules.

(a) Effective December 29, 2011, compensation for telecommunications traffic exchanged between two telecommunications carriers that is interstate or intrastate exchange access, information access, or exchange services for such access, other than special access, is specified in subpart J of this part. The provisions of this subpart apply to Non-Access Reciprocal Compensation for transport and termination of Non-Access Telecommunications Traffic between LECs and other telecommunications carriers.

(b) *Non-Access Telecommunications Traffic*. For purposes of this subpart, Non-Access Telecommunications Traffic means:

(1) Telecommunications traffic exchanged between a LEC and a telecommunications carrier other than a CMRS provider, except for telecommunications traffic that is interstate or intrastate exchange access, information access, or exchange services for such access (see FCC 01-131, paragraphs 34, 36, 39, 42-43); or

(2) Telecommunications traffic exchanged between a LEC and a CMRS provider that, at the beginning of the call, originates and terminates within the same Major Trading Area, as defined in § 24.202(a) of this chapter.

(3) This definition includes telecommunications traffic exchanged between a LEC and another telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in IP format and that otherwise meets the definitions in paragraphs (b)(1) or (b)(2) of this section. Telecommunications traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

(c) *Transport*. For purposes of this subpart, transport is the transmission and any necessary tandem switching of Non-Access Telecommunications Traffic subject to section 251(b)(5) of the Communications Act of 1934, as amended, 47 U.S.C. 251(b)(5), from the interconnection point between the two carriers to the terminating carrier's end

§ 51.703

office switch that directly serves the called party, or equivalent facility provided by a carrier other than an incumbent LEC.

(d) *Termination.* For purposes of this subpart, termination is the switching of Non-Access Telecommunications Traffic at the terminating carrier's end office switch, or equivalent facility, and delivery of such traffic to the called party's premises.

(e) *Non-Access Reciprocal Compensation.* For purposes of this subpart, a Non-Access Reciprocal Compensation arrangement between two carriers is either a bill-and-keep arrangement, per § 51.713, or an arrangement in which each carrier receives intercarrier compensation for the transport and termination of Non-Access Telecommunications Traffic.

[61 FR 45619, Aug. 29, 1996, as amended at 66 FR 26806, May 15, 2001; 76 FR 73855, Nov. 29, 2011]

§ 51.703 Non-Access reciprocal compensation obligation of LECs.

(a) Each LEC shall establish Non-Access Reciprocal Compensation arrangements for transport and termination of Non-Access Telecommunications Traffic with any requesting telecommunications carrier.

(b) A LEC may not assess charges on any other telecommunications carrier for Non-Access Telecommunications Traffic that originates on the LEC's network.

(c) Notwithstanding any other provision of the Commission's rules, a LEC shall be entitled to assess and collect the full charges for the transport and termination of Non-Access Telecommunications Traffic, regardless of whether the local exchange carrier assessing the applicable charges itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected VoIP service, as defined in 47 U.S.C. 153(25), or a non-interconnected VoIP service, as defined in 47 U.S.C. 153(36), that does not itself seek to collect Non-Access Reciprocal Compensation charges for the transport and termination of that Non-Access Telecommunications Traffic. In no event

47 CFR Ch. I (10–1–13 Edition)

may the total charges that a LEC may assess for such service to the called location exceed the applicable transport and termination rate. For purposes of this section, the facilities used by the LEC and affiliated or unaffiliated provider of interconnected VoIP service or a non-interconnected VoIP service for the transport and termination of such traffic shall be deemed an equivalent facility under § 51.701.

[76 FR 73855, Nov. 29, 2011]

§ 51.705 LECs' rates for transport and termination.

(a) Notwithstanding any other provision of the Commission's rules, by default, transport and termination for Non-Access Telecommunications Traffic exchanged between a local exchange carrier and a CMRS provider within the scope of § 51.701(b)(2) shall be pursuant to a bill-and-keep arrangement, as provided in § 51.713.

(b) Establishment of incumbent LECs' rates for transport and termination:

(1) This provision applies when, in the absence of a negotiated agreement between parties, state commissions establish Non-Access Reciprocal Compensation rates for the exchange of Non-Access Telecommunications Traffic between a local exchange carrier and a telecommunications carrier other than a CMRS provider where the incumbent local exchange carriers did not have any such rates as of December 29, 2011. Any rates established pursuant to this provision apply between December 29, 2011 and the date at which they are superseded by the transition specified in paragraphs (c)(2) through (c)(5) of this section.

(2) An incumbent LEC's rates for transport and termination of telecommunications traffic shall be established, at the election of the state commission, on the basis of:

(i) The forward-looking economic costs of such offerings, using a cost study pursuant to §§ 51.505 and 51.511; or

(ii) A bill-and-keep arrangement, as provided in § 51.713.

(3) In cases where both carriers in a Non-Access Reciprocal Compensation arrangement are incumbent LECs, state commissions shall establish the rates of the smaller carrier on the basis
