

(1) For which qualifying low-income consumers pay reduced charges as a result of application of the Lifeline support amount described in § 54.403; and

(2) That provides qualifying low-income consumers with voice telephony service as specified in § 54.101(a). Toll limitation service does not need to be offered for any Lifeline service that does not distinguish between toll and non-toll calls in the pricing of the service. If an eligible telecommunications carrier charges Lifeline subscribers a fee for toll calls that is in addition to the per month or per billing cycle price of the subscribers' Lifeline service, the carrier must offer toll limitation service at no charge to its subscribers as part of its Lifeline service offering.

(b) Eligible telecommunications carriers may allow qualifying low-income consumers to apply Lifeline discounts to any residential service plan that includes voice telephony service, including bundled packages of voice and data services; and plans that include optional calling features such as, but not limited to, caller identification, call waiting, voicemail, and three-way calling. Eligible telecommunications carriers may also permit qualifying low-income consumers to apply their Lifeline discount to family shared calling plans.

(c) Eligible telecommunications carriers may not collect a service deposit in order to initiate Lifeline service for plans that:

(1) Do not charge subscribers additional fees for toll calls; or

(2) That charge additional fees for toll calls, but the subscriber voluntarily elects toll limitation service.

(d) When an eligible telecommunications carrier is designated by a state commission, the state commission shall file or require the eligible telecommunications carrier to file information with the Administrator demonstrating that the carrier's Lifeline plan meets the criteria set forth in this subpart and describing the terms and conditions of any voice telephony service plans offered to Lifeline subscribers, including details on the number of minutes provided as part of the plan, additional charges, if any, for toll calls, and rates for each such plan. To the extent the eligible telecommuni-

cations carrier offers plans to Lifeline subscribers that are generally available to the public, it may provide summary information regarding such plans, such as a link to a public Web site outlining the terms and conditions of such plans. Lifeline assistance shall be made available to qualifying low-income consumers as soon as the Administrator certifies that the carrier's Lifeline plan satisfies the criteria set out in this subpart.

(e) Consistent with § 52.33(a)(1)(i)(C) of this chapter, eligible telecommunications carriers may not charge Lifeline customers a monthly number-portability charge.

[77 FR 12967, Mar. 2, 2012]

§ 54.403 Lifeline support amount.

(a) The federal Lifeline support amount for all eligible telecommunications carriers shall equal:

(1) *Basic support amount.* Federal Lifeline support in the amount of \$9.25 per month will be made available to an eligible telecommunications carrier providing Lifeline service to a qualifying low-income consumer, if that carrier certifies to the Administrator that it will pass through the full amount of support to the qualifying low-income consumer and that it has received any non-federal regulatory approvals necessary to implement the rate reduction.

(2) *Tribal lands support amount.* Additional federal Lifeline support of up to \$25 per month will be made available to an eligible telecommunications carrier providing Lifeline service to an eligible resident of Tribal lands, as defined in § 54.400 (e), to the extent that the eligible telecommunications carrier certifies to the Administrator that it will pass through the full Tribal lands support amount to the qualifying eligible resident of Tribal lands and that it has received any non-federal regulatory approvals necessary to implement the required rate reduction.

(b) *Application of Lifeline discount amount.* (1) Eligible telecommunications carriers that charge federal End User Common Line charges or equivalent federal charges must apply federal Lifeline support to waive the federal End User Common Line charges for Lifeline subscribers. Such carriers

must apply any additional federal support amount to a qualifying low-income consumer's intrastate rate, if the carrier has received the non-federal regulatory approvals necessary to implement the required rate reduction. Other eligible telecommunications carriers must apply the federal Lifeline support amount, plus any additional support amount, to reduce the cost of any generally available residential service plan or package offered by such carriers that provides voice telephony service as described in § 54.101, and charge Lifeline subscribers the resulting amount.

(2) Where a subscriber makes only a partial payment to an eligible telecommunications carrier for a bundled service package, the eligible telecommunications carrier must apply the partial payment first to the allocated price of the voice telephony service component of the package and then to the cost of any additional services included in the bundled package.

(c) *Toll limitation service.* An eligible telecommunications carrier providing toll limitation service voluntarily elected by Lifeline subscribers whose Lifeline plans would otherwise include a fee for placing a toll call that would be in addition to the per month or per billing cycle price of the subscriber's Lifeline service, shall, for April 2012 Lifeline disbursements through December 2013 Lifeline disbursements, receive support in an amount equal to the lesser of:

(1) The eligible telecommunications carrier's incremental cost of providing either toll blocking services or toll control services to each Lifeline subscriber who has selected such service; or

(2) The following amounts for each Lifeline subscriber who has selected toll blocking services or toll control services:

- (i) \$3.00 per month per subscriber during 2012; and
- (ii) \$2.00 per month per subscriber during 2013.

§ 54.404 The National Lifeline Accountability Database.

(a) *State certification.* An eligible telecommunications carrier operating in a

state that provides an approved valid certification to the Commission in accordance with this section is not required to comply with the requirements set forth in paragraphs (b) and (c) of this section with respect to the eligible telecommunications carriers' subscribers in that state. A valid certification must include a statement that the state has a comprehensive system in place to prevent duplicative federal Lifeline support that is at least as robust as the system adopted by the Commission and that incorporates information from all eligible telecommunications carriers receiving low-income support in the state and their subscribers. A valid certification must also describe in detail how the state system functions and for each requirement adopted by the Commission to prevent duplicative support, how the state system performs the equivalent functions. The certification must be submitted to the Commission no later than six months from the effective date of this section of the Commission's rules to be valid. Such certification will be considered approved unless the Wireline Competition Bureau rejects the certification within 90 days of filing.

(b) *The National Lifeline Accountability Database.* In order to receive Lifeline support, eligible telecommunications carriers operating in states that have not provided the Commission with approved valid certification pursuant to paragraph (a) of this section must comply with the following requirements:

(1) All eligible telecommunications carriers must query the National Lifeline Accountability Database to determine whether a prospective subscriber who has executed a certification pursuant to § 54.410(d) is currently receiving a Lifeline service from another eligible telecommunications carrier; and whether anyone else living at the prospective subscriber's residential address is currently receiving a Lifeline service.

(2) If the Database indicates that a prospective subscriber, who is not seeking to port his or her telephone number, is currently receiving a Lifeline service, the eligible telecommunications carrier must not provide and
