

Program shall apply only to the portion of eligible services used by an eligible health care provider.

(b) *Telecommunications Services.* Any telecommunications service that is the subject of a properly completed bona fide request by a rural health care provider shall be eligible for universal service support, subject to the limitations described in this paragraph. The length of a supported telecommunications service may not exceed the distance between the health care provider and the point farthest from that provider on the jurisdictional boundary of the largest city in a state as defined in § 54.625(a).

(c) *Existing contracts.* A signed contract for services eligible for Telecommunications Program support pursuant to this subpart between an eligible health care provider as defined under § 54.600 and a telecommunications carrier shall be exempt from the competitive bid requirements set forth in § 54.603(a) as follows:

(1) A contract signed on or before July 10, 1997 is exempt from the competitive bid requirement for the life of the contract.

(2) [Reserved]

(d) For rural health care providers that take service under or pursuant to a master contract, as defined in § 54.500(f), the date of execution of that master contract represents the applicable date for purposes of determining whether and to what extent the rural health care provider is exempt from the competitive bid requirements.

(e) The competitive bid system will be deemed to be operational when the Administrator is ready to accept and post FCC Form 465 from rural health care providers on a website and that website is available for use by telecommunications carriers.

#### § 54.605 Determining the urban rate.

(a) If a rural health care provider requests support for an eligible service to be funded from the Telecommunications Program that is to be provided over a distance that is less than or equal to the “standard urban dis-

tance,” as defined in paragraph (c) of this section, for the state in which it is located, the “urban rate” for that service shall be a rate no higher than the highest tariffed or publicly-available rate charged to a commercial customer for a functionally similar service in any city with a population of 50,000 or more in that state, calculated as if it were provided between two points within the city.

(b) If a rural health care provider requests an eligible service to be provided over a distance that is greater than the “standard urban distance,” as defined in paragraph (c) of this section, for the state in which it is located, the urban rate for that service shall be a rate no higher than the highest tariffed or publicly-available rate charged to a commercial customer for a functionally similar service provided over the standard urban distance in any city with a population of 50,000 or more in that state, calculated as if the service were provided between two points within the city.

(c) The “standard urban distance” for a state is the average of the longest diameters of all cities with a population of 50,000 or more within the state.

(d) The Administrator shall calculate the “standard urban distance” and shall post the “standard urban distance” and the maximum supported distance for each state on its website.

#### § 54.607 Determining the rural rate.

(a) The rural rate shall be the average of the rates actually being charged to commercial customers, other than health care providers, for identical or similar services provided by the telecommunications carrier providing the service in the rural area in which the health care provider is located. The rates included in this average shall be for services provided over the same distance as the eligible service. The rates averaged to calculate the rural rate must not include any rates reduced by universal service support mechanisms. The “rural rate” shall be used as described in this subpart to determine the credit or reimbursement due to a
