

§ 76.916

§ 76.916 Petition for recertification.

(a) After its request for certification has been denied or its existing certification has been revoked, a franchising authority wishing to assume jurisdiction to regulate basic service and associated equipment rates must file a "Petition for Recertification" accompanied by a copy of the earlier decision denying or revoking certification.

(b) The petition must:

(1) Meet the requirements set forth in 47 U.S.C. 543(a)(3);

(2) State that the cable system is not subject to effective competition; and

(3) Contain a clear showing, supported by either objectively verifiable data such as a state statute, or by affidavit, that the reasons for the earlier denial or revocation no longer pertain.

(c) The petition must be served on the cable operator and on any interested party that participated in the proceeding denying or revoking the original certification.

(d) Oppositions may be filed within 15 days after the petition is filed, and must be served on the petitioner. Replies may be filed within seven days of filing of oppositions, and must be served on the opposing party(ies).

§ 76.917 Notification of certification withdrawal.

A franchising authority that has been certified to regulate rates may, at any time, notify the Commission that it no longer intends to regulate basic cable rates. Such notification shall include the franchising authority's determination that rate regulation no longer serves the interests of cable subscribers served by the cable system within the franchising authority's jurisdiction, and that it has received no consideration for its withdrawal of certification. Such notification shall be served on the cable operator. The Commission retains the right to review such determinations and to request the factual finding of the franchising authority underlying its decision to withdraw certification. The franchising authority's withdrawal becomes effective upon notification to the Commission.

47 CFR Ch. I (10–1–13 Edition)

§ 76.920 Composition of the basic tier.

Every subscriber of a cable system must subscribe to the basic tier in order to subscribe to any other tier of video programming or to purchase any other video programming.

§ 76.921 Buy-through of other tiers prohibited.

(a) No cable system operator, other than an operator subject to effective competition, may require the subscription to any tier other than the basic service tier as a condition of subscription to video programming offered on a per channel or per program charge basis. A cable operator may, however, require the subscription to one or more tiers of cable programming services as a condition of access to one or more tiers of cable programming services.

(b) A cable operator not subject to effective competition may not discriminate between subscribers to the basic service tier and other subscribers with regard to the rates charged for video programming offered on a per-channel or per-program charge basis.

(c) With respect to cable systems not subject to effective competition, prior to October 5, 2002, the provisions of paragraph (a) of this section shall not apply to any cable system that lacks the capacity to offer basic service and all programming distributed on a per channel or per program basis without also providing other intermediate tiers of service:

(1) By controlling subscriber access to nonbasic channels of service through addressable equipment electronically controlled from a central control point; or

(2) Through the installation, non-installation, or removal of frequency filters (traps) at the premises of subscribers without other alteration in system configuration or design and without causing degradation in the technical quality of service provided.

(d) With respect to cable systems not subject to effective competition, any retiering of channels or services that is not undertaken in order to accomplish legitimate regulatory, technical, or customer service objectives and that is intended to frustrate or has the effect
