LISTS CONTAINING INFORMATION COMPILED BY THE COMMISSION

§0.431 The FCC service frequency lists.

Lists of frequency assignments to radio stations authorized by the Commission are recapitulated periodically by means of an automated record system. All stations licensed by the Commission are included, except the following: Aircraft, amateur, personal (except General Mobile Radio Service), Civil Air Patrol, and disaster. The resulting documents, the FCC service frequency lists, consist of several volumes arranged by nature of service, in frequency order, including station locations, call signs and other technical particulars of each assignment. These documents are available for public inspection in Washington, D.C., in the Office of Engineering and Technology. Copies may be purchased from the Commission's duplicating contractor. See §0.465(a).

[64 FR 60722, Nov. 8, 1999]

§0.434 Data bases and lists of authorized broadcast stations and pending broadcast applications.

Periodically the FCC makes available copies of its data bases and lists containing information about authorized broadcast stations, pending applications for such stations, and rule-making proceedings involving amendments to the TV and FM Table of Allotments. The data bases, and the lists prepared from the data bases, contain frequencies, station locations, and other particulars. The lists are available for public inspection at the FCC's Reference Information Center at 445 12th Street, SW., Washington, DC. Paper copies of the lists may be purchased from the FCC's duplicating contractor; see §0.465(a). Many of the data bases may be viewed at the Commission's web site at *www.fcc.gov* and *ftp.fcc.gov* under mass media services. Microfiche copies of these lists are maintained by the Reference Information Center. These lists are derived from the data bases and can be used as an alternative research source to the Broadcast Application Processing System (BAPS).
