§ 54.310 Connect America Fund for Price Cap Territories—Phase II

(a) *Geographic areas eligible for support.* Connect America Phase II support may be made available for census blocks or other areas identified as eligible by public notice, including locations identified by the forward-looking cost model as extremely high-cost. The number of supported locations will be identified for each area eligible for support will be identified by public notice.

(b) *Term of support.* Connect America Phase II model-based support shall be provided to price cap carriers that elect to make a state-wide commitment for five years. Connect America Phase II support awarded through a competitive bidding process shall be provided for ten years.

(c) *Deployment schedule.* Recipients of Phase II funding must complete deployment to 85% of supported locations within three years of notification of Phase II support authorization and to 100% of supported locations within five years of notification of Phase II support authorization. For purposes of meeting the obligation to deploy to the requisite number of supported locations, incumbent price cap carriers accepting a state-level commitment may serve locations in census blocks with costs above the extremely high-cost threshold instead of locations in eligible census blocks, provided that they meet the public interest obligations set forth in § 54.309 for those locations, and provided that the total number of locations covered is greater than or equal to the number of locations in the eligible census blocks for which the state-level commitment is made.

(d) *Disbursement of Phase II funding.* An eligible telecommunications carrier will be advised by public notice when it is authorized to receive support. The public notice will detail how disbursements will be made.

(e) *Provider eligibility.* Any eligible telecommunications carrier is eligible to receive Connect America Phase II support in eligible areas.
