

bankruptcy, or otherwise fails to meet its obligations. Except for the responsibilities specifically described in paragraphs (c)(2) through (c)(6) of this section, consortia may allocate legal and financial responsibility as they see fit, provided that this allocation is memorialized in a formal written agreement between the affected parties (*i.e.*, the Consortium Leader, and the consortium as a whole and/or its individual members), and the written agreement is submitted to the Administrator for approval with or prior to the Request for Services. Any such agreement must clearly identify the party(ies) responsible for repayment if the Administrator is required, at a later date, to recover disbursements to the consortium due to violations of program rules.

(2) *Point of contact for the FCC and Administrator.* The Consortium Leader is responsible for designating an individual who will be the “Project Coordinator” and serve as the point of contact with the Commission and the Administrator for all matters related to the consortium. The Consortium Leader is responsible for responding to Commission and Administrator inquiries on behalf of the consortium members throughout the application, funding, invoicing, and post-invoicing period.

(3) *Typical applicant functions, including forms and certifications.* The Consortium Leader is responsible for submitting program forms and required documentation and ensuring that all information and certifications submitted are true and correct. The Consortium Leader must also collect and retain a Letter of Agency (LOA) from each member, pursuant to § 54.632.

(4) *Competitive bidding and cost allocation.* The Consortium Leader is responsible for ensuring that the competitive bidding process is fair and open and otherwise complies with Commission requirements. If costs are shared by both eligible and ineligible entities, the Consortium Leader must ensure that costs are allocated in a manner that ensures that only eligible entities receive the benefit of program discounts.

(5) *Invoicing.* The Consortium Leader is responsible for notifying the Administrator when supported services have

commenced and for submitting invoices to the Administrator.

(6) *Recordkeeping, site visits, and audits.* The Consortium Leader is also responsible for compliance with the Commission’s recordkeeping requirements and for coordinating site visits and audits for all consortium members.

§ 54.632 Letters of agency (LOA).

(a) *Authorizations.* Under the Healthcare Connect Fund, the Consortium Leader must obtain the following authorizations.

(1) Prior to the submission of the request for services, the Consortium Leader must obtain authorization, the necessary certifications, and any supporting documentation from each consortium member to permit the Consortium Leader to submit the request for services and prepare and post the request for proposal on behalf of the member.

(2) Prior to the submission of the funding request, the Consortium Leader must secure authorization, the necessary certifications, and any supporting documentation from each consortium member to permit the Consortium Leader to submit the funding request and manage invoicing and payments on behalf of the member.

(b) *Optional two-step process.* The Consortium Leader may secure both required authorizations from each consortium member in either a single LOA or in two separate LOAs.

(c) *Required Information in LOA.* (1) An LOA must include, at a minimum, the name of the entity filing the application (*i.e.*, lead applicant or Consortium Leader); name of the entity authorizing the filing of the application (*i.e.*, the participating health care provider/consortium member); the physical location of the health care provider/consortium member site(s); the relationship of each site seeking support to the lead entity filing the application; the specific timeframe the LOA covers; the signature, title and contact information (including phone number, mailing address, and email address) of an official who is authorized to act on behalf of the health care provider/consortium member; signature date; and

the type of services covered by the LOA.

(2) For HCPs located on Tribal lands, if the health care facility is a contract facility that is run solely by the tribe, the appropriate tribal leader, such as the tribal chairperson, president, or governor, shall also sign the LOA, unless the health care responsibilities have been duly delegated to another tribal government representative.

§ 54.633 Health care provider contribution.

(a) *Health care provider contribution.* All health care providers receiving support under the Healthcare Connect Fund shall receive a 65 percent discount on the cost of eligible expenses and shall be required to contribute 35 percent of the total cost of all eligible expenses.

(b) *Limits on eligible sources of health care provider contribution.* Only funds from eligible sources may be applied toward the health care provider's required contribution.

(1) Eligible sources include the applicant or eligible health care provider participants; state grants, funding, or appropriations; federal funding, grants, loans, or appropriations except for other federal universal service funding; Tribal government funding; and other grant funding, including private grants.

(2) Ineligible sources include (but are not limited to) in-kind or implied contributions from health care providers; direct payments from vendors or other service providers, including contractors and consultants to such entities; and for-profit entities.

(c) *Disclosure of health care provider contribution source.* Prior to receiving support, applicants are required to identify with specificity their sources of funding for their contribution of eligible expenses.

(d) *Future revenues from excess capacity as source of health care provider contribution.* A consortium applicant that receives support for participant-owned network facilities under § 54.636 may use future revenues from excess capacity as a source for the required health care provider contribution, subject to the following limitations.

(1) The consortium's selection criteria and evaluation for "cost-effectiveness" pursuant to § 54.642 cannot provide a preference to bidders that offer to construct excess capacity.

(2) The applicant must pay the full amount of the additional costs for excess capacity facilities that will not be part of the supported health care network.

(3) The additional cost of constructing excess capacity facilities may not count toward a health care provider's required contribution.

(4) The inclusion of excess capacity facilities cannot increase the funded cost of the dedicated health care network in any way.

(5) An eligible health care provider (typically the consortium, although it may be an individual health care provider participating in the consortium) must retain ownership of the excess capacity facilities. It may make the facilities available to third parties only under an indefeasible right of use (IRU) or lease arrangement. The lease or IRU between the participant and the third party must be an arm's length transaction. To ensure that this is an arm's length transaction, neither the vendor that installs the excess capacity facilities nor its affiliate is eligible to enter into an IRU or lease with the participant.

(6) Any amount prepaid for use of the excess capacity facilities (IRU or lease) must be placed in an escrow account. The participant can then use the escrow account as an eligible source of funds for the participant's 35 percent contribution to the project.

(7) All revenues from use of the excess capacity facilities by the third party must be used for the health care provider contribution or for sustainability of the health care network supported by the Healthcare Connect Fund. Network costs that may be funded with any additional revenues that remain include administration, equipment, software, legal fees, or other costs not covered by the Healthcare Connect Fund, as long as they are relevant to sustaining the network.
